YOUR TAXES PAID WITH WHAT YOU SAVE

Kill RATS, MICE with WARFARIN!

Save \$25.00 to \$250.00 per year in town or city!
Save \$250.00 to \$2500.00 per year on the farm!
We can't readily realize how great the out of pocket loss is to every city, town or farm family every year with rats and mice feeding, and plundering, cutting and ruining clothes, feed bags, materials, etc., all of which cost money. They kill baby chicks, eat eggs, waste feed and food and contaminate our homes with disease germs. Science gives us a sure way to kill them out. Now is the best time to start.

The home of the president of Hastings and the homes of others of the Hastings' seed store family have been free of rats and mice since WARFARIN was introduced about three years ago.

Your home can be freed too! Act at once for every day you wait is a day lost.

Hopkins' WARFARIN "Redi-Mix" Pellets. 2 lbs., \$1.95. Postpaid.

Hopkins' WARFARIN "Redi-Mix" Pellets. 5 lbs., \$3.75. Postpaid.

Hopkins' WARFARIN "Redi-Mix" Meal. 5 lbs., \$3.35. Postpaid.

Hopkins' RATTUNNL and Batt. 1 Lb., \$1.49. Postpaid.

Complete directions with each order.

WHAT IS THIS "KRILIUM" SOIL CONDITIONER?

Tremendous strides in scientific research have uncovered many "marvels" within the generation, but none have quite equaled "KRILIUM" in exciting public interest and imagination! The product of Monsanto Chemical Co., one of the world's finest organizations, is the only soil conditioner which has been proven in the field as well as in greenhouses and laboratories for five years. KRILIUM is a very pale, very fine dust material that must be thoroughly mixed with the soil for it to accomplish the aggregation of the soil particles (clay, silt, etc.), resulting in an ideal porous, loamy condition for better moisture and food storage capacity and for far better helpful bacteria action so necessary for maximum plant growth. No soil conditioner takes the place of fertilizer or of humus materials! None can be merely sprinkled on the surface. KRILIUM makes possible the more efficient use of the available food while enabling roots to penetrate more deeply to attain better heat and drought resistance and to reach more food and moisture for greater development.

Many substitutes have been offered but there is only one, the original KRILIUM, which we at Hastings have thoroughly tested and recommend to you to do the job that the world of science acknowledges can now be done.

1. KRILIUM makes tight soil porous, loamy.
2. KRILIUM makes plant food go farther.
3. KRILIUM makes moisture last longer.
4. KRILIUM makes deeper rooting.
5. KRILIUM is permanent.

6. KRILIUM is expensive but efficient.
7. KRILIUM "Merloam" is for small areas.
8. KRILIUM "Loamaker" is for larger garden use.

KRILIUM PRICES LOWERED

- 1 lb. KRILIUM "Merloam" treats 10-20 sq. ft. \$1.39. Postpaid.
- 5 lb. KRILIUM "Merloam" treats 50-100 sq. ft. \$4.95. Postpaid.
- 10 lb. KRILIUM "Loamaker" treats 500-1000 sq. ft. \$25.00. Postpaid.

Hastings has been recognized by the makers of KRILIUM as a key distributor in the South and we invite dealers and wholesalers to write us for information and case lot prices.

Treat Your Garden With Krilium

SPECIAL OFFER — TWO YEARS' READING FOR ONLY \$1.00

FIVE YEARS FOR \$2.00—SEND NEW SUBSCRIPTION OR RENEWAL ORDER IMMEDIATELY!

THE PROGRESSIVE FARMER

"I recommend THE PROGRESSIVE FARMER above all others." — Donald Hastings, President, H. G. Hastings Co.

We have always recommended to our garden and farm customers that they read our own Southern written, Southern edited magazines and we are very happy to say that you may now include your subscription along with your regular order to us and we will handle it for you at this remarkable bargain price. Present subscribers may add to their subscriptions at this low rate.

With over one million copies sent monthly to all sections of the South you are sure to have the best advice for our Southern soils and climatic conditions to fit in with Hastings' seeds and plants and bulbs which are the best also. Edited and written in five separate zone editions you get first hand the latest and most authentic garden and farm news no matter what section of the South you live in.

The Carolinas-Virginia edition. The Georgia, Alabama, Florida edition.
The Kentucky, Tennessee edition.
The Mississippi, Arkansas, Louisiana edition.
The Texas edition.

We will send you the proper edition for where you live. Just think of it! Five full years of this modern Southern garden and farm magazine delivered to you for only \$2.00. This is positively all you pay! Even if your present subscription has not expired we will just add the number of years to your present amount. Send in your subscription or renewal today, together with your seed order or separately if you wish. (There are absolutely no strings tied to this marvelous offer.) The subscription or renewal price is \$2.00 for 5 years or \$1.00 for 2 years! Please advise if new or renewal.

All-America Vegetables for the South

ALL-AMERICA VEGETABLE GARDEN FOR 1954

The official judges have reviewed the All America vegetable winners since the selections began in 1932, and picked the most worthy. Hastings offers you the following 11 of those selected. Descriptions on page noted. These have proven extra well suited for our Southern soils and climate.

Fordhook 242 Bush Lima Bean (p. 6)
Ey. Prol. Straightneck Squash (p. 33)
Perfected Detroit Beet (p. 8)
Imperator Carrot (p. 9)
Cherry Belle Radish (p. 32)
Top Crop Bush Snapbean (p. 5)
Pritchard Tomato (p. 36)
America Spinach (p. 34)
Premier Great Lakes Lettuce (p. 19)
Iochief Sweet Corn (p. 13)
Marketer Cucumber (p. 15)

**Time Tested—Time Proven
BUY ALL AMERICA SELECTIONS**

 **23 WADE SNAPBEAN.** Coveted 1952 Gold Medal Winner. A new U. S. D. A. development with disease resistance and smooth quality market appearance. Cans and freezes well, fine in home garden and a superb Market variety. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 70c. 2 Lbs., \$1.25. 5 Lbs., \$2.85

 **218 SALAD BOWL LETTUCE.** 1952 Gold Medal Winner. Strictly for the home garden, the name is perfect as a single rosette of the rich, green and very decorative leaves fill a bowl with green salad, ready for dressing and serving A splendid novelty. Pkt., 25c.

 **414 AMERICA SPINACH.** 1952 Silver Medal Award. A new, very dark green, savory leaf spinach that resists heat and sun. Good in the South. Oz., 15c. $\frac{1}{4}$ Lb., 30c. Lb., 90c. Postpaid.

 **380 CHERRY BELLE RADISH.** 1949 All America Bronze Medal. A small round brightest cherry scarlet Radish that matures quickly to delicious eating stage. Pkt., 10c. Oz., 25c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.50.

 **207 PREMIER GREAT LAKES LETTUCE.** 1949 All America Bronze Medal. A new Great Lakes selection that makes solid heads even under very difficult conditions. Excellent for the South! Pkt., 15c. Oz., 60c. $\frac{1}{4}$ Lb., \$1.75. Lb., \$5.50.

ALL-AMERICA SELECTIONS

The All-America selections each year are the most worthy new varieties being introduced from around the world. The many proposed introductions are tried out in all sections of America, including our own South under our supervision. Twenty vegetables and 24 flower judges in whom we all have the greatest confidence, watch over these trials and select the most outstanding for awards as the best of their kinds or colors to date. They are different. They are good. They should do well in your garden. Be the first to grow and show them. Our Mr. Donald Hastings is an All-America trial judge for both flowers and vegetables.

 **37 TOPCROP SNAPBEAN.** 1950 Gold Medal Winner. A U.S.D.A. creation, Top-crop is of highest eating quality, green, round podded, stringless and fiberless. It is the heaviest bearer of all modern snapbeans and is very resistant to disease. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 70c. 2 Lbs., \$1.30.

 **255 CONGO WATERMELON.** 1950 All America Winner. Bred by the U. S. Lab. at Charleston, Congo combines tough rind of light and dark green stripes with rich, deep red, solid flesh of sweetest flavor. It is probably the most highly disease resistant melon yet introduced! Try it. Pkt., 20c. Oz., 40c. $\frac{1}{4}$ Lb., 90c. Lt., \$2.50. 5 Lbs., \$11.25. 10 Lbs., \$20.00

(4216) Royal Carpet Alyssum, Pkt. 35c

All-America Flowers for the South

 **9921 BLAZE HYBRID ZINNIA.** 1954 All America. (See front cover.) Huge, blazing scarlet flowers of the new Burpee Hybrid type so much in demand. Quilled petals add new novelty interest as well as genuine handsome beauty. Extra large packets, 50c each. 3 for \$1.25. 12 for \$3.95. Postpaid.

 **8210 COMANCHE HYBRID PETUNIA** 1953 All America. Thousands of F1 Hybrid Petunia flowers of richest red color with waved petals on vigorous plants to bloom 'til frost. Genuine hybrid seed. Pkt., 50c. 3 for \$1.25.

 **4216 ROYAL CARPET ALYSSUM.** 1953 All America. Very dwarf beds or borders make royal purple blankets with this colorful novelty for 1953. Pkt., 35c. 3 for 85c. $\frac{1}{4}$ Oz., \$1.60.

 **5733 FIESTA COSMOS.** 1952 Silver Medal Winner. A striking new bicolor Klondyke Cosmos with its orange petals flashed with scarlet. Very gay! Pkt., 25c. 3 for 60c. Oz., \$2.50.

 **8181 FIRE CHIEF PETUNIA.** 1950 Gold Medal winner. Large flowered glowing red, rich and vivid. Growth dwarf, compact. Pkt., 25c. 3 for 60c. $\frac{1}{4}$ Oz., \$5.00.

(4) Bush Kentucky Wonder or Commodore

Hurry Your Harvest With **BUSH SNAP BEANS**

CONTAINS VITAMINS A AND B1

CULTURE—Plant beans in the middle South from March to September. Continuous plantings may be grown through the entire summer. Sow in drills $1\frac{1}{2}$ to 2 feet apart, dropping a bean every 4 in. and cover 1 in. Soil should be warm and moist for good germination. Cultivate often and shallowly until vines blossom; then stop so roots will not be injured. Keep pods picked as they ripen. This keeps them bearing a long time.

$\frac{1}{2}$ Lb. of seed plants 50 ft. row of bush beans, or 100 ft. row of pole beans.

PACKAGES OF BEANS

About the smallest amount of beans to plant is $\frac{1}{4}$ pound, enough for 25-30 ft. of row. Some "bargain" packages are offered for less but they frequently have so few seed in them that they are not worth planting. Hastings' Beans are sold strictly by full net weight!

4 COMMODORE BUSH KENTUCKY WONDER

ALL-AMERICA SELECTION All-America Winner. One of the most popular bush beans that we have ever offered. Being a shy seeder we have not been able to offer it in quantity, but now we have an even more vigorous strain producing long, slightly curved, rounded, meaty and delicious pods that indicate that superb Kentucky Wonder flavor that has been matchless for generations. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 75c. 2 Lbs., \$1.40. 5 Lbs., \$3.25. 10 Lbs., \$5.75. Postpaid.

24 STRINGLESS BLACK VALENTINE

ALL-AMERICA SELECTION All-America Winner. 49 days to picking. Stringless form of Black Valentine, especially adapted for early home use, market gardening and early shipping. It is hardier and will stand earlier planting than most beans. It is disease-resistant. Plant large, erect, prolific. Nearly straight dark green oval pods, strictly stringless, meaty, of fine quality and flavor. Pods about $6\frac{1}{2}$ in. long, $\frac{3}{8}$ in. wide. Seeds black. Plant this for the best early, disease-resistant bean.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

11 Bountiful Stringless

49 days. Market garden, shipping and early home garden variety; very popular for earliest garden snaps. Plant medium large, very thrifty and prolific. Pods thick-flat, light green, stringless, slightly fibrous. There is very little string on an old pod, unnoticeable in the snap stage. Pods are tender and brittle, of fine quality and handsome appearance with long, broad, long-tipped, straight form. Pods $6\frac{1}{2}$ in. long. $\frac{1}{2}$ in. wide. Seeds are straw colored.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

25 Genuine Red Valentine

Round Podded—52 days. The old dependable bush bean of the South for home gardens, market and shipping.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

6 HASTINGS' STRINGLESS GREEN POD BEANS

52 days. The first of the really stringless beans which maintains its top bean flavor. Stringless and fiberless from the first pods until full grown. Makes pods $5\frac{1}{2}$ to 6 in. long, $\frac{1}{2}$ in. thick. Immensely prolific, strong, vigorous grower; comes into bearing early and continues to bear after other bush varieties have gone. Of greatest value for the home garden or nearby markets, where quality combined with heaviest yields is desired. Seeds coffee-brown. We recommend it fully.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75.

ROTENONE DUST—FOR BEAN BEETLES

If you live in areas where bean beetles are troublesome you need worry no longer. Rotenone Dust is recommended as the best and perfectly safe control. Get some with your seed and have it ready. 4 Lbs., \$1.39. Postpaid.

Asparagus

2 MARY WASHINGTON ASPARAGUS SEED

Best variety grown—giant sized, highest yielding and most tender. Extremely resistant to rust, vigorous grower and most uniform market type. Plant seed this spring for roots to set out next spring.

Packet plants 50 ft. row. Pkt., 10c. Oz., 25c. $\frac{1}{4}$ Lb., 60c. Lb., \$2.00. Postpaid.

3 MARY WASHINGTON ASPARAGUS ROOTS

Hastings' fine grown roots. Save 1 to 2 years' time with roots and have the finest and tenderest tips. 100 roots plant a 20 by 25 ft. bed. 50 roots, \$2.00. 100 roots, \$3.50. Postpaid.

A Garden Full of Beans All Summer for . . 69c

Collection of one full packet each of our famous Tendergreen Stringless Green Pod and Sure Crop Stringless Wax Pod bush snap beans, McCaslan Pole and Henderson Bush Lima. Bush beans, pole beans and Limas. All 4 packets for 69c. Postpaid. (80c value.)

23 WADE SNAPBEAN

ALL-AMERICA SELECTION 1952 All-America Winner. Developed at the U. S. Laboratory at Charleston for our Southern conditions and has won praise everywhere for its enormous yields and excellent marketability. The pods are well filled and very firm making it superb for all purposes—canning, freezing, eating fresh and shipping. Judges from the entire country attest to its splendid qualities for home and market.

$\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 75c. 2 Lbs., \$1.40. Postpaid.

PICK BEANS TENDER-FRESH for FLAVOR

31 Ranger White Half Runner (Stringless)

ALL-AMERICA SELECTION 56 days. Recognized by leading authorities throughout the U. S. as being one of outstanding new beans of the times. Genuine half runners simply loaded with medium round, positively stringless and delicious light green pods. Seeds are pure white, ideal for shelling. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 70c. 2 Lbs., \$1.30. 5 Lbs. \$2.85. 10 Lbs., \$4.85. Postpaid.

12 Giant Stringless Green Pod

54 days. For market gardening, shipping and canning. Plant large, sturdy, prolific. Pods medium green, round, meaty, stringless and brittle. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

KILL RATS - MICE!

See page 2 for information about this sensational safer killer of the filthy, disease carrying pests that overrun our homes and farm buildings. It is estimated that the food and feed saved each year will be enough to pay your property taxes. The most popular package—2 Lbs., Redimix Warfarin pellets (easiest to use) \$1.95. Postpaid.

21 TENDERGREEN BEANS

ALL-AMERICA Gold Medal Winner. 53 days. Splendid for home, market and canning. Plant medium large, erect, rather thick stemmed and very heavily productive. Pods nearly straight, dark green, round, meaty and succulent; absolutely stringless, totally without fiber, of outstanding quality. Pods 6 to $6\frac{1}{2}$ in. long, $\frac{3}{8}$ in. thick. Seeds brownish buff with purple mottling. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

...and Cook Them Quickly

(37) Top Crop Snap Bean

22 Tennessee Green Pod Bean

54 days. A great favorite in many parts of the South. It is a heavy bearer with meaty pods, stringless in early snap stage, good flavor and entirely worthwhile. Pods are large, broad, long and flat, about $6\frac{1}{2}$ in. long by $\frac{3}{4}$ in. wide. Seeds dark brown. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

37 NEW TOP CROP STRINGLESS BEAN

ALL-AMERICA SELECTION 1950 All-America. Brings top eating quality in round, plump, stringless green pods. Just about the heaviest producer of all bush snap beans in tests and a splendid new garden or market sort. It is just about the finest new development in a home garden and market green snap bean that has come out in years. In addition to its remarkable quality and flavor it is very resistant to many diseases that sometimes cause trouble. In other words it is the variety for you to grow in your garden. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 70c. 2 Lbs., \$1.30. 5 Lbs., \$2.85. Postpaid.

YELLOW PODDED BUSH BEANS

30 Improved Golden Wax Bean

52 days. Prolific and vigorous. Pods golden yellow, thick, flat, stringless. 5 in. long. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75.

20 SURECROP STRINGLESS WAX (GOLD)

53 days. The finest wax bean ever introduced. The handsome, rich, yellow pods are 6-7 in. long, very thick, very meaty and sweet; stringless at all stages of growth. Plants are upright in growth, healthy and vigorous. Seeds jet black. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

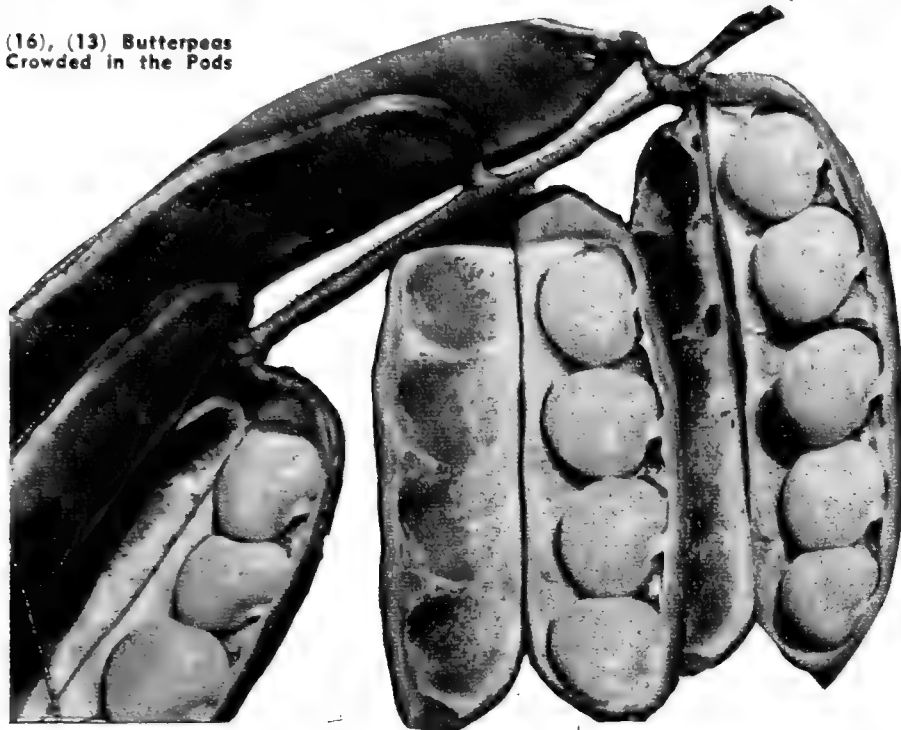

(21) Tendergreen Stringless Green Pod

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

LIMA or BUTTERBEANS--Keep Picking Them and They'll Keep Bearing

(16), (13) Butterpeas
Crowded in the Pods

13 DIXIE BUTTERPEAS

The Bush Favorite to Can, Freeze or Dry Shell

Hastings' own introduction for more prolific Southern Gardens. Without question the finest, meatiest, most delicious bush lima or butter bean ever offered. Strong, vigorous, bushy plants loaded with small to medium pods with almost round, white, richly flavored, nutritious "butterpeas", that continue to bear until frost! May be served fresh, ideally canned or dry shelled. Plant plenty for fresh use, freezing, canning and market. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 70c. 2 Lbs., \$1.35. 5 Lbs., \$2.95. 10 Lbs., \$5.75. Postpaid.

Henderson's
Bush Lima
Beans

*The Great
Southern
Favorite*

40 Fordhook 242 Bush Lima

ALL-AMERICA SELECTION All-America Winner. Superb offering of U.S.D.A., giving us a genuine Fordhook type lima with the distinct advantage of setting and holding crops of beans under general Southern conditions. Order early. It's good. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 45c. Lb., 80c. 2 Lbs., \$1.50. 5 Lbs., \$3.45. Postpaid.

29 Triumph Bush Lima (Very Prolific)

ALL-AMERICA SELECTION 1949 All-America Winner. A new and very prolific bush lima for the South created by the U. S. Dept. Agric. breeding station. Somewhat midway between Hendersons and Fordhook 242. This new variety seems to stand Southern heat and is most prolific. Be sure to try it! $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 45c. Lb., 80c. Postpaid.

8 Cangreen Bush Lima

ALL-AMERICA SELECTION All-America Winner. 68 days. A green seeded edition of the popular Henderson variety and fully as prolific. Its great value is in its green color. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

27 Florida Butter Pole

78 days. Will make an abundant crop under seasonal conditions that cause other varieties to fail. Seeds of the Small Lima or "Sieva" size, but are spotted with brownish red. Pods in clusters, 3 small beans per pod. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

7 Henderson Bush Lima

68 days. Most prolific of all the white seeded varieties, being a true bush form of the small lima or "Sieva." One of the most popular varieties of butter beans for home, canning and market use. Plant small, erect, bushy, prolific. Pods flat, 3 to 4 seeds, 3 in. long, $\frac{3}{4}$ in. wide. Seeds flat, small, of excellent quality, creamy white at maturity. This is the variety that is planted in the spring, in the summer, and in the lower South it may be planted in early fall to mature before frost and to bring highest market prices. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

17 Jackson Wonder Bush Lima

Calico Bush Lima. 65 days. Most prolific of all bush limas of Georgia origin and fully adapted to all parts of the South. Flavor rich and delicious. Good for summer use or as a winter shell bean. Extremely drought-resistant, surest cropper. Medium spreading plants of glossy, dark green. Flat pods, 3-3 $\frac{1}{4}$ in. long, $\frac{3}{4}$ in. wide, contain 3 to 4 beans. Seeds small, flat, light buff mottled purplish black. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

16 White Pole Butterpeas (Fat Baby Pole)

Fat Baby. Our Own Introduction. Heaviest bearing pole lima bean of all and most delicious buttery flavored. Resembles Small White Lima or Sieva Bean, but beans are much thicker and shell out much heavier. The vine is simply crowded with well-filled, bulging pods, keeping on bearing as pods are picked. Dry beans are almost round, they are so thick, and they keep in grand condition. Be sure to try this prolific baby pole lima. Seeds go farther. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 75c. 2 Lbs., \$1.40. Postpaid.

9 Small White Pole Lima

77 days. Carolina or Sieva Bean. It's very prolific and a hardy grower for "butter beans" in the South. The 3-in., dark green curved pods contain 3 to 4 creamy white beans. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

10 Large White Pole Lima

88 days. King of the garden. The true large lima pole bean. Dry beans are large and flat. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

38 RED POLE BUTTERPEAS

A red seeded pole variation that is preferred by many because of the rich, meaty flavor in the typical round butterpeas that crowd thickly into the many pods enormously produced on strong, vigorous vines. $\frac{1}{4}$ Lb., 25c. $\frac{1}{2}$ Lb., 40c. Lb., 70c. Postpaid.

WE DARE YOU TO GROW THIS BEAN

Your Money Back if You Don't Like the Delicious Flavor of

14 HASTINGS' STRINGLESS WONDER

(14) Hastings' Stringless Wonder Pole Bean

70 days. Cornfield and garden type. Another Hastings introduction that brings stringless, delicious quality to the superb flavor so characteristic of pole beans. This new development was tested in all sections of the South and in every instance proved sensational. It picks easily, for use fresh. It is really a "knock-out" for canning, holding the same superb tenderness and flavor upon opening and serving even weeks or months later. The vines are vigorous, thriving until frost when kept picked clean, frequently cultivated, and dusted against beetles. The pods are long, almost straight, round, very sweet and delicious in flavor and absolutely stringless at all stages of growth. Positively the finest new pole bean since our introduction of McCaslan many years ago. We recommended it unreservedly. $\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Order early, please.

(15) Genuine Kentucky Wonder—Tender Strain

REAL CORNFIELD BEANS

18 Hastings' Genuine Cornfield

81 days. Saves garden space and poles and grows in shade of corn. Furnishes a long, plentiful supply of snap beans for home or market. Vigorous growth, heavy bearing; 6-7 in. round, straight medium green, fleshy, tender, somewhat stringy pods of good quality. Well known, in greatest demand.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

35 Hastings' White Cornfield

95 days. White-seeded and best cornfield bean in snap stage and for dry shell beans. Hardy, vigorous and prolific. 5-6 in. snap pods are round, green, fleshy, quite stringless, tender and of good quality. Small oval seeds. 120 per ounce. Splendid variety for home, market and canning.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75.

HASTINGS' TV PROGRAM

Throughout the spring months we will continue our Television program "Successful Gardening by Hastings" over WSB-TV Channel 2 Atlanta. With a range of vision up to 100 miles or more from Atlanta we hope that many of you will tune in and see our gardening demonstrations conducted by Charles J. Hudson, Jr. and Donald M. Hastings, Jr. We have had many nice reports from nearby areas in Alabama, Tennessee, South Carolina and even Florida as well as Georgia. You are cordially invited if you are in WSB-TV range, Tues. 7:00 7.15 P. M.

5 Kentucky Wonder Wax Pole

65 days. Vigorous, productive climber. Pods waxy yellow, flat, somewhat stringy and fibrous, meaty: 7 to 8 in. long, $\frac{1}{2}$ in. wide. If you like the buttery wax colored beans, and most people do, you certainly must plant this.

$\frac{1}{4}$ Lb., 30c. $\frac{1}{2}$ Lb., 50c. Lb., 85c.

26 Hastings' McCaslan Pole Bean (Our Original Strain)

65 days. Hastings' Introduction. It is the heaviest bearing bean. The large size pods fill perfectly. Vines continue to bear throughout the season, if kept closely picked. When allowed to ripen the shell beans of pure white color are excellent for winter use. McCaslan is one pole bean for any Southern Garden. Strong climber, hardy, prolific over long season. Pods dark green, thick-flat, meaty, almost stringless, tender, of good quality and delicious flavor. 7 to 8 inches long, 9/16 inches wide. Seeds ivory white. Pods are of better shape, straighter than Kentucky Wonder and white seeded. It is unbeatable.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

"I have tested many strains of Kentucky Wonder during the past 30 years and this is positively the best I've ever seen or eaten!"—Donald Hastings.

15 GENUINE KENTUCKY WONDER (TENDER)

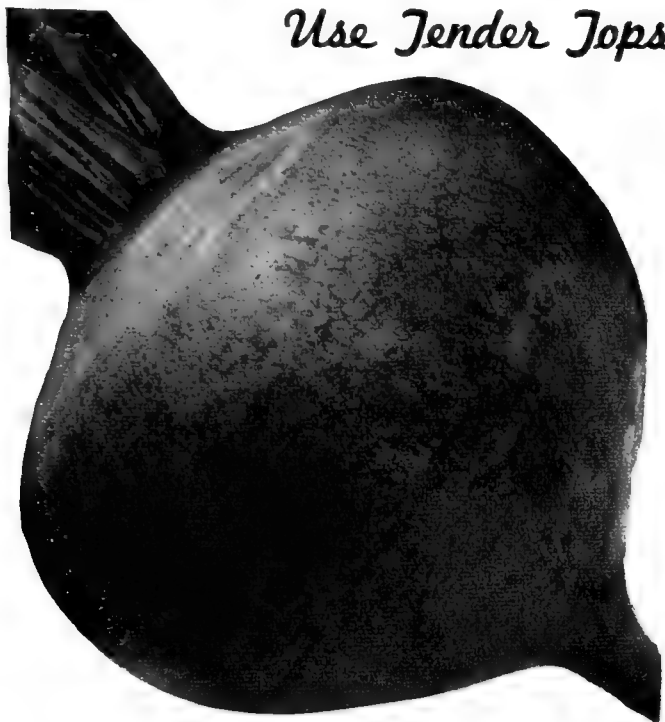

Our Improved Tender Strain

Old Homestead—Texas Prolific Pole Snap Bean. 65 days. Most profitable green snap beans for your to plant from April to August. If closely picked it will continue bearing until frost. Immensely prolific, a peck often being picked from a single vine. Plant for home and market gardens and canning. It is a strong climber, hardy; pods practically round, curved, irregular surface, meaty, of good quality, slightly stringy but fiberless and brittle; 8 in. long, $\frac{1}{2}$ in. wide. Seeds buff brown. Begins bearing in about 50 days from summer planting. Kentucky Wonder has a flavor all its own, a great old standby. Bringing always top prices on local and terminal markets you can be sure it is safe to plant to sell. Every buyer knows Kentucky Wonders and most always pays a premium for them.

$\frac{1}{4}$ Lb., 20c. $\frac{1}{2}$ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75. Postpaid.

EARLY SPRING IS BEST FOR BEETS

Use Tender Tops for Boiled Greens

(45) Improved Blood Turnip Beet

Beets Contain Vitamin B1

CULTURE—Use rich garden soil after deep spading. Scatter seed thinly, in rows 18-24 in. apart. When 2-3 in. high, thin plants to 4-5 in. apart. Young beet tops are superior to spinach and turnips for greens. 1 Oz. plants 50 ft. of row; use 6 to 8 Lbs. per acre. Beets can play a very important part in your home garden because they may be gathered fresh over such a long time and they are so easily canned for winter use. It is only necessary to keep them cleanly cultivated and they will keep almost indefinitely. A varied diet means good appetites and that means good health.

BRIGHTEN UP WITH FLOWERS

In this catalog we offer not only these choicest vegetables and superior grass, clover and field seeds but we list the finest flower seed, flower plants and flower bulbs for our own Southern soils and climatic conditions. Thus you may place your confidence for all gardening needs in a 64-See pages 52-77

(48) Asgrow Wonder Beet

Note the fine tops for delicious boiled greens

45 Hastings' Improved Blood Turnip Beet

Improved Dark Strain—Market Favorite—Profit Maker

56 days. This is by far the most important Beet in America. It is an outstanding variety for all purposes—home, truckers, shippers and canners. Our pure-bred line is unsurpassed in the fine quality, sweetness and tenderness. Tops are medium, dark green tinged red and held erect. Roots are globular, smooth, uniform, attractive, with small tap root. Color is deep red and flesh is dark red with very indistinct zones. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.75. Postpaid.

48 ASGROW WONDER EARLY BEET

ALL-AMERICA SELECTION 50 days. All-America Gold Medal. Finest extra early variety. Splendidly adapted for home garden purposes as well as for market. Deep red all the way through, large semi-flat with rounded bottom, tops reaching about 15 in. and fine for bunching. Exceptionally uniform, very dark interior, fine grained, good flavor, and the best early Beet. Smooth, clean skin, medium tops and collar and a small slender tap root. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.75. Postpaid.

42 Crosby Early Egyptian Beet

52 days. Extra early favorite for home and market. Medium tops, roots flattened globe shaped with small tap root and dark red skin. Tender and sweet. The tops, when young, are very tender and are delicious when boiled with meat like turnips or collards. If you have never tried beet tops we suggest that you do as a novel addition to the family dinner table. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.75. Postpaid.

43 Swiss Chard for Delicious Greens Only

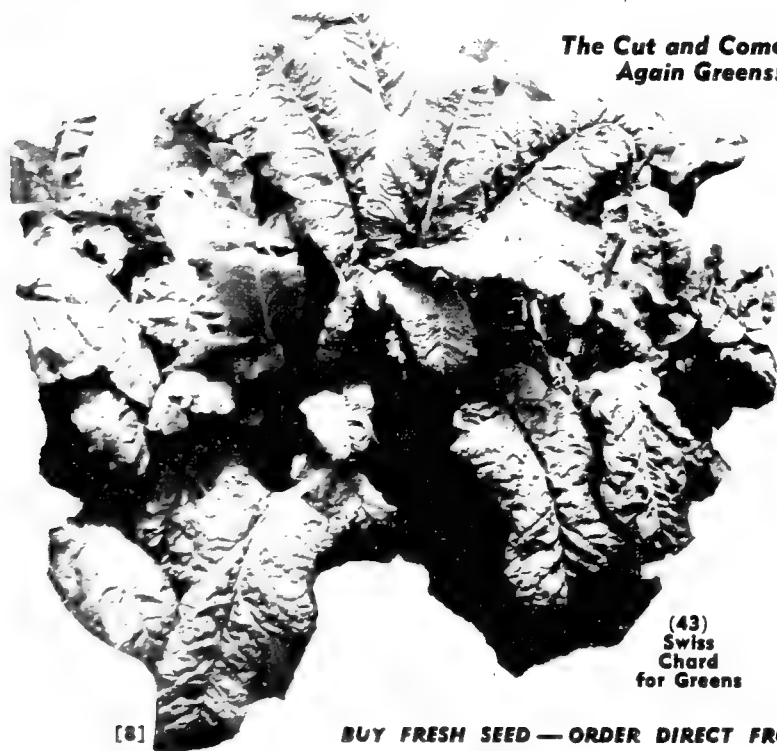

Real cut and come again vegetable of delicious flavor. Does not make edible root but grows vigorously all summer for delicious greens. Lucullus—45 to 55 days. Leaves large, upright and as outer leaves are cut more come from the center. The leaf is boiled like spinach or turnip greens. Delicious, delicate flavor not found in turnips or kale. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.75. Postpaid.

50 PERFECTED DETROIT BEET (Main Crop)

ALL-AMERICA SELECTION 56 Days. All-America Winner. From inbreeding and re-selection for generations, this strain produces marvelously rich blood-red meat all the way through. It does away with white or light colored zones in the flesh. It cans red with no browns or purples. It is in every way at least as fine as our Imp. Blood Turnip, superior in color, table and canning appearance. The best main-crop beet in existence—for home gardens, truckers, shippers and canners. Pkt., 10c. Oz., 15c. 1/4 Lb., 50c. Lb., \$1.75. Postpaid.

41 Jumbo Long Red Mangel Livestock Feed

For Stock Feed Only. Not for the Table. Largest and heaviest yielder in the South of all Mangel beets. Roots grow from one-half to two-thirds above the surface and are usually 18-24 in. long and 4 to 6 in. wide. Light red, tapering roots; flesh rosy-white. Use deep, rich soil. The tonnage on rich or well fertilized ground is immense. For stock feed only, not for table. Oz., 15c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

The Cut and Come Again Greens!

(43) Swiss Chard for Greens

CARROTS MAKE TASTIER MEALS

Sliced or Diced . . . Raw or Cooked

CULTURE—Use rich, deeply worked soil. Sow shallowly in drills 16-18 in. apart in early spring, earlier in the far South. Thin plants to 3 in. apart. Cultivate frequently. 1 Oz. plants 100 ft. row; 3-5 Lbs. per acre; full maturity 10-14 weeks.

**CARROTS CONTAIN VITAMINS
A AND B1**

64 (Improved Strain) IMPERATOR CARROT

77 days. Outstanding type for home, market and shipping, now giving a Carrot for the South and East to compete with California Chantenays in shape, color and quality. Roots tapered, 8 in. long, 1½ in. across top. Rich orange throughout, indistinct core, tender, fine grained, fine quality. Medium tops for bunching.

Pkt., 10c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75.
5 Lbs., \$11.25. Postpaid.

(64) Emperor Carrot—The Ideal Carrot

66 Extra Early Oxheart Carrot

OR GUERANDE—72 days. Famous stump-rooted Carrot. Roots 3 in. wide at top, 2 in. across bottom. 4 in. long. Free from hard core; of finest table quality. Very highly colored skin and flesh. Roots short and easily pulled. Popular variety for heavier soils.

Pkt., 10c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

68 Danvers Half Long Carrot

SPECIAL—75 days. Bright orange color, very smooth and tapered to a blunt end. Flesh bright orange, tender and of good quality. Used by home gardeners and for shipping.

Pkt., 10c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75.

69 Improved Long Orange Carrot

88 days. Large, long, 10-12 in. roots of deep rich orange. Heavy cropper for stock feed while quality is good for table.

Pkt., 10c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

70 Large White Belgian— Stock Feed, Not For the Table

FOR STOCK FEED—90 days. Immense cropper. Store for feed during winter; may be left for pulling as needed in lower South. Drill 4 Lbs. per acre in 3-ft. rows. Thin plants to 6 in. apart. Use rich, cultivated land worked deeply.

Pkt., 10c. Oz., 20c. ¼ Lb., 60c. Lb., \$2.00. Postpaid.

71 Red Cored Chantenay— The Early Home Garden and Market Carrot

Superb. 70 days. Finest of all Deep reddish orange color throughout. The yellow ring around inside core has been bred out and sweeter, richer flavor acquired. Otherwise similar to Chantenay. Ideal for home gardens, market and shipping.

Pkt., 10c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75.
5 Lbs., \$11.25. Postpaid.

75 CELERIAC

—Try It!

Turnip Rooted Celery. Smooth, globular, 2-3 in. roots, for soups, stews and salads. Store as for beets. Cultivate as for celery, except it requires no hilling up. Pkt. 15c. Oz., 75c.

CELERY

—Contains Vitamin A

1 Oz. sows 400 ft. of row or makes about 5,000 plants.

77 Golden Self Blanching

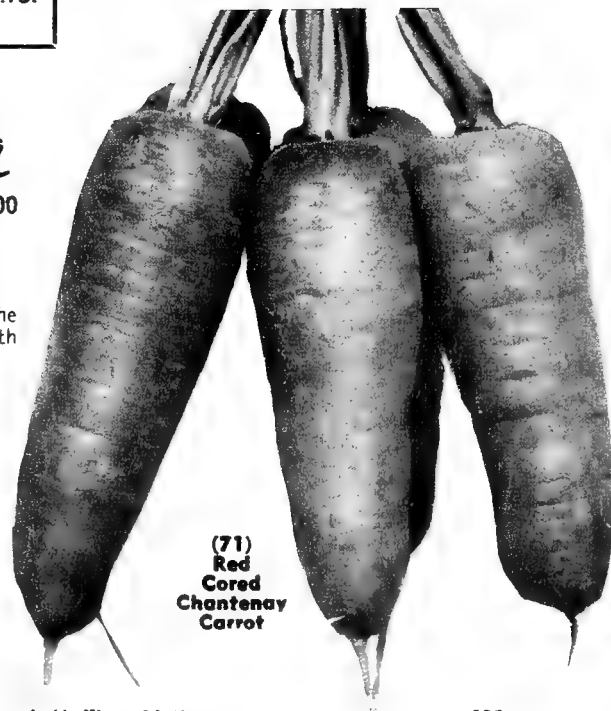

Tall Non-Bolting Strain. 118 days. One of the best tall, self blanching strains of celery with tender, full, nutty hearts. Very popular. Pkt., 20c. Oz., \$1.00. ¼ Lb., \$3.00. Postpaid.

79 Green Pascal Celery

135 days. Large, late. Favorite standard variety preferred by many planters for its green color. Pkt., 20c. Oz., \$1.00. ¼ Lb., \$3.00. Postpaid.

78 Easy Blanching Celery

125 days. Rather dwarf, compact, foliage yellowish green. Vigorous thick stalks of excellent quality, blanches easily. Pkt., 15c. Oz., 75c. ¼ Lb., \$2.00. Postpaid.

(71) Red
Cored
Chantenay
Carrot

CABBAGE Is So Easy to Grow in Your Garden

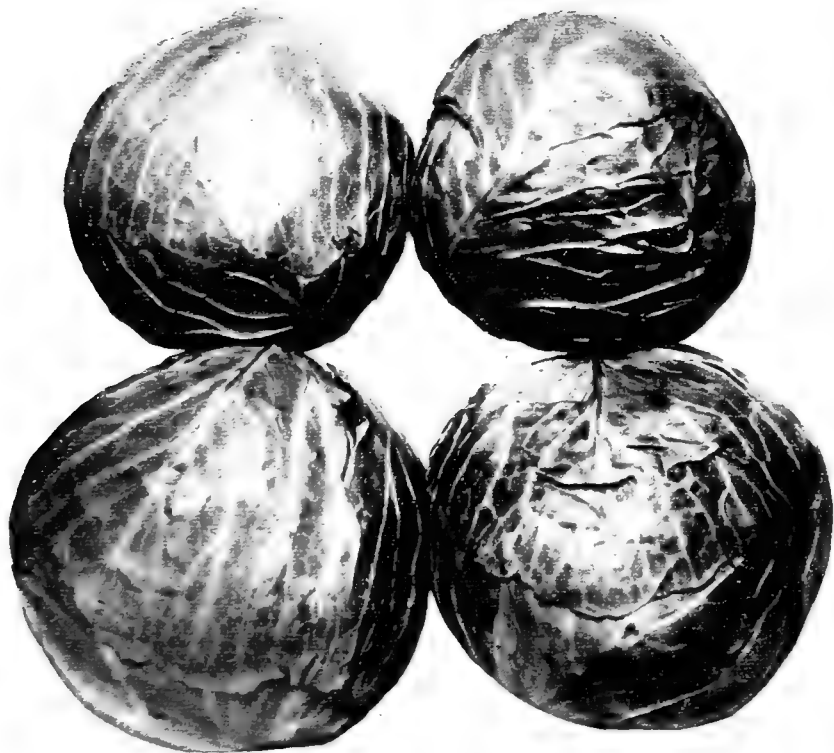

(105) Long Island Improved Charleston Wakefield

20% SABADILLA DUST—The Bug Killer

Powdered seed of the Sabadilla plant so effective in controlling such hard to kill insects as cabbage worms, squash bugs, Harlequin bugs, etc. Easy to dust on the crop and non-poisonous.

One Pound, 89c. Postpaid. 5 Lbs., \$3.25.

(118) Solid Heads of Copenhagen Market

CULTURE—Sow seed in drills 6 inches apart across the bed, dropping the seed 5 to 6 to the inch. Firm the soil after covering and then water the bed thoroughly. Keep beds moist but not soaking wet. Seed germinates in 3 to 8 days, according to weather. Keep young plants growing steadily from the start. When plants have made the fourth pair of leaves transplant to open ground. 1 Oz. of seed usually makes at least 1,000 good strong plants. Sow $\frac{1}{4}$ to $\frac{1}{2}$ Lb. for plants to set one acre. Use Sabadilla Dust for control of worms, etc. (See p. 94.)

Early and Hardy Cabbages

105 Hastings' Famous Long Island or Improved Charleston Wakefield Cabbage (Extra Hardy)

71-75 days from plants. Largest, earliest and surest heading strain of Charleston Wakefield. It is the best pointed cabbage for shipment and it makes a splendid first early cabbage for home use. Leaves rather large, smooth and thick. Plants are of medium size, vigorous and slightly spreading. Heads are blunt pointed and very wide at base. Its exceptional hardiness, earliness and fine size and shape of head have made it the popular market gardeners' favorite.

Pkt., 10c. Oz., 35c. $\frac{1}{4}$ Lb., 85c. Lb., \$2.50. Postpaid.

106 Extra Early Jersey Wakefield (Extra Hardy)

62-66 days from plants. This has always been popular for a first early cabbage in the South. If you are growing Early Wakefield you need Hastings' strain. Exceedingly hardy, resisting cold and other unfavorable conditions. Plants compact, erect, slightly spreading and with few outer leaves that are smooth, thick and dark green. Heads medium sized, solid, uniformly pointed and excellent quality. More sharply pointed, earlier and somewhat smaller than Charleston Wakefield type.

Pkt., 10c. Oz., 35c. $\frac{1}{4}$ Lb., 85c. Lb., \$2.50. Postpaid.

103 Perfection Savoy Cabbage (Extra Hardy)

87 days. Best Savoy variety, best and tenderest of all cabbages. As this variety does not head well in hot weather it is advisable to plant in early spring for heading up before weather turns too hot.

Pkt., 15c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$3.50. Postpaid.

126 Chihili—Chinese Cabbage (Slightly Hardy)

75 days from seed. Large outside leaves with a yellowish color; inner leaves well rounded, resembling Cos Lettuce when mature. The heart is white, tender, sweet and delicate in taste. The young leaves are very popular for salad use. Crop very short. Supply limited. Order early.

Pkt., 15c. Oz., 30c. $\frac{1}{4}$ Lb., 85c. Lb., \$2.50.

118 COPENHAGEN MARKET—Superb Strain

66-70 days from plants. Heads exceptionally large for this extra early variety; solid and of excellent quality. Growth vigorous but compact, short stem, upright and with few outer leaves. Heads nearly round, medium light green, thick and smooth. Undoubtedly the best of its type, equally valuable for home and market gardens. Copenhagen Market is easily the best first early, round headed variety on the market.

Pkt., 15c. Oz., 35c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00. Postpaid.

The Best Seed Is Your Best Crop Insurance

The Best Seed Is Very Inexpensive Insurance!

The average gardener or trucker spends \$20.00 to \$100.00 in plowing, fertilizing, cultivating, etc., his garden or market crops for every dollar he spends on seed. Yet it is remarkable how little attention is given to this very key to his production success. The few cents more paid for the best seed in existence is not only sound, common sense but is downright good insurance to have in your plantings.

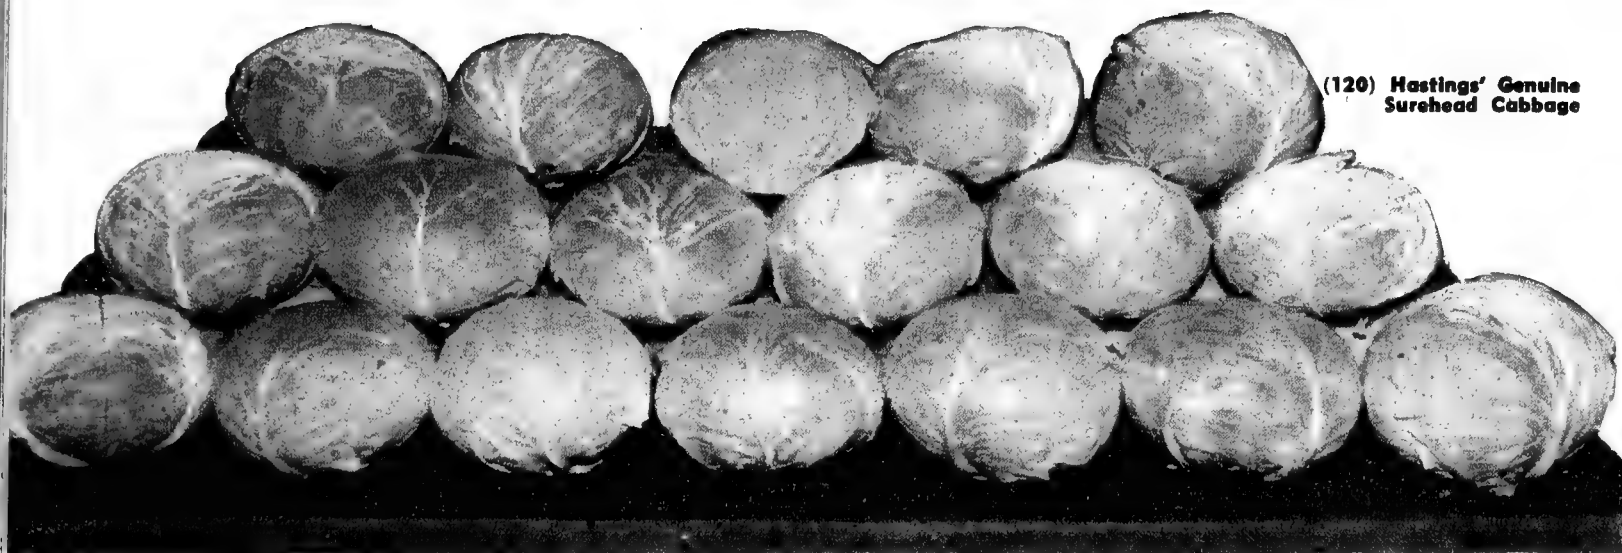

Our seed is bred, not just grown and every safeguard is taken for your protection.

The point of this is, to point out to you, that Hastings' cabbage seed is dependable and that we do not take "short cuts" to grow seed of doubtful productivity just because it's cheaper.

Send to Hastings' always to obtain fresh tested seed, strong, vital and with full crop producing ability packed in sealed bags.

HASTINGS IS FAMOUS FOR GOOD SEED

A Dollar Order Keeps Your Name On Our Mailing List

(120) Hastings' Genuine Surehead Cabbage

MAIN CROP CABBAGES

**Hastings' Cabbage Seed is grown in the Northwest
By proven methods only and shipped in
Safety Sealed Bags**

120 HASTINGS' GENUINE SUREHEAD CABBAGE

95 days. Probably the most popular and most generally planted cabbage in the South. A superb medium-sized hard-headed cabbage of mid-season maturity. Very vigorous grower, uniform in size, shape and color.

Pkt., 15c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$3.00. Postpaid.

117 Blood Red Erfurt—Very Attractive Color

90 days from plants. This is the best red Cabbage for planting throughout the South. It is of good medium size and a sure heading variety. It is fine for home garden and market use and the rich carmine red color is a decided advantage.

Pkt., 15c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$4.50. Postpaid.

110 Hastings' Centennial Late Flat Dutch Cabbage (Makes Huge Heads)

105 days. Beyond question the best large cabbage for winter and spring maturity in the South. Heat and cold resisting and its great vigor makes it a success where others fail. Large, well-flattened type that holds up fine in long distance shipping. Biggest main crop, heavy producing cabbage for home or market.

Pkt., 15c. Oz., 35c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00. Postpaid.

20% SABADILLA DUST—The Bug Killer

Natural seed of the Sabadilla plant finely ground into a fluffy dust to make one of the most effective insect killers on the market and yet perfectly safe to use on all garden vegetables. 1 Lb., 89c. 5 Lbs., \$3.25. Postpaid.

Frost Proof Cabbage Plants For Spring Planting

Again we offer these frost proof field grown plants for earliest, solid heads from your own garden. Shipments will be made as weather permits. 200 plants, \$1.85. 500 plants, \$3.75. Improved Charleston Wakefield Plants. Early Flat Dutch Plants. Prices are for each variety, separate, postpaid.

125 STEIN'S EARLY FLAT DUTCH CABBAGE

90 days from plants. This is a splendid strain of Flat Dutch cabbage, just a little earlier than Centennial. A trucker should divide his crop between Steins and Centennial to insure a longer shipping season.

Pkt., 15c. Oz., 35c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00. Postpaid.

111 Danish Ball Head Market Cabbage

105 days. Handsome, hardy, late cabbage; medium-sized, very hard, globe heads of finest eating and storage qualities.

Pkt., 10c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$3.50. Postpaid.

WARFARIN WILL KILL RATS, MICE

Marvelous discovery that will eliminate rats and mice from your home, barns, chicken houses or other buildings. Fully approved by U. S. authorities and positively proven in our own homes! Redimix Pellets (very easy to use) 2 Lbs., \$1.95. Postpaid.

"In the Last 4 Years since using Warfarin, my own home has been entirely free of rats and mice. In the previous 25 years mice were a constant and costly nuisance."—Donald Hastings, President, H. G. Hastings Co.

(110) Centennial Late Flat Dutch Cabbage

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

KRILIUM IN YOUR OWN GARDEN

Make Your Own Soil Tests

KRILIUM IS THE SOIL CONDITIONER

You have been reading of the miraculous results obtained with the treatment of heavy, sticky, tight, hard to handle soils with KRILIUM, the one and only original soil conditioner which was developed by the Monsanto Chemical Company and only introduced after three years of intensive research throughout the country.

1. KRILIUM makes stiff soils loamy.
2. KRILIUM makes heavy soils porous.
3. KRILIUM aerifies the soil.
4. KRILIUM helps to increase helpful soil bacteria.
5. KRILIUM makes plant food more easily utilized.
6. KRILIUM makes working the garden much easier.
7. KRILIUM lets soil hold more moisture.
8. KRILIUM enables plant roots to grow more rapidly.
9. KRILIUM hastens germination of seed.
10. KRILIUM insures better stands of seedlings.
11. KRILIUM does the job, and lasts for many years.
12. KRILIUM is a fine powder, the best and most practical form for successful application.

HOWEVER

1. KRILIUM is not a fertilizer or plant food within itself.
2. KRILIUM does not replace the need for humus or plant food.
3. KRILIUM must be thoroughly mixed with the soil.
4. KRILIUM is relatively expensive.
5. KRILIUM however helpful, is not a "cure all".
6. KRILIUM is not needed on sandy or exceedingly loamy soils.

DOES YOUR SOIL NEED KRILIUM? TRY THIS TEST

An easy test is to take a small handful of your soil and barely moisten it. Then roll it and work it like dough. If it remains crumbly and breaks apart easily into small bits, it is sandy or loamy and does not need KRILIUM. If it rolls up like putty you may be sure that KRILIUM is your answer!

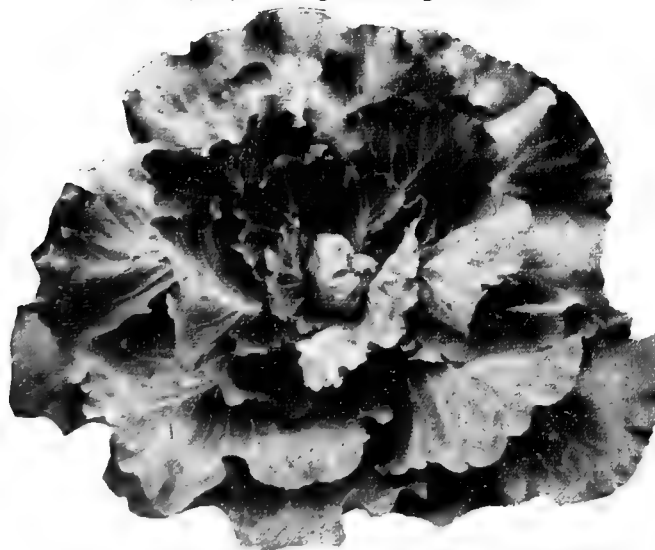

WHAT SHOULD YOU DO?

Our suggestion is for you to purchase only a package of KRILIUM and to experiment with it in your own yard to see how much you can expect from its miraculous abilities to better the mechanical condition of the soil. If you only have a few pots or boxes the one pound size is recommended. If you have a small garden or a few small beds the 5 pound package is sufficient. Should your garden be over 1,000 square feet in size we recommend the 10 pound package of concentrated "loamaker" KRILIUM. When production facilities, now planned, are completed, we believe the price will be reduced, but meanwhile you can save a season of experiment and research in your own garden by ordering only a single package and, as well, you will be a leader in your community upon whom others can depend for reliable information as to its benefits to your particular soil types.

NEW LOWER POSTPAID PRICES

1. lb. package (treats 20 sq. ft.) KRILIUM "merloam" \$1.39.
- 5 lb. package (treats 100 sq. ft.) KRILIUM "merloam" \$4.95.
- 10 lb. package (treats 1,000 sq. ft.) KRILIUM (concentrated) \$25.00.

(136) Hastings' Cabbage Collard

[12]

136 GENUINE GEORGIA CABBAGE-COLLARDS

HARDY TO COLD WEATHER

Sow seed any time in early spring. Thin or transplant to open after hard freeze danger has passed. Cultivate same as cabbage. Harvest tender leaves as desired. 1 Pkt. makes plants for average garden. Dust with Sabadilla when insects appear.

Not to be confused with run out seed frequently offered on a cheap basis. Ours is the true original strain. Better than ordinary collards.

Hastings' Introduction, originated right here in Georgia. The loose heads are not compact like cabbage, but the thick clusters of leaves can be left on the plant and used as wanted. Leaves of delicious flavor. Pkt., 20c. 3 Pkts., 50c. Oz., 40c. 1/4 Lb., \$1.25. Postpaid.

135 Southern or Georgia Collards (Very Hardy)

Collards Contain Vitamins A, and B1

Dust with Sabadilla when insects appear.

The old-time favorite. Stands all sorts of adverse conditions; very hardy, standing ordinary winters as far north as Atlanta. In many places where the soil is too poor to grow cabbage, the collard grows easily and makes a good substitute. Pkt., 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.25. Postpaid.

400 Rapegreens For All Year Economy

World's Cheapest Salad Greens! (Very Hardy)

Do not miss any longer this most inexpensive, easily grown, healthful, nutritious vegetable with heavily growing, tender, mildly flavored leaves that resemble rutabaga tops and which may be planted like turnips at any time to serve as boiled greens. It is very hardy and vigorous. 1/4 Lb., 15c. Lb., 50c. 5 Lbs., \$1.75. Postpaid.

BRUSSELS SPROUTS

Contains Vitamins A and B1

59 Improved Dwarf Brussels Sprouts

Brussels Sprouts are grown the same as other cabbage-like crops, and consists of little miniature cabbages up and down the stems at the leaf joints. Matures in 125 days. Pkt., 15c. Oz., 60c. 1/4 Lb., \$1.75. Lb., \$6.00.

CAULIFLOWER

Contains Vitamins A and B1.

CULTURE—Sow in seed bed same as cabbage. Transplant when 3 to 4 in. high; give plenty of water in dry weather. Should be planted to head in cool weather as they will not head properly in hot weather. 1 Oz. of seed should make 3,000 good plants. Set plants about 18 in. apart in row. Dust weekly with Sabadilla dust when insects appear.

86 Early Snowball Cauliflower

55 days from plants. Probably the finest early for home or market use. Plants dwarf, short, pale green leaves. Heads medium, firm, compact, solid, pure white, of finest quality. Pkt., 25c. 1/4 Oz., 75c. 1/2 Oz., \$1.40. Oz., \$2.50.

Vary your family diet with vegetables that are different!

BROCCOLI

Contains Vitamins A, B1

Give culture as for Cauliflower, and in the South, unless an expert Cauliflower grower, Broccoli makes a surer bearer for you, and is rapidly growing in favor both for the home table and for market. In many markets it is displacing Cauliflower, being a bright blue green raw, but cooking to a deep attractive green for the table. Dust with Sabadilla when insects appear.

57 Green Sprouting Broccoli

Grows Easily as Cabbage

60 days from plants. Well suited to almost any soil where cabbage can be grown, Sprouting Broccoli is far more easily grown than Cauliflower and even superior in food value and flavor. To those who like to grow new and interesting vegetables we surely suggest a trial.

Italian, all season variety. Head is a compact cluster of bluish-green flower buds, used unblanched. After central head is cut, branches with smaller heads form. Pkt., 15c. Oz., 35c. 1/4 Lb., \$1.00. Lb., \$3.50. Postpaid.

BUY FRESH SEED — ORDER DIRECT FROM HASTINGS — ASSURE YOUR CROP

PLANT SWEET CORN FOR EARLINESS

Tenderest and Sweetest When Boiled Garden Fresh!

WHITE CORN CONTAINS VITAMIN B1
YELLOW CORN CONTAINS VITAMINS A AND B1

CULTURE—Make rows 3 ft. apart, dropping 5 to 6 grains in each hill, thinning out afterwards to 2 or 3 stalks to the hill. A continuous supply is kept up by planting early and late varieties at one time, or by making several plantings at intervals of 14 days. Plant sweet corn only for first crop. Sweet corn can be grown successfully in the South by planting the crop as early as the soil is warm and by keeping it growing rapidly by frequent cultivation! Pound plants 200 hills; use 14 Lbs. (1 peck) per acre. See full description of Hastings' Prolific and field corn on pages 40-42.

ALL THESE PRICES ARE POSTPAID.

166 IOANA HYBRID (Golden Sweet Corn)

85 days. A newer and better Bantam grained sweet corn that has proven about the best of the new hybrids wherever sweet corn is grown, including the South. Uniform, medium ears deliciously sweet. A favorite market variety.

HASTINGS' CUCUMBERS

CONTAIN VITAMINS
A AND B1

Just a few in your garden will surprise you!

(177) Clark's Special Cucumbers are Dark Green

186 EVERBEARING PROLIFIC CUCUMBERS

New Strain for Slicing or Pickling

54 days. White Spine. Entirely distinct on account of its close bushy growth and everbearing character. The first cucumbers come early and vines continue to bloom and produce until late in the season. A single vine will show at one time cucumbers in every age of growth. Of perfect shape, small sizes are fine for pickling, the larger ones for slicing. A most popular home garden and pickle variety.
Pkt., 15c. Oz., 30c. ¼ Lb., 85c. Lb., \$2.75. Postpaid.

181 IMPROVED LONG GREEN CUCUMBER

Best for Home Garden Planting

70 days. A standard for slicing or pickling. Extremely prolific, medium late, very hardy and most disease-resistant variety. Ends Taper slightly and it is slightly warted. Small pickles are well shaped and in slicing stage very attractive, crisp, tender and free from bitterness. Very long, large fruits when mature.

Pkt., 15c. Oz., 40c. ¼ Lb., \$1.00. Lb., \$3.00. Postpaid.

178 EARLY GREEN CLUSTER CUCUMBER

For Pickling or Slicing

54 days. Black Spine. A standard well-known variety for both slicing and pickling. Very prolific, uniform size, smooth skin and one of the very earliest of all varieties to grow in the garden.

Pkt., 10c. Oz., 20c. ¼ Lb., 60c. Lb., \$2.00. Postpaid.

187 Gherkins Cucumber

For Pickling

60 days. Small fruits covered with spines. For pickling only. Not only very resistant to disease but the vines are exceedingly long lived and continue to bear nearly all summer even from early plantings. The small fruit are borne by the hundreds even on only a vine or two. Unlike ordinary cucumbers, but even superior for small bottle pickles.

Pkt., 15c. Oz., 30c. ¼ Lb., 85c.

(187) Gherkins Superb for Pickling

177 CLARK'S SPECIAL CUCUMBER

Best for Slicing—Dark Green Market Variety

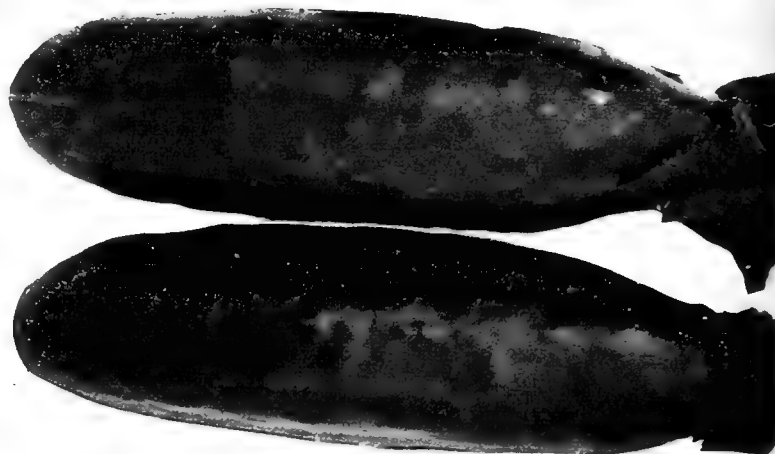

60 days. White Spine. This new variety was selected as probably the finest dark green, white spine Cucumber and good for all purposes. Main crop variety, holding its color and firmness in distance shipping and on account of its small seed pocket is excellent for slicing. Its quality is excellent. Attractive deep green, uniform in length. 8 to 9 in., very smooth in appearance and with few white spines.

Pkt., 15c. Oz., 30c. ¼ Lb., 85c. Lb., \$2.50. Postpaid.

174 LEMON CUCUMBER (A NOVELTY)

65 days. Most pleasing and easily grown novelty. Delicious lemon shaped and colored cucumber of finest flavor. It is largely used for pickling. For home garden growth only.

Pkt., 20c. 3 for 50c. Oz., 75c. Postpaid. Supply very limited.

(186) Everbearing Prolific (New Strain)

183 CHICAGO PICKLE CUCUMBER

58 days. Black Spine. The standard variety grown for pickling purposes. While it can be used for slicing it is pre-eminently a pickling variety. Its small size, dark green color and enormous productiveness, makes it a favorite for that purpose. The pickling factories usually insist on this type.

Pkt., 10c. Oz., 20c. ¼ Lb., 60c. Lb., \$2.00. Postpaid.

185 MODEL PICKLE CUCUMBER (NEW)

56 days. White Spine. 6 inches. The new sensation of the pickle trade because of its tremendous productivity of very uniform fruits over a long bearing season. Rich deep green and quite good for slicing as well. A real double use variety.

Pkt., 15c. Oz., 40c. ¼ Lb., \$1.00. Lb., \$3.00.

HAVE YOU TRIED KRILIUM IN YOUR GARDEN?

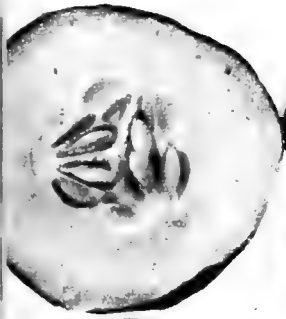

If your garden soil is hard packed, tight clay or silt and very hard to work, it needs KRILIUM. A powdered synthetic that will make hard soils loose, porous and easily worked just by thoroughly mixing it in. Immediately your garden is soft and loamy. Try it this spring. Not needed on sandy soils. 1 Lb. (for 20 sq. ft.), \$1.39. 5 Lbs. (for 100 sq. ft.), \$4.95. Postpaid. Concentrated KRILIUM 10 Lbs., \$25.00. Postpaid. (For about 1000 sq. ft.)

"THE SOUTHERN GARDEN BOOK"

Your Money Back in 10 Days if You Don't Like It

This new All Southern garden book deals with our Southern soil, our Southern climate, our Southern plants and Southern methods of growing them for the very best results. Every Southern gardener should have a copy for ready reference and as a complete guide to save many dollars of time, labor and expense by doing the right thing at the right time in the right way. Postpaid. \$4.95. Ideal for gifts.

DARK GREEN—CRISP—PROLIFIC

184. CUBIT CUCUMBER

ALL-AMERICA WINNER

ALL-AMERICA SELECTION Deserved winner by its deep, rich green color and prolific bearing habits, we recommend this fine 9-inch white spine cucumber to all Southern gardeners. Its cool, dark green color holds up unusually well for local or distant markets, and its crisp freshness is preferred everywhere. Packets, 15c. Oz., 40c. ¼ Lb., \$1.00. Lb., \$3.00.

175 EARLY FORTUNE CUCUMBER

62 days. White Spine. A favorite shipping variety grown by many Florida cucumber growers. Of dark green color which it holds for many days after picking. Of very regular form and growth, tapering shape and carries a dark green color found in few of the white spine varieties. Holds up splendidly in long distance shipment. Also good for nearby market use. Pkt., 10c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.25. Postpaid.

173 A & C Cucumber (Market Strain)

Splendid Also for Home Gardens

63 days. White Spine. Vigorous grower, resistant to disease and making an abundance of deep green, uniformly slender cukes of even diameter. 9 to 10 inches long. Since its introduction several years ago A and C Cucumber has become one of the most popular of all shipping varieties and, too, it ranks at the top as a superb home garden sort for slicing or pickling. This popularity is possible only because of its inherent good breeding that enables it to stand up even under trying conditions when other stocks "break down." We certainly recommend A and C to you. Pkt., 15c. Oz., 35c. ¼ Lb., 90c. Lb., \$2.85. Postpaid.

179 MARKETER CUCUMBER

BRINGS TOP MARKET PRICES

ALL-AMERICA SELECTION 65 days. White Spine. Appropriately named because of its uniformity in size, 8-9 inch length, and beautiful green color. Marketer is immensely productive and slices with perfect crispness. It is becoming more and more a leading market variety and yet its crispness insures it being always a top home garden cucumber to grow everywhere. Pkt., 15c. Oz., 35c. ¼ Lb., 90c. Lb., \$2.85. Postpaid.

182 STRAIGHT 8

PACKS PERFECTLY

ALL-AMERICA SELECTION 62 days. White Spine. Symmetrical, almost cylindrical new variety. Rounded at ends, ideal in dark green coloring without lighter strips found in most sorts. Uniformly eight inches by two at ideal stage. Too seldom are new worthy cucumbers brought on the market and when such a variety as this one is introduced it naturally attracts a great deal of attention. Straight 8 was bred particularly for particular markets and is well worth its All-America recognition. Pkt., 10c. Oz., 30c. ¼ Lb., 85c. Lb., \$2.75. Postpaid.

176 STAYS GREEN CUCUMBER

58 days. White Spine. Really a good variety. Medium sized, glossy dark green, white spine cucumber; 7 to 8 inches long, cylinder shaped variety. Is popular with shippers and a good home garden sort because it retains its fine color a very long time. Young fruit is well adapted for pickling and mature fruit is remarkably well adapted in shape and size for packing and shipment. Pkt., 10c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.25. Postpaid.

180 HASTINGS' WHITE SPINE CUCUMBER

EXTRA DARK GREEN STRAIN

62 days. It is good for shipping, good for nearby markets, good for home use, good for pickles when picked small. It holds its intense green color better and stays in good eating condition longer than the others. Fruits or "cukes" are symmetrical and uniform in shape, handsome appearance. When full grown is 8 to 9 by 2½ inches. Ready for use in about 58 days. It is an extra early sort, crisp and tender, holding its fresh dark green appearance long after being gathered. In our opinion, based on nearly 60 years of experience, this is the best all-purpose cucumber you can plant. Special selected seed. Pkt., 10c. Oz., 30c. ¼ Lb., 85c. Lb., \$2.50. Postpaid.

(180) Hastings' White Spine Cucumber

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

EGGPLANTS JUST KEEP BEARING!

(190)
Improved
Thornless
Eggplant

GREENS for Salads...

Plant seed of Endive in early spring or fall in shallow drills, 18 in. apart, and thin plants to a foot apart. Oz. plants 100 ft.

193 ENDIVE EARLY GREEN CURLED SALAD

95 days. Our strain is hardy, vigorous growing, bright deep green, finely divided leaves which blanch readily to a rich cream color. Highly recommended for home garden and market.

Pkt., 15c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

192 Escarole, Broad Leaved Batavian for Salads

VERY RICH IN VITAMIN A. 90-95 days. Wide, twisted bright deep green leaves with thick, nearly white midribs. The inside leaves blanch to an attractive deep creamy white.

Pkt., 15c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

132 UPLAND CRESS FOR SALADS

Drill seed thinly in beds. Rapid growing greens vegetable to supply healthful vitamins. Serve fresh in salads, whole or chopped, by itself or mixed with other salad vegetables. Matures very quickly. Pkt., 15c. 2 for 25c. Oz., 50c.

133 WATER CRESS—MOST DELICIOUS

Very delectable salad green grown on edges of springs or cool water. Pkt., 25c.

134 CRESSY OR CREASEY GREENS

Very popular in the Carolinas and Tennessee as a hardy cress flavored "greens" for boiling with a very "different" taste. Also delightful chopped up in green salad bowls to give a peppery taste.

Pkt., 15c. Oz., 50c. Postpaid.

CULTURE—In the lower South seed should be sown in hot beds or frames in January or February. In the latitude of Atlanta hot beds should be started between February 15th and March 15th. Care should be taken as eggplant will not germinate freely in an average temperature less than 65 degrees. When plants have made the fourth or fifth pair of leaves, 4 to 6 weeks old, they may be set in open ground, if danger of frost is past, placing them 2 feet apart each way. Cultivate often. In Florida, sow June-July for fall and early winter shipping crop. Packet makes plants for 100 ft row. Oz makes about 2,000 plants. Use 1/4 to 1/2 Lb seed per acre.

190 IMPROVED PURPLE THORNLESS

83 days from plants. Standard of the South, for home use or shipments. Fruits are splendidly and evenly colored. In no crop do we exercise more care than with this variety. Plants 28-32 in. tall, are strong, vigorous growers, producing 4 to 8 fruits of dark, rich purple color. Extra fine, large fruited and always gives satisfaction under proper cultivation.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

191 BLACK BEAUTY EGGPLANT

81 days from plants. Plants early, 24-30 in. high, producing 4 to 5 large egg-shaped fruits. Fruits are smooth, very dark purple and hold well after picking.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

1870 NEW HAMPSHIRE HYBRID EGGPLANT

EXTRA EARLY, DWARF, PROLIFIC

ALL-AMERICA SELECTION 73 days from plants. Superb new extra early, vigorous, and prolific variety for home gardens and market. Plants rather small with heavy crops of medium size, rather blocky, highly marketable fruit. Try it sure for home and market use.

Packets only 20c each. 1/2 Oz., 60c. Oz., \$1.00 Postpaid. Crops extremely short.

188 FLORIDA SPECIAL EGGPLANT

HIGH BUSH TYPE

78 days from plants. Earliest high-bush type, 26-32 in. tall. Very prolific, a fine shipper and seems to stand heat better than others. Especially adapted to Florida conditions.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

189 FORT MYERS MARKET EGGPLANT

HIGH BUSH TYPE

78 days from plants. High-Bush. Superb for shipping, this high-bush eggplant is extra well suited to the soils and climate of the lower South. It is very good for the home garden, too. Stands heat.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

195 Mixed Useful Gourds (Grow on Fence)

Ornamental Gourds are on Page 59.

A grand mixture of all the popular type useful gourds all from one package for economy. Grow them this way for all useful gourd purposes. Dippers, eggs, dishcloths, etc.

Pkt., 10c. Oz., 35c.

HOPKINS' WARFARIN KILLS RATS, MICE!

Positively KILLS These Filthy, Wasteful Pests

This exciting new development is offered to you again this year by Hastings because we believe it will save Southern people millions of dollars formerly wasted by disease carrying rats and mice. Recommended by the U. S. Fish and Wild Life Service, U. S. Public Health Service, National Pest Control Association and others, so you can depend upon it to do a good job. You need only follow simple direction given with each package. Ready for immediate use.

WARFARIN REDIMIX PEL-LETS (Ready to use). 2 Lbs., \$1.95. 5 Lbs., \$3.75. Postpaid.

AROMATIC, MEDICINAL, POT HERBS

Grow Your Own—Add Delicious Flavors to Your Home Meals

984 CARAWAY—Produces aromatic seeds the second year to flavor bread, cakes, etc. Leaves flavor soups and liquors. Biennial, 20 in. tall. Pkt., 20c.

985 CATNIP OR CATMINT—Leaves used for seasoning. Pkt., 20c.

986 CORIANDER—50 days. Agreeable tasting seeds used in confectionery and to disguise taste of medicines. Hardy annual. 18-24 in. tall. Pkt., 20c.

987 DILL—Seeds strongly aromatic with pungent flavor, for flavoring pickles and for seasoning. Chief use is for Dill Pickles. Pkt., 15c. Oz., 50c.

992 FENNEL, SWEET—60 days. Hardy perennial aromatic herb. Seeds have pleasant taste; used in confectionery and medical preparations. Young shoots are eaten raw and used in soups, salads and fish sauces. Branching plant, 3 feet high; thread-like foliage; yellow flowers in large, loose umbels. May be treated as an annual. Pkt., 20c. 2 Pkts., 35c.

988 HOREHOUND—Leaves used for seasoning candy and medicine. Pkt., 20c.

989 LAVENDER—The common lavender; leaves used for seasoning. Pkt., 20c.

990 MARJORAM, SWEET—Shoots, leaves used for seasoning. Pkt., 20c.

993 ROSEMARY—Leaves used for flavoring meats and soups and flowers in toilet waters. Pkt., 20c.

995 SUMMER SAVORY—Chiefly used in flavoring salads, stews, etc. Pkt., 20c.

996 THYME—Leaves for seasoning in summer, dried for winter. Pkt., 25c.

997 WORMWOOD—Dried leaves used medically and for poultry. Pkt., 20c.

994 HASTINGS' HARDY SAGE

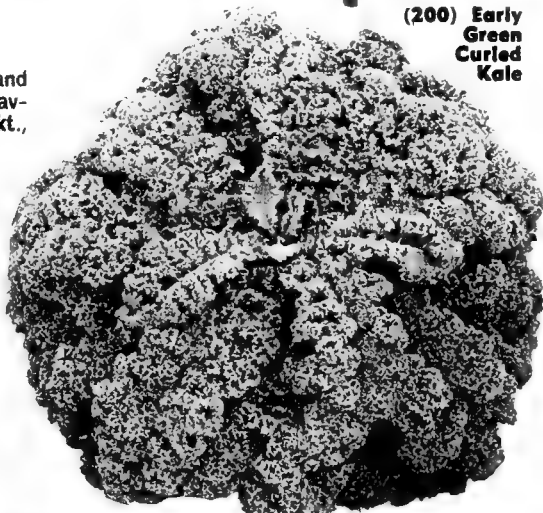

Most popular garden herb; used in flavoring or seasoning. Adds most delicious flavor to sausage and other meats. Makes meal preparation a very learned art in keeping our foods more and more enticing and enjoyable—real family treats. Cut leaves as plant blooms; dry quickly in shade. Hardy perennial; may be divided for even better crop the second year. 12-18 in. tall. Pkt., 15c. 2 Pkts., 25c. Oz., 75c.

(994)
Giant
Hardy
Sage
15c

130 CHIVES

The tops are cut and chopped and used for flavoring and garnishing. Pkt., 25c. 3 for 60c.

(200) Early
Green
Curled
Kale

Have Sweet Greens All Year 'Round

Kale leaves are boiled for greens, usually with bacon, the same as Turnips, Mustard and Spinach. Leaves of the curled Kale and Kallards are also used for garnishing. Spring, fall and winter crops are all popular.

199 Blue Siberian Kale

65 days. Vigorous spreading growth, 20-30 in. tall. Large green leaves have a distinctive bluish tinge, smooth in the middles but with cut and lightly fluted edges. Extremely hardy, extensively grown. Pkt., 10c. Oz., 20c. 1/4 Lb., 50c. Lb., \$1.50.

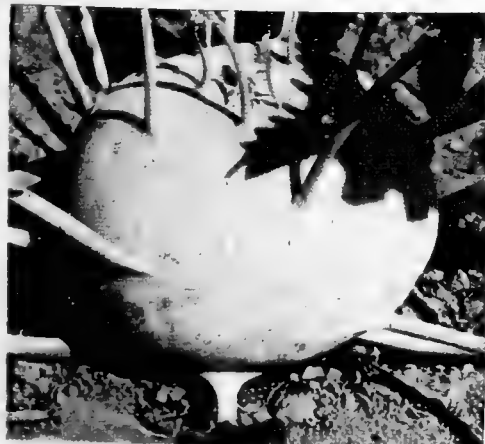

KALE CULTURE—Sow in fall or early spring, broadcast or in rows. Quality is really improved by light frosts. For large plants thin plants to 2 feet apart in rows. Cut and they come again! Oz. plants 200 ft. row, 4 Lbs. per acre.

200 Green Curled Kale

55 days. Wide spreading, finely curled, rich greenish, plume-like leaves. Hardy, ornamental, handsome, uniform strain for greens and garnishing. Favorite dwarf type everywhere. Pkt., 10c. Oz., 25c. 1/4 Lb., 60c. Lb., \$1.75.

203 LARGE CARENTAN LEEK

In rich soil, well earthed up, the edible portion is 6-8 in. long by 2-3 in. thick. The largest variety, an exceptionally hardy garden sort that gives a very appetizing addition to the year round planting. Although similar to flavor of onions it is distinct as a variation for those who relish vegetables of this nature. Large Carentan is the best garden variety and is profitable for market purposes. Pkt., 15c. Oz., 60c. 1/4 Lb., \$1.75. Lb., \$6.00.

(202) White Vienna Kohl Rabi

GARDEN KOHL-RABI

Contains Vitamin B1

KOHL-RABI CULTURE—Sow Seed preferably in light, rich soil, early in spring in rows 1 1/2 feet apart, and thin to 4-6 in. Planting at 10-day intervals will give tender bulbs until hot weather. Start fall planting about August. Oz. plants 200 ft. row, 4 Lbs. per acre. 1/2 Lb. makes plants for acre.

202 EARLY WHITE VIENNA KOHL RABI

Early White Vienna Kohl-Rabi matures very quickly and gives an abundant yield.

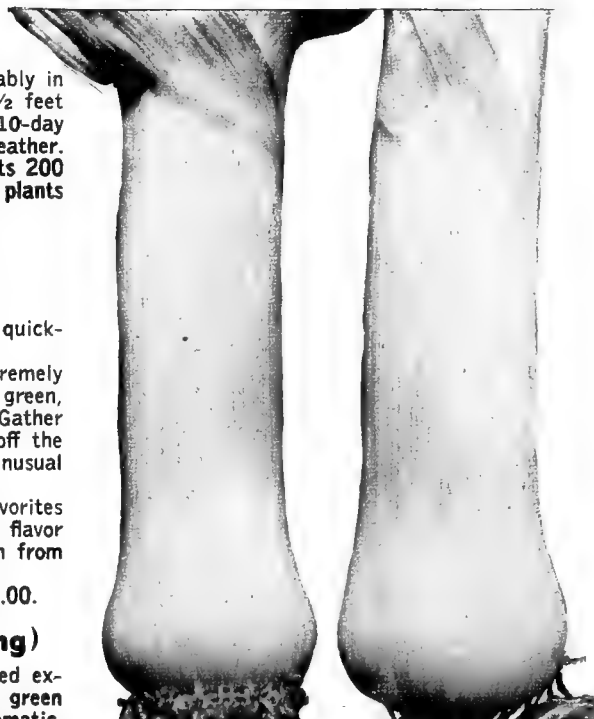

55-60 days from seed. Finest variety, extremely early, with distinctly small tops; whitish green, 2-inch bulbs when of best eating quality. Gather bulbs while skin is tender, slice, and cut off the hard lower portion. A very delectable and unusual addition to the spring planting list.

Fleshy root crops are Southern Garden favorites and this delicious vegetable of cabbage-like flavor is another grand one to vary the selection from our gardens. Mild, delicate and delicious.

Pkt., 10c. Oz., 40c. 1/4 Lb., \$1.25. Lb., \$4.00.

131 CHERVIL (For Flavoring)

70 days. Very delicate parsley like herb used extensively for flavoring and garnishing. Rich green and curled with pungent taste and quite aromatic. Pkt., 15c. 2 for 25c.

(203) Carentan Leek

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

THE SOUTH CAN GROW LETTUCE

Every Package Safety Sealed

FOR PURITY, VITALITY AND FRESHNESS

Green Lettuce contains Vitamins A and B1 and other health-giving elements and is about the easiest grown garden vegetable. It is an everyday vegetable to put on the table.

CULTURE—Sow in rich, well prepared soil, as soon as cold winter is past, or start in beds or frames for transplanting in early spring 6 to 12 in. apart, in rows 15 to 18 in. apart. Cover seed $\frac{1}{2}$ in. in beds or outdoors. Seed germinates quickly and growth is best in cool weather. Good heads depend on good seed, keeping a steady growth with fertilization, moisture and cultivation. Light feeding, as with nitrate of soda, after plants have some size, is beneficial. Plants must be kept growing steadily if you want them to head. Loose-leaf types may be thinned and used as they become crowded. Oz. plants 200 ft. row; use 3 Lbs. per acre or 1 Lb. for transplanting. Days given are average from seed to market size.

217 PARIS COS FRENCH HEAD LETTUCE

Romaine, the Celery Lettuce, so-called because of its erect growth. Best in cool weather, thinned to 8 in. apart in rows. Outside leaves dark green, inside much lighter and blanch to white with slight greenish tint. Crisp, tender, self-folding leaves, succulent and sweet, with delicate flavor. Very fine for salad. Packet, 15c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.25. Lb., \$3.50. Postpaid.

209 MIGNONETTE—BABY ICEBERG LETTUCE

CRISP LEAF HEADS—65 days. A delightful first early, delicious, curled or crisp, small heading lettuce especially adapted to outdoor winter crop growing in the lower South and for cold-frame culture farther North. Superb to serve whole as a salad. Pkt., 15c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$4.50. Postpaid.

215 IMPERIAL 44 HEAD LETTUCE

CRISP LEAF HEADS—80 days. One of the newest and finest strains of the Iceberg or crisp types of lettuce and particularly well suited to the heat of our Southern climate. Imperial 44 is a dependable header for markets and is a superb new home garden variety that we recommend to you without reservation.

Pkt., 15c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$4.50.

216 GENUINE ICEBERG HEAD LETTUCE

CRISP LEAF HEADS—82 days. Genuine Iceberg—For forcing home gardens and truckers serving local markets. Beautiful as well as finest eating Lettuce, quite different from the big shipping varieties, Hastings' Drumhead, which is usually called Iceberg in the stores. Genuine Iceberg is exceedingly crisp and tender, growing a long time before running to seed. Known as the crisp-leaved hard-header. Splendid for open-ground planting or forcing. This is a large, full-season favorite with crisp and wavy, fringed, light green leaves, bronzy tinged at edges. Outer leaves are crinkled and grow closely up around the head. Heads are compact, crumpled, very sweet, tightly folding to blanch inside a beautiful white. Pkt., 15c. Oz., 35c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.50. Postpaid.

Loose-Leaf Non-Heading Lettuce

218 SALAD BOWL — ALL AMERICA

ALL-AMERICA SELECTION Loose Leaf Type. Newest All-America winner, this unusual novelty lettuce is superbly suited to making delicious summer salad bowl mixtures. It has dark green, vitamin loaded leaves in large, loose clusters, easily grown and harvested. Grow it once is our challenge! Pkt., 25c. each. 3 for 60c. Supply very limited.

214 GRAND RAPIDS—The Quick Growing Lettuce

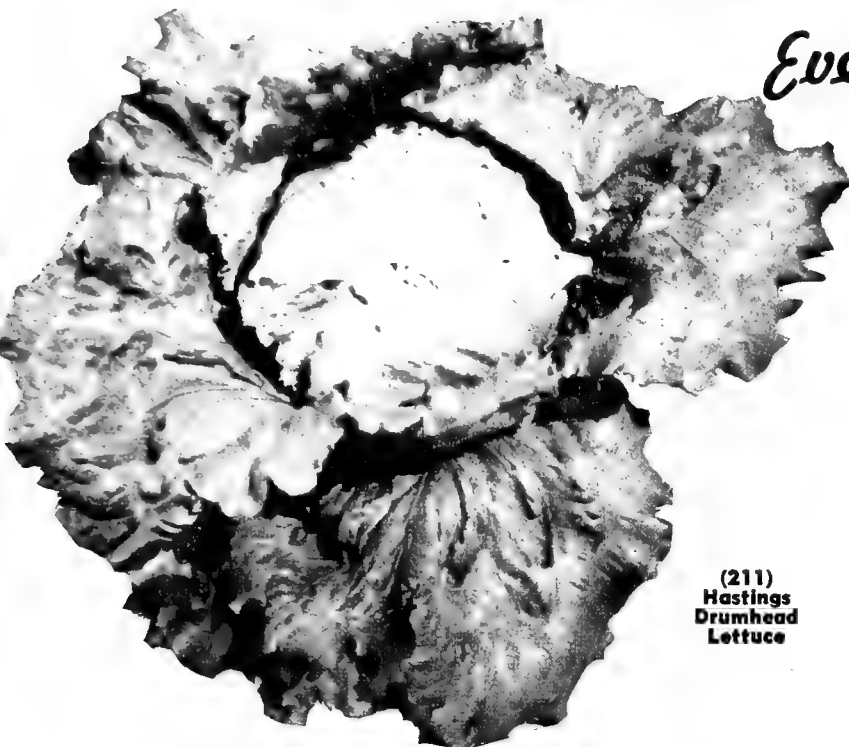

LOOSE LEAF TYPE—Best of all for forcing. Quick growing, hardy, upright, making a loose cluster of large savoyed or crimped leaves. Very attractive for garnishing and leaves hold up after cutting.

Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00.

223 BLACK SEEDED SIMPSON

LOOSE LEAF TYPE—Early, widely grown and popular early variety. Large, handsome, compact plant with wide, frilled light green leaves of splendid quality and crisp texture. Non-heading.

Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.00. Postpaid.

(211)
Hastings
Drumhead
Lettuce

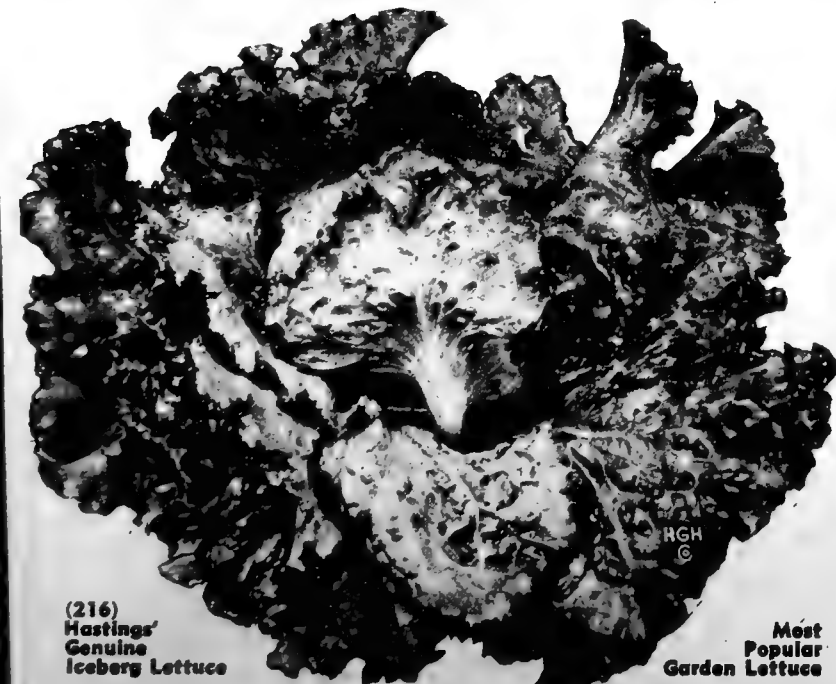

211 HASTINGS' BIG DRUMHEAD LETTUCE

CRISP LEAF HEADS—75 days. No variety has had a steadier sale. Good for home gardens and ideal for market. Our newest superb strain stands better, adapted to mid season heading; is earlier, with fewer outer leaves, lighter green and more attractive than any other strain. It is always large, with outer leaves a clear, light green color; inside of head almost pure white. Leaves are large, extra crisp, tender and entirely free from bitter taste. The most popular type lettuce grown in America. Generally sold as Iceberg on the market.

Pkt., 15c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Lb., \$4.50. Postpaid.

WARFARIN KILLS MICE—RATS!

This marvelous new discovery very positively eliminates mice and rats from the house and outbuildings and with small amounts of WARFARIN kept available, it will keep out new inroads from elsewhere. Send for a trial package. REDIMIX PELLETS, ready for instant use. 2 Lbs., \$1.95. Postpaid.

GREAT LAKES STANDS THE HEAT

**MAKES SOLID HEADS FOR COOLING SUMMER
SALADS TO DELIGHT ANYONE'S TASTE**

(207) Premier
Great Lakes Lettuce—
All-America Winner

For Home Gardens or Market

207 PREMIER GREAT LAKES LETTUCE

ALL-AMERICA SELECTION All-America Winner. Crisp leaf. A newer and considered better strain by many, of the famous Great Lakes Lettuce has now been developed and has proven its worthiness by excellent performance in test gardens throughout the country including our own here in Georgia.

Premier Great Lakes, like Great Lakes, makes a good solid head of crisp leaves—typical "Iceberg" type for home gardens or markets. It is heat and drought resistant which means so much to those who garden in the South, and it stands exceedingly well and long before bolting to seed.

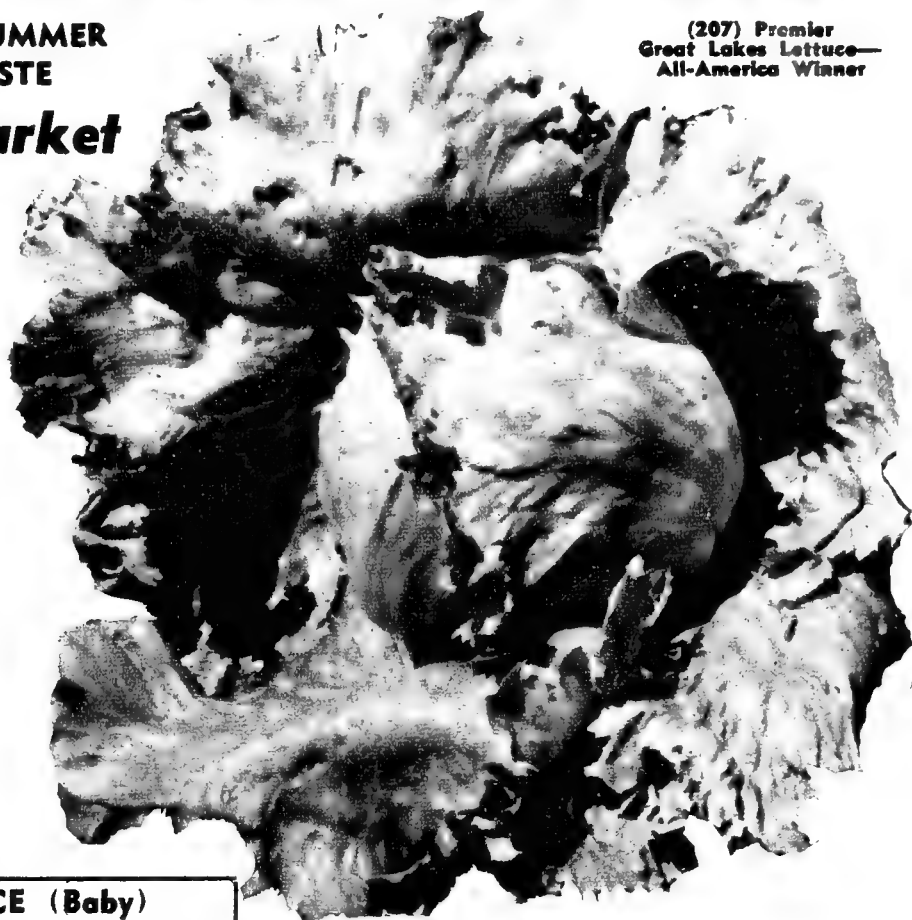

Premier Great Lakes is a worthy addition to our list of better varieties of Lettuce and we recommend it to you.

Pkt., 15c. Oz., 60c. ¼ Lb., \$1.75. Lb., \$5.50. Postpaid.

213 GREAT LAKES LETTUCE (SUPERB)

ALL-AMERICA SELECTION CRISP HEADS—75 DAYS. STANDS HOT WEATHER. All-America Winner. Only once in a generation does a really outstanding new vegetable for the garden come to the forefront as quickly and as successfully as this fine, new crisp leafed, solid headed lettuce. Particularly for the South is it most interesting. It holds into hot weather longer than any other variety tested and retains its crisp, tender, richly green, iceberg flavor to delight the most fastidious, and to make delicious salad bowls and other light summer dishes that both keep you cool and well supplied with Vitamins A and B1. Plant Great Lakes Lettuce in your garden this year and we believe you will plant it again and again.

Pkt. 15c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00. Postpaid.

221 GENUINE KENTUCKY BIBB LETTUCE (Baby)

Small Butterheads. 65 days. A very distinct variety of lettuce that has long been the favorite for salads in Kentucky, where it originated. It possesses a crispness and flavor all its own and once grown you'll never again be without it. The heads are very small, somewhat loose in form, with outer leaves a deep, glossy green, rich in vitamins, while the interior blanches to a rich yellowish green, tender and delicious. Bibb lettuce grows the same as other varieties except that plants are set only 6 inches apart, because of their small size. Start seed early to transplant very early in spring to head before real hot weather. Can also be planted in late August, in most sections, for a fall crop.

Pkt., 15c. Oz., 50c. ¼ Lb., \$1.50. Postpaid.

The Southern Garden Book Nationally Recommended

Recommended by the National Council of State Garden Clubs as well as Horticultural and Agricultural authorities as being the best general garden book for the South. Deals with every phase of home gardening with a wealth of practical information to save its cost every year you garden. Written by Louise and Donald Hastings and published by the world famous Doubleday & Co. of New York. Postpaid, \$4.95 per copy.

212 IMPERIAL 847 LETTUCE—Crisp Leaf Heads

A most satisfactory new strain of lettuce developed to withstand warmer weather than ordinary strains. It is resistant to brown blight, has a hard head of fine quality and matures relatively early, insuring favorable market attention. The best new lettuce for Southern planting—for home garden or market. Black seed.

Pkt., 15c. Oz., 45c. ¼ Lb., \$1.25. Lb., \$3.75. Postpaid. Supply very limited.

210 BIG BOSTON LETTUCE—Best Butterhead

BUTTER HEAD TYPE—75 days. Ours is excellence in this variety. The heads are so firm and solid that almost every head has to be cut open before the seed stalks can grow. It is a standard market garden and shipping variety, being grown almost exclusively in many sections for shipment and for market. Large, round, firm heading variety, and makes a good appearance in market. Leaves smooth, glossy, wavy and tinged bronze at edges. They fold tightly and form a creamy yellow heart. Our seed of Big Boston is the surest and hardest heading stock.

Pkt., 15c. Oz., 45c. ¼ Lb., \$1.25. Lb., \$3.75. Postpaid. Supply very limited.

208 Chicken Lettuce for Live Stock Feeding

For Poultry, Rabbits and Greens for Live Stock

SMOOTH LEAF, NON-HEADING—You should grow this medium green, curly leaf, cutting lettuce. It is called "White Early for Picking" in Europe, where it originated. It produces the largest mass of leaves of any known variety; is non-heading, has a spreading habit, and is the largest plant of lettuce in cultivation at maturity. Cut-and-come-again type for regular cutting of valuable greens—the more you cut the more it grows. Table eating quality is very poor.

Pkt., 10c. Oz., 20c. ¼ Lb., 50c. Lb., 1.60. Postpaid.

CLEANED UNTREATED ALFALFA SEED FOR TEA

We have had many calls for bright cleaned, untreated alfalfa seed to make tea. Many drink alfalfa tea regularly. Full directions sent with each package. Lb., \$1.50. Postpaid.

(221) Genuine Kentucky Bibb Lettuce

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

GARDEN FRESH CANTALOUPE TASTE BETTER

Depend on Hastings' Fresh Seed in Safety Sealed Bags

SUPREME GARDEN SATISFACTION COMES WITH RIPE SWEET MELONS PULLED FRESH FROM THE VINES!

Cantaloupes Contain Vitamins A and B1

PLANT CANTALOUPE EARLY

How to Grow Them

CULTURE—Plant after soil is warm in spring, in hills at least 4 ft. apart each way. Drop 8 to 9 seeds to each hill and thin out to 3 or 4 strong plants. Cover 1 in. in loamy soil and cultivate as for Cucumbers, keeping all weeds and trash cleared out to allow free and uninterrupted growth of the crop itself until fully matured. Use Sabadilla Dust (1 Lb., 89c. 5 Lbs., \$3.25.) for insects and DuPont Copper A Compound (6 Lbs., \$3.75. Postpaid) for disease. Use one pound cantaloupe seed per acre.

232 SMITH'S PERFECT CANTALOUPE

An outstanding melon which has attracted tremendous attention lately because of its remarkable resistance to disease and its ability to make good crops even under adverse conditions. Ideal market size, well netted and very thick orange flesh. Seed cavity small. Excellent for home or market. Pkt., 25c. Oz., 65c. ¼ Lb., \$1.75. Lb., \$4.75. Postpaid.

233 BANANA CANTALOUPE

Entirely distinct, melons growing from 12 to 24 inches long, 3 to 5 inches in diameter. The thick, rich flesh is orange in color with delicious eating qualities, somewhat of a banana-like flavor. Stands sun without burn or scald to mar its color or flavor. Pkt., 15c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$3.50. Postpaid.

I have grown many varieties of cantaloupes during the past 30 years, and for home garden use I have always had good success with Honey Rock. It has excellent flavor and ripens quite early which is an advantage when seasonal conditions are not extra good."—Donald Hastings.

244 HONEY DEW MELON—GIANT SIZE

A fully ripe Honey Dew leaves nothing to be desired in a sweet spicy flavor. Melons are round, weighing 6 to 8 pounds. Skin smooth and white, flesh of light green color and very thick. Can be kept for weeks after picking if kept in a well-aired place. Full flavor develops only after melons become quite soft at ends, but may be picked when fully developed. One of our friends said, "It has the sweetness of honey and the freshness of the morning dew." Pkt., 15c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$3.50. Postpaid.

242 NIXON, Real Old Spicy Muskmelon Georgia Favorite for Nearly a Century

100 days. Size 9x10 in. Weight, 8 Lbs. A real Georgia muskmelon with a great reputation in Georgia, where it has been known locally for many years. It is large to extra-large and with a delicious flavor. Single specimens weighing 12 to 15 pounds are nothing unusual. The center cavity is large and round. In flavor and quality it is a superb variety and it is sun and insect-resistant to a marked degree. For home use and nearby markets for medium late maturity. Nixon has an unusually fine flavor, is excellent in quality of flesh and exceedingly tender. It will be very popular on your table. Pkt., 15c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$3.50. Postpaid. Supply limited.

237 IMPROVED ROCKYFORD

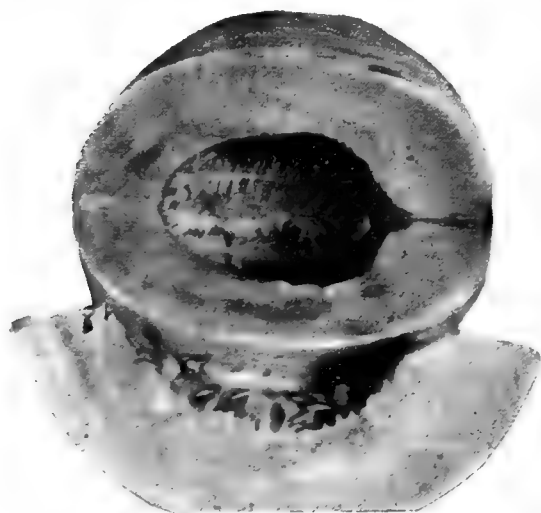

85 Days. Size 5½x5 in. Wt. 2½ lbs. A popular sweet variety of Cantaloupe adapted to the entire South for market and home use. Our type of Improved Rockyford is the finest gold lined, green fleshed strain, and if you are growing for home use or nearby markets you will find this especially satisfactory. Our seed is from crops grown exclusively for seed purposes and is not the seed from the tail end of Southern and Colorado shipping crops such as is commonly sold. Pkt., 10c. Oz., 30c. ¼ Lb. 90c. Lb., \$2.50. 5 Lbs., \$11.25. Postpaid.

234 HONEY ROCK CANTALOUPE

Gold Medal, All-America Selections

90 days. Size 6x5½ in. Weight. 4 Lbs. Also called Sugar Rock. About midway between Honey Ball and Eden Gem. Very prolific, with heavier, coarser netting than Honey Ball. It is almost round, of over medium size, richest salmon flesh of fine quality slatey gray-green skin and its great virtue is ripening uniformly. It is sweeter than Rockyford Cantaloupes but without the honey sweetness of Honey Dew. Outstanding for home use and its extreme earliness and uniform maturity make it a market variety, standing 2 to 3 days' shipping. Pkt., 15c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$3.50. 5 Lbs., \$16.25. Postpaid.

(244) Honey Dew Melon

(237) Genuine Rockyford Cantaloupes

Hits The Markets For Bigger Profits

JUMBO HALE'S BEST MAKES MONEY!

238 HALE'S BEST JUMBO

New Jumbo Strain—The Superb Market and Home Favorite

80 days. Size 6½x5. Weight 2¼ Lbs. This is our best selected improved strain. Exceptional extra early variety. It is also of the general Rockyford type, of remarkable flavor, distinctly sweet and firm fleshed. The rich salmon flesh is very thick, leaving only a very small triangular seed cavity. Fruits are oval shaped with heavy netting and ribs hardly apparent. Hale's Best is a superb shipper, commands a good price and is of greatest value as an early shipping melon. Plant some also for earliest home use.

Pkt., 15c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75. 5 Lbs., \$12.50. Postpaid.

The Best Seed is Always the Cheapest

When the crop is gathered, the quality of the seed shows so often the difference between profit and loss. Successful Farmers always plant corn, cotton, oats, wheat and other crops only with pure, pedigreed seed preferably direct from the breeder. It is just as important that each package of vegetable seed, large or small, be pure, pedigreed Stock—the kind you get from Hastings—in safety sealed packages.

231 HASTINGS' Gold Lined EDEN GEM

Our introduction. 84 days from seed. Size 5x5 inches. Weight 2½ Lbs. The illustration below shows the average shape and perfect netting of our Gold Lined Eden Gem (green fleshed), a real true money-making variety for the shipper and market gardener as well as most satisfactory for home use. Its dense netting helps greatly in resistance to insect attacks. Flesh is very thick and firm and the rust-resisting vines produce enormous crops of very uniform fruits. Practically ribless; seed cavity triangular and very small. This famous green fleshed melon is the most tasty and finest flavored of all Cantaloupes.

Pkt., 15c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75. Postpaid.

235 HEARTS OF GOLD

90 days. Size 6x6 in. Weight 2 Lbs. Ideal shipper and desirable mid-season melon for home gardens. Medium sized, orange fleshed variety with vigorous, blight-resisting and very productive vines. Fruits are nearly round, only slightly ribbed and netting is fine and dense. Flesh is very thick, firm, highly colored, of fine texture and delicious flavor. Rind is thin but firm and carries to distant markets in perfect condition. It is a superior commercial Cantaloupe; its wonderful flavor and insect-resisting dense netting making it equally valuable for home use.

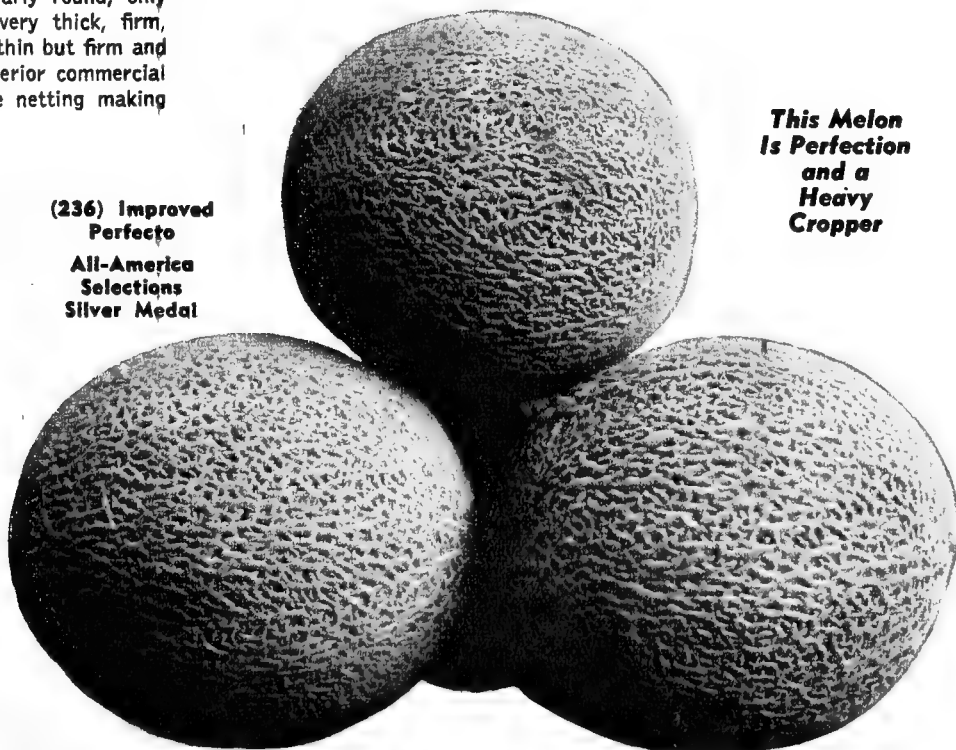

Pkt., 15c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75. Postpaid.

236 IMPROVED PERFECTO (All-America Cantaloupe)

ALL-AMERICA SELECTION Silver Medal. All-America Selections. 88 days. Size 6x5¼ in. Weight 2½ Lbs. A selection out of the popular Edward's Perfecto for uniformity and other qualities. Good, uniform netting, unnoticeable slight ribs, almost round, seed cavity triangular, with thick, sweet, spicy flesh. It has so-called pink meat, of delicious eating quality and desirable for home gardens, marketing and shipping. It is a new type of Rockyford, showing a trace of Burrell Gem but far surpasses that variety. It is sure to supersede most of the other shipping varieties, now that we have this type selected to the uniform, round, heavy, typically Cantaloupe requirements. It's perfection and a heavy cropper.

Pkt., 15c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.00. 5 Lbs., \$13.75. Postpaid.

243 HASTINGS' SALMON-FLESH EDEN GEM

Also known as Hastings' Pink Meat. 85 days. Size 6x5½ in. Weight 2½ Lbs. Our Salmon-Flesh Eden Gem is the same hardy, rust-resisting, prolific, finely netted fruit as the Eden Gem and with so-called pink meat—the grand pink meat melon for home use, market and shipping. Flesh is very thick with extremely small seed cavity, fine grained, juicy and sweet. This is just as fine a Cantaloupe as Hastings' Eden Gem.

Pkt., 15c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75. Postpaid.

(255) CONGO--FOR BIGGEST PROFITS

The Best Melon Growers in the World Inspecting Our Seed Fields of Congo

YOUR WATERMELON SEED

There's more to watermelon seed production than merely cutting or grinding the melons and washing and drying the seeds. Good seed comes only from good breeding and careful selection of the planting seed together with growing, harvesting and handling with quality the main objective. Such is the way Hastings' Seeds are handled. We carefully inspect each operation to see that you, our customer, get the seed that will "come up what you buy."

Congo melons have to be good to justify that dollars and cents confidence the carlot buyers put in them over other varieties. On local markets Congos continue to cut red and bring good prices even late into the summer.

Congo Sold for MORE Money in Every Market

ALL-AMERICA SELECTION 90-95 days. 40 Lbs. Congo is a long but thick melon alternately striped dark and light green. The vines stay green much longer than almost any other because it is highly resistant to anthracnose spot on the leaves and melons. It is very solid with medium thick, very tough rinds, has a beautiful deep red heart and is of excellent flavor. It is quite heavy and just can't miss as a top market melon and still it is of home garden quality. Late plantings bear practically until frost!

255 CONGO WATERMELON PRICES

Pkt., 20c. Oz., 35c. 1/4 Lb., 90c. Lb., \$2.50. 5 Lbs., \$11.25. 10 Lbs., \$20.00. Postpaid. Write for lower prices on larger quantities.

255C Certified Congo Watermelon

We have a moderate supply of state inspected, certified, treated seed of Congo that we will ship only as the supply lasts and in original 1 lb. containers. Plant approximately 1 pound per acre.

Certified, sealed, treated 1 lb. bags, one or more \$3.50 each. Postpaid.

(255) New Congo Watermelon Disease Resistant

Exceedingly
Fine
Flavor

257 BLACKLEE (Wilt-Resistant)

90 days. 35 Lbs. Wilt-resistant. A long, very blocky, dark green rind watermelon. The inside flesh color is rich and red, cuts very sweet and solid. With its rather tough but relatively thin rind it is proving quite satisfactory for long distance shipping. We do recommend Blacklee as one of the best wilt-resistant watermelons to date.

Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.00. Postpaid.

262 GENUINE GARRISON WATERMELON

This very highest quality melon has long been grown in many sections under various names but we have the true, tender rind, very sweet fleshed strain that is in such demand for home use and nearby markets. Seed of inferior varieties are frequently sold for Garrison so be sure of your supply.

Pkt., 15c. Oz., 40c. 1/4 Lb., \$1.00. Lb., \$3.00. Postpaid.

256 MIDGET WATERMELON (New Hampshire)

ALL-AMERICA SELECTION New Hampshire Midget won acclaim from many sections because of its rich, red sweetness and small size for ease in home refrigeration. Similar in size to large Honey Dew melon. Seeds very small.

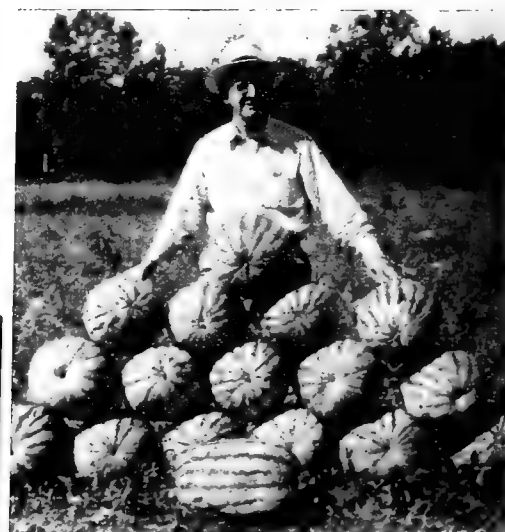

Pkt., 25c. 3 for 60c. Oz., 60c. 1/4 Lb., \$1.75. Lb., \$5.00. Postpaid.

(254) NEW DIXIE QUEEN

Improved Wilt-Resistant Strain

90 days. 30-35 Lbs. A very new wilt-resistant strain of the famous Dixie Queen variety which has been a market profit maker for many years. Its disease resistance enables you to make more marketable melons and it's ideal also for the home garden where it can be grown on the same land the second year. Seeds small, pound plants 2 acres.

Pkt., 15c. Oz., 30c. 1/4 Lb., 75c. Lb., \$2.25. 5 Lbs., \$10.00. Postpaid.

(254) Wilt Resistant Dixie Queens

253 HASTINGS' CANNONBALL (SUPER STRAIN)

Also Called Florida Giant, Texas Giant, Oklahoma Black Diamond

SAFETY SEALED BAGS ONLY

It's Watermelon Dynamite to Blast Into The Most Critical Markets

The word is out that Hastings has the very best seed in existence of this new strain. Send direct to headquarters and play it safe!

90 days. 35-40 Lbs. This great watermelon has quickly become the most popular and heavily planted shipping melon in the entire world! Thousands of cars were shipped in 1953 at very profitable prices because of the excellent market quality it gives even when forwarded to distant cities. It is likewise a good home garden variety and fine for local and nearby markets. This year, again, from a grand crop, we are very happy to offer to you this new finer strain of Florida Giant, Cannonball or Black Diamond. The result of careful selection and breeding, we believe that this is the finest stock of this variety ever offered by any seedsman and we want you to know that we are proud to offer it under our name.

Our strain is noted for its heavy yield of choice market melons of smooth round shape, dark, rich green color, and its extra quality of fine textured, red flesh which is maintained for the length of time necessary for successful marketing.

Hastings' new super market strain is just the best there is for you to plant for biggest profits this year.

With melons selling for \$400.00 to \$800.00 per car this past year and even much higher prices the year before it is absolutely necessary for you to take no chances but to plant the very best. It surely will prove the cheapest when sales are made at market time.

We have only a normal amount of this new super strain to offer this spring. Plant 1 pound per acre. Sealed packages. Delivered. Pkt., 15c. Oz., 35c. 1/4 Lb., 90c. Lb., \$3.00. 5 Lbs., \$13.75. 10 Lbs., \$25.00. 25 Lbs., \$56.25. 100 Lbs., \$200.00. The best Seed is the cheapest regardless of price!

253C. CERTIFIED CANNONBALL. We offer a limited quantity of genuine certified seed of this popular market variety in sealed one pound bags only. One or more, \$3.50 per pound. Postpaid.

259 YELLOW BELLY STRAIN BLACK DIAMOND

90 days. 40-45 Lbs. New strains of older varieties are constantly being developed and this most unusual variation has excited a great deal of attention wherever it has been grown. It has particular uniformity of size, weight, color and is very productive. All this adds up to good markets and good profits. A heavy demand is here for this dark green rind melon with its characteristic yellow bottom color where it rests on the ground. Superb in size, flavor, color and a sure seller on all Cannonball and Black Diamond markets. Supply limited. Sealed Packages.

Pkt., 25c. Oz., 50c. 1/4 Lb., \$1.25. Lb., \$3.50. Postpaid.

"I Wouldn't Trade Jobs With the President" (Incidentally Hastings' Cannonballs)

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

(264) SUPER-RED HEART STONE MOUNTAIN

Super-Red Hearts in Our Seed Fields

Treat Seed and Spray Vines

To insure the best results possible be sure to dust all melon seed with Arasan before planting. $\frac{3}{4}$ Oz., 30c. 8 Oz., \$1.15. Postpaid.

Then keep vines sprayed regularly, with Dupont Copper A Compound 6 Lbs., \$3.75. Postpaid) to prevent premature dying of the vines, which frequently causes white hearts and small unmarketable melons.

*Still the Finest Quality
Melon in Existence*

Eat Melons Regularly to Stimulate the Kidneys

264 SUPER-RED HEART STONE MOUNTAIN

Every Package Safety Sealed

Our newest, finest strain of the greatest home garden and market watermelons ever introduced! This new super-red heart strain of our genuine Stone Mountain represents the culmination of a 19-year breeding program carried on at our seed farm here near Atlanta and is just about perfection in so far as melons grow.

It takes a great deal more than merely cutting or grinding melons and washing and drying the seed to have really pedigreed seed such as ours is. We cut hundreds of melons and discard all but a few for our choicest stock seed which is planted to bring you this very finest seed in existence.

The seed cost of even a good size field is so small compared with your time, labor, fertilizer and other expenses, it is poor business to gamble on cheap seed to try to save a few pennies. Buy the best seed and you save in the end. We know we are right about it.

Because of its stimulation of the kidney functions the use of watermelons is increasing tremendously from purely a health standpoint.

264 SUPER RED HEART MELON PRICES

PRICES: Originator's stock seed. Sealed packages only. Pkt., 15c. Oz., 35c. $\frac{1}{4}$ Lb., 90c. Lb., \$2.75. 5 Lbs., \$22.50. Postpaid.

5-Oz. Melon Collection for 85c

A SEASON'S SUPPLY OF MELONS

Enough watermelon seed to plant about one-fourth acre patch, enough for the average family. One full ounce of each of Tom Watson, Dixie Queen (wilt resistant), new Wilt-Resistant Blacklee, our Super-Red Heart Stone Mountain and also the Jumbo Hale's Best Cantaloupe. A real home garden bargain for 85c, the amount often paid for just one nice melon on the market. Postpaid.

261 HASTINGS' GRAYSTONE

The World's Sweetest Watermelon!

90 days. 25 Lbs. All-America Winner. Hastings' Introduction. Distinct gray green Stone Mountain type and shape with the sweetest of all richest red, fine grained flesh. Most deliciously flavored and perfectly suited for home gardens and nearby markets. Rind thin, but relatively tough. A good melon to grow and the best to eat. Seed small, go a long way. Pkt., 15c. Oz., 40c. $\frac{1}{4}$ Lb., \$1.00. Lb., \$3.50. Postpaid.

258 TOM WATSON WATERMELON

Cut Red Strain of this Old Favorite is the Best to Grow

The Real Red Meated Tom Watson, 90-95 days. 30-40 Lbs. It's a splendid melon for shipping, to sell in nearby markets and for home use. Melons are very large, uniform, of cylindrical shape and medium in maturity. Deep green skin, with faint veining, tough and elastic rind. The flesh is bright red, firm, somewhat coarse and of good flavor. Seeds are medium sized, brown with light spots. Pkt., 10c. Oz., 30c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.00. Postpaid.

WATERMELON CULTURE

Plant in fresh or new ground after soil is thoroughly warm in spring. Make hills preferably 8 ft. apart in 10-ft. rows. 600-800 pounds of good commercial guano is recommended. Drop about 8 seeds in each hill, and thin out to 3 or 4 strong plants after rough leaves have formed. Cover seeds 1 inch in loamy soil and cultivate often until vines prevent; then pull out weeds and grass. Spray vines regularly with good fungicide to prevent premature dying of the vines resulting in small, pale or white fleshed melons. Treat seed with Arasan for protection from soil borne disease except wilt, which may be controlled by using our Blacklee wilt-resistant seed. Use the new Congo for disease resistance also. Avoid using nitrates or other nitrogen fertilizer as a top or side dressing. This frequently causes white or hollow hearts even in good seed and can ruin your crop. Use the best seed, use care in growing and enjoy the best melons in the world.

268 Citron, Green Giant (Western Grown Seed)

96 days, 10 Lbs. Round, solid white fleshed melon for the finest sweet pickles you ever tasted. Surplus can be fed to hogs and cattle. Citrons are grown regularly in some sections for stock feed. Skin color is alternate dark and light green in broad stripes. Seeds are heavy, smooth and glossy green. Remember—do not plant anywhere near watermelons for citrons cross and ruin watermelons. Pkt., 15c. Oz., 25c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.25. Postpaid.

(261) Hastings' Graystone—Sweetest of All

Spicy Summer Greens FRESH MUSTARD

CULTURE—Sow in rows 14-24 in. apart, thinning plants to 4-6 in. apart. Leaves are ready to use in 4-6 weeks. Make successive plantings for continuous supply. Mustard runs to seed quickly. Oz. plants 200 foot row; use 4-5 Lbs., per acre.

Mustard is used chiefly for boiled greens in summer. It is fast growing, as healthful as Spinach. Tops are similar to Turnips in flavor but more tender stems, and better quality.

276 Florida Broadleaf Mustard for Greens

Leaves very broad, succulent, large, tender midrib to make superbly delicious greens. Favorite of all.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. Postpaid.

277 Chinese Mustard for Greens

Leaves broad, unfrilled, dark green, rough textured. Cooks very mild, tender and free from bitterness.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. Postpaid.

275 Tendergreen Mustard for Greens

Spinach Mustard. A fast growing new type of mustard that is really taking gardens by storm. Tendergreen makes good greens in 3 to 5 weeks, is delicious and free of the regular mustard pungency. We recommend Tendergreen to every Southern gardener for a series of plantings all summer.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

279 White (Hot) Mustard

Old fashioned hot mustard to make from the seed. Leaves small.

Pkt., 10c. Oz., 30c. Postpaid.

280 Hastings' Mixed Southern Salad Greens

Many of our customers like to have a grand mixture of popular Southern greens to plant all together at the same time and to come early and bear over a long season. Hastings' combination salad is a blended mixture of Turnips, Mustard, Kale and Rapegreens to give greens for continued bearing. Thus in only one planting you not only get a long season of healthful, appetizing greens but you will get a superb combination of flavor to delight the most backward appetites.

(278) Hastings' Giant
Southern Curled Mustard
(Ostrich Plume Strain)

278 Giant Southern Curled Mustard (Plumed) (LONG STANDING)

Ostrich Plume Strain. Our most popular mustard and the finest for heavy production of tender, superbly flavored, deeply curled and frilled leaves for home gardens and market. Slightly pungent, crisp and tender, our strain is noted for its fine quality eaten like lettuce or more popularly boiled for greens. Also the market favorite.

We unreservedly recommend this superb improved strain for you to plant in your year round garden.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

SABADILLA DUST

In late summer use Sabadilla Dust to control collard bugs and similar insects. Lb., 89c. 5 Lbs., \$3.25. Postpaid.

THE SOUTH'S BEST OKRA IS AT HASTINGS

Okra Contains Vitamins A and B1

CULTURE—After soil is warm, plant in 3 foot rows, covering seed about one inch. When well up thin plants to a foot apart. Cultivate often. Oz. plants 50 ft. row, use 10 Lbs. per acre.

303 New Early White Lightning For Home Gardens

5 ft. 50 days. All-America Bronze Medal. Spineless. A new distinct okra introduction from Hastings' Seed Farms. Entered in All-America competition it readily won favor of judges all over the country. An extra early smooth and exceptionally long white-podded okra bearing 7-10 days ahead of White Velvet. Stays tender to much larger size than other varieties and is free from sharp spines.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. Postpaid.

304 Hastings' Early Dwarf Okra

3 ft. 50 days. The pods are like our Improved Perkins, thickly set on the plant and begin to form very early. Plants branch from base.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. Postpaid.

306 Hastings' Improved Perkins (Dwarf Strain Okra)

EVERY SEED HAND PICKED

4 ft. 55 days. This distinct green-podded okra is by far the best variety for market and shipping and is used by many Southern truckers exclusively. We have greatly improved the original strain. Pods intensely dark green, of unusual flavor. 7 to 9 inches when full grown. Hastings' Super Strain for home gardens and markets.

Pkt., 10c. Oz., 20c. 1/4 Lb., 60c. Lb., \$1.50. Postpaid.

Write for low quantity prices.

(306) Hastings'
Improved
Perkins Okra

Hastings' Famous Superior Grown Strictly Hand Saved Seed—The Best There is!

Hastings' hand picked seed costs more to produce but gives you far better vitality than machine harvested seed. Truly it's worth double more.

305 White Velvet Okra

4 ft. 60 days. Standard throughout the South for home use and local markets; ready to use in 55 to 60 days. We have developed a fine, early, very round, white, smooth-podded strain of medium size.

Pkt., 10c. Oz., 20c. 1/4 Lb., 45c. Lb., \$1.25. Postpaid.

307 New Clemson Spineless Okra (Certified Seed)

4 ft. 55 days. All-America Silver Medal. Spineless. After many years of intense breeding Profs. McGinty and Andrews, of Clemson College, have succeeded in establishing a very uniform, dark green, spineless strain of the Perkins type of long pod okra. Winning recognition of vegetable judges all over the country it will take its place as a superior variety easily picked without discomfort. We are delighted that we can offer seed taken from sealed certified bags. Pods slightly thicker than Perkins.

Pkt., 10c. Oz., 20c. 1/4 Lb., 60c. Lb., \$1.50. Postpaid.

GROW GREEN ONIONS - GROW 'EM THIS SPRING

(298) Riverside Sweet Spanish Onions

(289) (290) Typical Bermuda Onion
Mild and Sweet

Garden Fresh Onions Contain Vitamin B1

CULTURE—Use fine, rich soil and keep growing steadily. Thin out gradually to stand; final thinning when 6-8 in. tall may be used for green onions. Then dig as tops begin to die. Dig and dry store with tops on until ready to use or market. Oz. plants 200 ft. row; Use 3 to 5 Lbs. per acre. 100 plants will set 50 feet row.

HASTINGS' SEED IN SAFETY SEALED BAGS

Nowhere are we more careful in our growing operations than where our onion seed is grown. You may feel confident that when you order from Hastings' you do get the very best available anywhere in the seed world. Always send to Hastings' for the very best seed—pure, live and packed in safety sealed bags.

298 RIVERSIDE SWEET SPANISH—Very Mild

One of the newer developments in profitable onions for the South and we believe you will enjoy its mildness and yet genuine onion flavor. Superior in flavor, mildness, keeping qualities and yield. Large, well shaped, light brown onions, weighs 1 to 3 pounds and unusually mild.
Pkt., 15c. Oz., 60c. ¼ Lb., \$1.75. Lb., \$5.50.

294 YELLOW GLOBE DANVERS ONION

We are fortunate in having a limited supply of this garden favorite so extensively liked and adapted to the middle and upper South. It is medium early in maturity, medium size, globe in shape, firm and rather mild. Flesh is crispy white with pale coppery yellow skin.
Pkt., 15c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$4.00.

292 WHITE GLOBE ONION

An old but popular favorite with real strong onion flavor.
Pkt., 15c. Oz., 60c. ¼ Lb., \$1.75. Lb., \$6.00.

297 Australian Brown—The Long Keeper Onion

The long keeping onion for our warm Southern climate. Round, flattened, firm and solid, pungent flavor and heavy producing onion with amber brown skin. Very popular and a Southern favorite for many years because of its adaptability to our soils and climate and excellent keeping qualities.
Pkt., 15c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00.

300 Silver Skin Onion

White Portugal. A splendid pickling onion with mild flavor and silvery white skin. It is flat on the bottom and thick towards the top, firm, hard, an excellent keeper.
Packet, 15c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00.

GENUINE STRONG ITALIAN GARLIC SETS

Good Also for Cooking

For appetizing flavor to soups, roasts, salads and stews. Strong, penetrating flavor and odor, relished by many. Grow the same as onions. Dig in fall and store in cool, dry place for later use. (These sets may also be used for cooking.)
Pound, 70c. 3 Lbs., \$1.95. Postpaid.

289 CRYSTAL WAX WHITE BERMUDA ONION

New Early Mild Strain

A newer introduction, identical to Excel Bermuda, except crystal white and in the new early strain. Superbly mild flavor. Unquestionably one of the most popular of all onions planted and a real treat from your garden either as green onions or matured. Superb.
Pkt., 15c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00.

290 EXCEL BERMUDA ONION

Extra Mild and Extra Early

The great U. S. Dept. Agric. introduction that brings deliciously mild yellow Bermuda onions ahead of the other market and home varieties. True Bermuda onion in flavor, size and color and a winner for your garden and market!
Pkt., 15c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00.

200 Hardy Onion Plants For 85c Postpaid.

Genuine Hastings' Bermuda Onion Plants, shipped direct to you in ready to grow condition—Postpaid to your address. (Quantities not exact—figures only approximate.)

200 Bermuda Plants, 85c. 500 Plants for \$1.75. 1,000 or more \$3.00 per 1,000. No orders for less than 200. No plants C.O.D.

With short supplies we must ship plants strictly from stocks available at shipping time.

296 HASTINGS' PRIZETAKER ONION

Light straw colored, large round onion with mild flavored white flesh. Always a very satisfactory variety to grow and we do recommend it very highly to you for this reason. A very heavy producer and a genuine Southern favorite.
Pkt., 15c. Oz., 60c. ¼ Lb., \$1.75. Lb., \$5.50.

HASTINGS' HARDY ONION SETS, POSTPAID

For earliest onions plant these sets early 3 inches apart in rows. (No C.O.D. orders, please.)

Silver Skin Sets. Favorite strong white. 1 Lb., 45c. 3 Lbs., \$1.25.

Yellow Globe Sets. The standard yellow. 1 Lb., 45c. 3 Lbs., \$1.25.

285 Large Red Wethersfield Onion

Easily grown to full maturity from seed and a good keeper into winter. Almost round, of a large size and purplish red color. Pungent.
Packet, 15c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00.

New Septic Tank Bacteria Package Units Avoid Unpleasant Cleanouts

We are happy to offer these packages of disease and odor controlling bacteria to drain into your septic tank, cesspool or outdoor toilet for more rapid decomposition of waste products. Large package of four treatments with full directions for simple use will save many cleanout bills and insure healthier surroundings.

SEPTONIC UNITS, \$1.49 each, plus 24 cents postage and packing. Total, Postpaid, \$1.73.

PUMPKINS MAKE PIES — ALSO STEWS

They Grow So Easily!

Pumpkins Contain Vitamin B1

CULTURE—Plant in hills 8 feet apart each way after weather and soil get warm. Plant about 10 seeds to a well-fertilized hill, thinning to 3 plants after well started. Hoe often till vines begin to run. Cut Pumpkins from vine after the leaves die, leaving 3 to 4 inches of stem attached, and store in dry place. Pumpkins sometimes are bitter if harvested before full ripe. Oz. plants about 20 hills; use 3-4 Lbs. per acre.

362 ALAGOLD PUMPKIN

Superb for the table!

100 days. 6x10-12 in. 4-6 Lbs. Marvelous production by Dr. C. L. Isbell, of Ala. Poly. at Auburn, with superbly sweet flavor, heavy yields of club shaped, ideally sized fruits with hardly any seed cavity. Rich orange skin and flesh.

Pkt., 15c. Oz., 30c. 1/4 Lb., 85c. Lb., \$2.50. Postpaid.

361 Tennessee Sweet Potato Pumpkin (Tastes Just Like Potatoes)

105 days. 13x10 in., 12-15 Lbs. Very popular very early variety in the South. Fruits are pear-shaped, often with slightly crooked neck. The skin is creamy white with faint light green stripes. Flesh is cream colored also, thick, fine grained and of very good quality. It is a hardy sort, vines are productive and fruits keep well into late spring. The flesh looks like a sweet potato when cooked and has a delicious taste. Try to find place for a few hills this year.

Packet, 15c. Oz., 30c. 1/4 Lb., 90c. Lb., \$2.25. Postpaid.

364 Sweet or Sugar Pie Pumpkin

113 days, 8x10 in., 6-8 Lbs. Standby for general use and particularly desirable for pies. Fruits are round, flattened at ends; skin is hard, smooth, somewhat ribbed and deep orange. Flesh is thick, very sweet, orange-yellow and of very high quality. Heavily productive.

Pkt., 15c. Oz., 30c. 1/4 Lb., 85c. Lb., \$2.25. Postpaid.

360 Southern Field Pumpkin

118 days, 13 in. across, 10-15 Lbs. For canning and stock feed. Fruits large, slightly ribbed, dull orange; flattened to round. Deep yellow, coarse flesh of good flavor. Vigorous and prolific.

Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.00. Postpaid.

SALSIFY—A Worthy Crop

404 MAMMOTH SANDWICH ISLAND. Plant seed in early spring in rich, loamy, deep soil and thin to 3 in. apart. Cultivate cleanly all summer and dig as needed through fall and winter. Has long, white tapering roots with flavor resembling oysters. Fine for home garden or market.

Pkt., 20c. Oz., 50c. 1/4 Lb., \$1.50. Postpaid.

RHUBARB ROOTS

Not recommended for Florida or Coastal sections but does well in Upper South and farther north in moist, rich, heavily manured partly shaded locations. Set out clumps roots in early spring for large and juicy stalks the following spring. They make the most delicious of all pies. Order before April 1. Heavy roots, 65c each. 3 for \$1.55. Postpaid.

HORSERADISH ROOTS

Horseradish can be grown in the South, giving best results in rich, rather moist, partly shaded locations. Set the roots, small end down or flat with tops 2 in. below surface. Cultivate well until leaves cover the ground. Horseradish roots, besides being grated for hot, rich seasoning, may be started in pots of water indoors for oriental-looking house plants. Prices: 25 Roots, \$1.25; 50 Roots, \$2.25; 100 Roots, \$3.75. Postpaid. No shipments after April 1.

(362) New Alagold Pumpkin (African Squash)

365 IMPROVED CUSHAW PUMPKIN

110 days. 18x10 in. 10-15 Lbs. Fruits are heavy, skin is hard, thin, smooth, creamy, some with irregular light green stripes. Flesh is thick, creamy yellow and medium coarse grained. It is attractive in appearance. It is used in many sections primarily for stock feed but makes good stews, highly spiced.

Pkt., 15c. Oz., 30c. 1/4 Lb., 85c. Lb., \$2.25. Postpaid.

363 Big Jumbo—King of the Harvest

120 days, 20-24 in. across, 60-90 Lbs. Under good cultivation it's a monster. Valuable for exhibition purposes, big Halloween faces, stock feeding and fair for baking and pies. Quality is good, considering its size. Fruits irregular, skin yellow and orange. Salmon-orange flesh is coarse grained. Rather variable in shape.

Pkt., 15c. Oz., 35c. 1/4 Lb., 90c. Lb., \$2.50. Postpaid.

ENGLISH PEAS ARE SWEET PEAS IN FLAVOR

(316) Hastings' Famous John L. Extra Early Extremely Hardy English Peas

(317) Alaska Extra Early Hardy English Peas

**FRESH PEAS
CONTAIN
VITAMINS
A and B1**

EARLIEST WRINKLED PEAS

324 Genuine Laxtonian

54 days, 2 ft., 4 in. pods, wrinkled seed. Handsome early Pea, easy leader of large podded dwarf varieties. Very large, dark green, pointed pods, with large peas of fine quality. Peas are light green, flattened and of exceptional flavor. Gardeners want a pea which doesn't need staking but which is prolific and with a definite sweet taste. Laxtonian is this type of pea. Dark green vines, vigorous and very productive.

1/4 Lb., 20c. 1/2 Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

315 Extra Early Surprise

53 days, 2 ft., 2 1/2 in. pods, wrinkled seed. Earliest wrinkled pea. Heavy bearing, delicious eating quality and uniform maturity make this a big favorite for home, market, canning and shipping. Blunt ended, round, light green pods with 6 medium size peas. Our long podded pure-line strain of Surprise is outstanding and the best one for you to plant. Our strain of this variety excels in tenderness of skin and sweetness of flavor. It's a first quality canning sort as well as the most desirable variety.

1/4 Lb., 20c. 1/2 Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

320 TETON—(Very Sweet)

ALL-AMERICA SELECTION All-America Vegetable Selections Award. Recommended to take the place of Thomas Laxton, one of its parents. Pods larger, darker green, better filled than Thomas Laxton. 100% resistant to Fusarium wilt. Try it. 65 days to picking. 3 ft. tall. 3 3/4 in. pods, wrinkled seed. One of the very finest of all English or Garden Peas and superbly adapted to our Southern soils and climatic conditions. It bears heavily and is suited to home gardens, local markets, and also for distance shipping. Teton is an all-purpose, highest quality pea.

1/4 Lb., 20c. 1/2 Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

EXTRA HARDY—EXTRA EARLY

316 Hastings' John L. English Pea (Very Hardy)

50 days, 2 ft. tall, 2 1/2 in. pods. Round seed. Earliest for home use, market or shipment. John L. is a standard with Southern gardeners. Plant these this winter or spring and have tender, delicious peas on your table and to sell at fancy prices. Hardest, round seeded for earliest planting and quickest to develop pods anyway. Winter is the time to plant to have some of these vitamin filled beauties garden fresh to your table. Start them early for best profits.

1/4 Lb., 20c. 1/2 Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

317 Alaska (Hardy, Extra Early, Very Prolific)

52 days, 2 ft. tall, 2 1/2 in. pods, round seed. Best quality, heaviest bearing round-seeded extra early. A splendid shipper, canner and garden pea. Foliage and pods light green; pods round, straight and square ended. Containing six peas. Seeds of bluish shade, well rounded out; fresh peas are about equal to wrinkled peas in quality. Alaska has a grand reputation in the South, may be planted very early to be ready early and long bearing before hot weather. This is a distinct advantage and a money saver for your family food budget at a time when fresh vegetables are sky high in price.

1/4 Lb., 20c. 1/2 Lb., 35c. Lb., 60c. 2 Lbs., \$1.10. 5 Lbs., \$2.35. 10 Lbs., \$4.00. Postpaid.

THESE ARE THE VERY TENDEREST PEAS

HOW TO GROW TENDER ENGLISH PEAS

The secret of growing the sweetest, tenderest and most delicious English Peas is to start them very early in heavily manured, rich soil, planting them about 1-2 inches deep and gradually working soil to them to insure plenty of moisture at all times. After the pods are well formed keep them picked regularly to continue bearing over the longest season. Inoculate the seed just before planting. Garden size package inoculation 15c. Postpaid. The many pickings of peas of such flavor that cannot be bought in stores is profit indeed!

319 LAXTON'S PROGRESS

62 days, 1½ ft., 4½ in. pods, wrinkled seed. An extra dark podded English Pea for the most critical home gardener or for the choicest markets. Largest pods of handsome deep green color. Ideal market variety of the Laxtonian group. Superb for home gardens as well.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

327 Improved Telephone English Pea for the South

72 days, 4-5 ft., 4½ in. pods, wrinkled seed. Profitable to home and market gardeners. It must be supported; immensely productive, bearing 25 to 30 extra large pods to each vine. It has that excellent sugary flavor. Vines and foliage strong and heavy. Pods straight, broad and pointed, containing 8 large peas. Resistant to Fusarium wilt.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

332 Champion of England

76 days, 4½ ft., 3 in. pods, wrinkled seed. Richest, best flavored late, for home gardens. Plump, straight, blunt pods contain 7 large peas. Vines are heavy and vigorous. Well-known favorite variety.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

328 Home Delight Peas

64 days to picking, 2 ft. tall, 3¼ in. pods. Strong, vigorous grower with stiff, stocky growth so it stands without brushing in double rows. The sweetness, tenderness and heavy-bearing give satisfaction.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

326 Sugar or Salad Pea—You Can Eat Pods and All

62 days, 2 ft., 3 in. pods, round seed. Distinct variety with edible pods, cooked and eaten like snap beans when young. Very tender, stringless and rich flavored. Wilt-resistant, small seeded and a great favorite.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.75. 10 Lbs., \$4.75.

329 BLISS EVERBEARING—Heaviest Producer

70 days to picking, 3 ft. tall, 3 in. pods, wrinkled seed. The greatest favorite among our customers for home gardens and nearby markets. Pods contain 4 to 6 wrinkled peas, of very fine table quality and rich marrowy flavor. Size of peas very large, frequently ½ in. across, when mature are light green, flat and wrinkled. Vines branching, forming as many as ten stalks to a single root, standing in double rows without support. This variety is noted for its continuance of bearing. Even after repeated picking the vines continue to develop blossoms which mature fine peas. Vines are resistant to Fusarium wilt and it is a most satisfactory home and market garden standby. Most popular variety.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

FIELD PEAS FOR TABLE

333 Dixie Sugar Crowder Peas

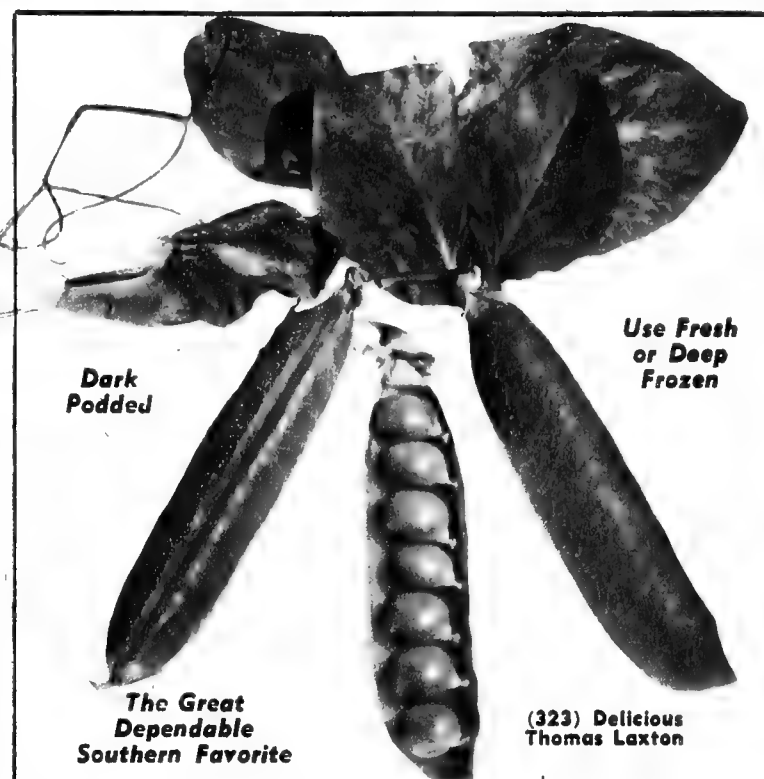

The most popular favorite of all table cowpeas. Light brown Peas crowded closely in prolific borne pods.
¼ Lb., 20c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. Postpaid.

339 Early Ramshorn Black Eye Pea

Wilt Resistant. New early maturing black eye ramshorn resistant to some serious wilt strains here in the South. Heaviest yield of dry peas for immediate use or storage.
¼ Lb., 20c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50.

340 Large Black Eye Peas

Grow your own, for summer use green and winter use dry. You'll have to buy them if you don't.
¼ Lb., 20c. Lb., 60c. 2 Lbs., \$1.10. 5 Lbs., \$2.25. 10 Lbs., \$4.00.

323 THOMAS LAXTON—Delicious Peas

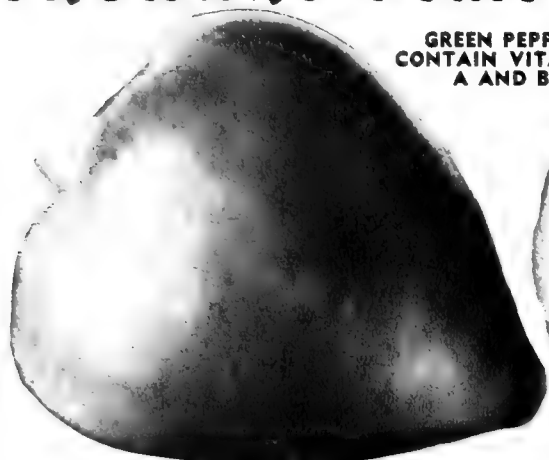

The Great Dependable Southern Favorite

55 days to picking, 2½ ft. tall, 3¼ in. pods, wrinkled seed. Considered the finest pea in cultivation. Early heavy bearer for professional growers as well as home gardeners. Straight, blunt, well filled pods of 7 greenish cream peas. Very popular with Florida and Gulf Coast growers. Flavor is pleasing and peas retain their tenderness. Handsome, early and heavy bearer of medium size peas. It is a dandy home garden variety.
¼ Lb., 20c. ½ Lb., 35c. Lb., 65c. 2 Lbs., \$1.25. 5 Lbs., \$2.50. 10 Lbs., \$4.50. Postpaid.

TRUHART PIMIENTO FOR FRESH OR CANS

GREEN PEPPERS
CONTAIN VITAMINS
A AND B1

(358) Hastings' Truhart Pimiento—Thickest Flesh for Favorite Salads!

358 TRUHART PIMIENTO

ALABAMA SELECTION 70 days from plants; size $3\frac{1}{2} \times 2\frac{1}{2}$ in. Top shaped. Developed by the Georgia Experiment Station, this new pimiento strain positively tops them all in sweetest flavor and thickest, tender flesh to make the most delicious of all vitamin rich salads. These mild fruits may be used green or when red ripe in fresh salads, but for canning it is best fully red ripe. This delicious pepper may be eaten raw like an apple, or it can be stuffed and baked like other peppers.

We have developed even a newer and finer strain of Truhart by rigid, hand selection for even thicker flesh, greater uniformity and highest resistance to disease. We recommend this newest strain as the best in existence.
Pkt., 15c. Oz., 90c. $\frac{1}{4}$ Lb., \$2.50. Lb., \$7.50.

CULTURE—Pepper seed germinates only in warm soil. Plant early in protected boxes or beds or later outdoors. Set plants after frost danger, 18 in. apart in rows wide enough to work easily.
1 ounce of Pepper seed will usually make about 1,000 good strong plants. $\frac{1}{2}$ Oz. plants 200 ft. row; use $\frac{1}{2}$ Lb. or more for plants for each acre.

350 Sweet Banana Pepper

ALABAMA SELECTION Very early, prolific, long, pointed, golden yellow pepper with thick sweet flesh. Pods turn red when fully mature, presenting a very beautiful appearance and delightful in salads.
Pkt., 20c. 2 Pkts., 35c. Oz., \$1.00. Postpaid.

351 Hastings' Mixed Peppers (Hot and Sweet)

A packet of mixed peppers gives you a great variety of both sweet and hot kinds in your garden. Pkt., 15c. 5 Pkts., 60c. Postpaid.

Hastings' Vitamin Rich Parsley

Fresh Parsley contains huge amounts of Vitamin A

308 Triple Moss Curled Parsley

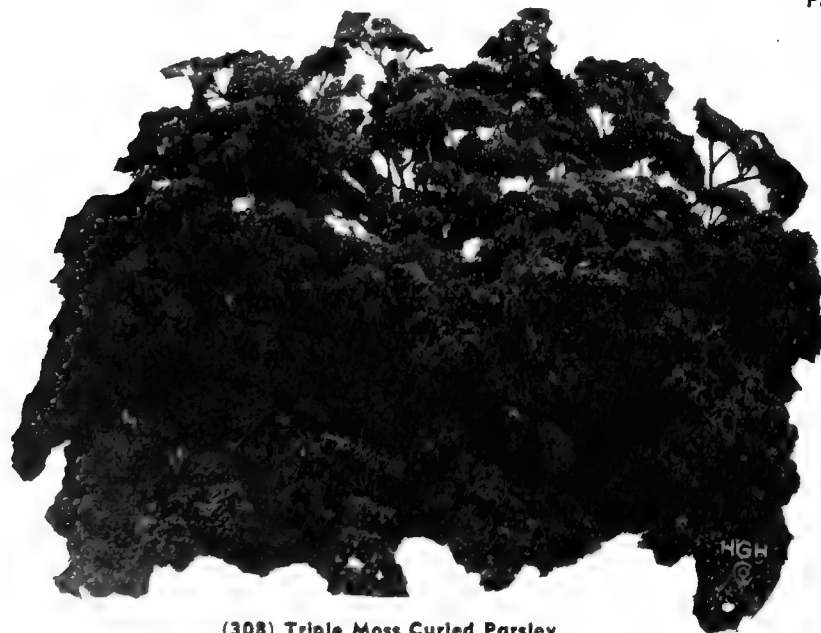

Compact growth, leaves of darkest green and most heavily curled of all strains. Without doubt the best for attractive garnishing.
Pkt., 15c. Oz., 30c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.25. Postpaid.

310 Plain Leaved Parsley

Grown almost entirely for seasoning. A very heavy producer of dark green leaves and quite hardy.
Pkt., 15c. Oz., 30c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.25. Postpaid.

311 Hollow Crown Parsnip

Planted in rich, deep, loamy soil this variety makes a very large, smooth, white and tender root that cooks up for an enjoyable addition to any meal.
Pkt., 15c. Oz., 30c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.25. Postpaid.

(308) Triple Moss Curled Parsley

353 Improved Ruby King Sweet Pepper

ALABAMA SELECTION 63 days from plants; size $5\frac{1}{4} \times 3\frac{1}{2}$. Fruits are broader at base, longer, 3-lobed and smooth. Color is dark green, turning to bright deep red at maturity. Flesh is thick, sweet and mild.
Pkt., 15c. $\frac{1}{2}$ Oz., 50c. Oz., 90c. $\frac{1}{4}$ Lb., \$2.50. Lb., \$7.50.

356 Large Bell or Bull Nose Sweet Pepper

66 days from plants size $3 \times 2\frac{3}{4}$ in. Fruits are blunt shaped, bull nosed, deep green when young and bright crimson when mature.
Packet, 10c. $\frac{1}{2}$ Oz., 40c. Oz., 70c. $\frac{1}{4}$ Lb., \$2.00. Lb., \$6.00. Postpaid.

REAL HOT PEPPER

354 RED CHILI—Red Hot—Red Hot—Red Hot

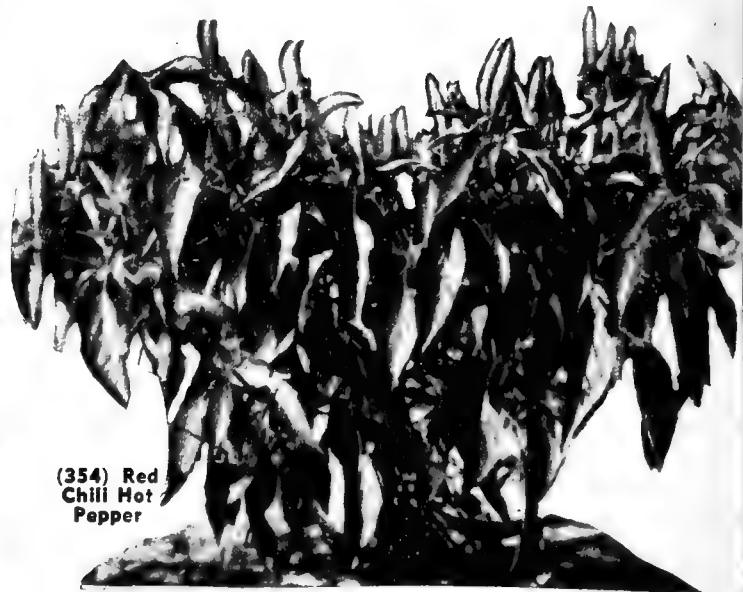

HOT. 80 days from plants; size $2 \times \frac{1}{2}$ in. A well known very hot, pungent variety. Fine dried for winter use. If you want very hot, pungent peppers for flavoring, Red Chili is fine. It is small and very bright red and exceedingly prolific. If you want the hottest peppers and plenty of them, plant Red Chili. This is the best hot pepper we can possibly offer.
Packet, 15c. $\frac{1}{2}$ Oz., 30c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50.

349 Long Cayenne—Hot Pepper

HOT. 63 days from plants; size $4 \times \frac{1}{2}$ in. Larger than Red Chili but nearly as hot and pungent. Cayenne is the long type, red hot and very prolific.
Pkt., 15c. $\frac{1}{2}$ Oz., 30c. Oz., 50c. $\frac{1}{4}$ Lb., \$1.50. Postpaid.

347 Anaheim Chili—Warm Pepper

WARM. 77 days from plants; size $6\frac{1}{2} \times 1$ in. Mildly pungent. Not too hot but pungent enough to add pepper flavor to any salad.
Packet, 15c. $\frac{1}{2}$ Oz., 50c. Oz., 90c. $\frac{1}{4}$ Lb., \$2.50. Postpaid.

(354) Red
Chili Hot
Pepper

Grow the **BEST SWEET PEPPERS** in the World!

Chosen Southern Strains

346 CALIFORNIA WONDER NEWEST STRAIN

73 days from plants; size 4 1/2 x 4 in. The greatest Pepper ever introduced. Nearly as large and earlier than true Chinese Giant, now almost extinct. Very large, square-shaped, 3-4 lobed, very mild, sweet, the thickest flesh and heaviest fruits of all Peppers. It packs well, ships well, holds up well; is exceptionally prolific and a true money maker for the grower. It sits upright, is ideal to stuff and bake or to serve whole, filled with salad. Plants are of stocky, strong, erect growth. Fruits are uniformly regular in size and shape and well filled out. Our picture is of a green, first set fruit in a seed crop on Hastings' Plantation, of course reduced in size. It changes to a brilliant light crimson color at maturity.

Pkt., 15c. 1/2 Oz., 60c. Oz., \$1.00. 1/4 Lb., \$3.00. Lb., \$9.00. Postpaid.

Many of the most critical markets in the country prefer this type of pepper and we do recommend it to you very highly on this account. It is equally good in the home or for market purposes.

355 WORLD BEATER PEPPER—

For Home Garden or Most Critical Market

73 days from plants; size 5 x 3 1/2 in. Outstanding strain of Hastings' Royal King type, now extensively grown. Vigorous grower, sure-cropper and very prolific. Fruits turn a beautiful scarlet, exceedingly mild; flesh thick and firm and an excellent shipper. Slightly more elongated than Royal King and slightly larger. Serve it raw, stuff it with meat and bake it, or fill it with salads. Its attractive appearance assures it the top market. You can't go wrong with World Beater.

Packet, 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.50. Lb., \$7.50. Postpaid.

345 FLORIDA GIANT—MARKET PEPPER

The Market Producer

75 days from plants. Size 4 1/2 x 3 1/2 in. One of the finest new introductions in the present decade and proving to be a real market winner not only in Florida, where it was originally introduced but elsewhere in pepper growing areas. It is a pepper variety with a real purpose—to make profits for the grower. Its uniformity and heavy yielding ability insure the highest prices the markets afford. Try it for yourself and see!

Florida Giant is very blocky with thick, sweet flesh and is large enough to fill hampers or baskets very quickly, spelling profits to the grower.

Nor is Florida Giant confined to market use. It is an ideal home garden variety adding mild spiciness to mixed salads and its gorgeous green color is most attractive.

Pkt., 15c. 1/2 Oz., 60c. Oz., \$1.00. 1/4 Lb., \$3.00. Lb., \$9.00. Postpaid.

THE SEED FOR YOUR 1954 PLANTING

Only by extreme care and constant selection can seeds be maintained and improved as to their quality. Left alone they go down hill altogether too quickly and that is why you cannot afford to gamble with cheap seed. Just a small quantity of seed goes a long way in planting a crop, so why not order the best that money can buy—direct from Hastings with no intermediate handling or doubtful storage conditions. Play safe with Hastings' safety sealed bags and famous Hastings' quality!

359 RUBY GIANT PEPPER

For Home Garden or Profitable Markets

73 days from plants; size 5 x 3 1/2 in. Cross between Ruby King and Chinese Giant, having the good qualities of both. It is attractive, grows to large size, is exceptionally mild, and when ripe is bright scarlet color. Flesh exceedingly thick, sweet, and so mild that it can be eaten raw. The plant is vigorous and erect, prolific and fine, large, sweet pepper for stuffing. It is splendid for home gardens and a quick basket filler for the market gardener.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.50. Lb., \$7.50.

357 HASTINGS' SPECIAL ROYAL KING PEPPER

Ideal for Home Use (Stuff It or Slice It) or Market

73 days from plants; size 4 1/4 x 3 3/4. Our own introduction. While a superb sweet Pepper for home and market use, we want to especially call the attention of the trucker or shipper to its regularity of size and shape, making it a variety for good packing and fine appearance on the markets. This will assure you a top price seller at all times.

It is very prolific, bright and glossy, of large size (the illustration below shows the fine natural shape and type), the flesh is mild and thick and the lobes well filled out. It runs remarkably true to type and uniformity of size and plants are of strong, stocky, erect growth. It is a native Southern Pepper, originated right here and made good from the start. Taste it raw, stuff it with meat and bake it and fill it with salads for the table. We believe you will agree that it is a bell-type Pepper you have been looking for.

Packet, 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.50. Lb., \$7.50. Postpaid.

WARFARIN THE KILLER

To rid your home and buildings of all species of rats and mice is no longer an impossible wish or dream. The U. S. Public Health Service recommends WARFARIN as being entirely satisfactory and effective. Other governmental agencies also recommend it to kill disease carrying rats and mice. Keep it on hand. Directions are very simple. The pellets are easiest to use. REDIMIX WARFARIN PELLETS.

2 Lbs., \$1.95. Postpaid.

TOMATO—EGGPLANT— PEPPER COLLECTION 39c

Collection offer of a full packet each of all three garden necessities—SOUTHLAND TOMATO, SPINELESS EGGPLANT, ROYAL KING PEPPER—55c value postpaid for 39c.

Grow **SWEET SPICY RADISHES** Quickly

Left to right, Cherry Belle—Rosy Gem—Scarlet Button—Early Scarlet Globe—Crimson Giant—French Breakfast—Long Scarlet

Radishes Contain Vitamin B1

CULTURE—Give rich, loose, moist soil for growing quickly. Crisp, tender flesh depends on rapid growth. Successive plantings should be made every 10 days to keep up a supply. Sow thinly in drills one foot apart; cover $\frac{1}{4}$ inch. Sow winter Radishes Aug. to Sept.; others any time to mature before frost. Oz. sows 100 ft. row; 10 to 12 Lbs. per acre; maturity 3 to 6 weeks.

372 EXTRA EARLY SCARLET GLOBE RADISH

The Table and Market Favorite

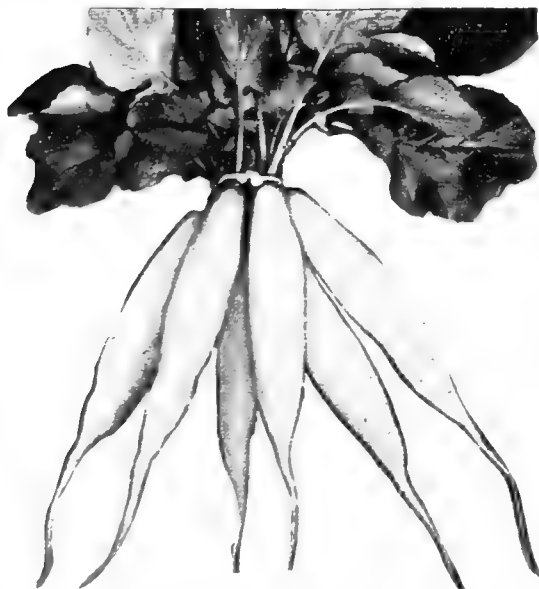

24 days, 1-1 $\frac{1}{4}$ in. Slightly olive shaped, almost globe shaped roots, with white, tender, crisp flesh and rich, bright scarlet-red skin. Especially recommended as a large, first early forcer and is very desirable for first early planting outdoors for home garden and market. The big demand for a large early round Radish is certainly filled with our Early Scarlet Globe. Uniform color, shape, fineness of top, time of maturity and unsurpassed in quality.

Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

382 LONG WHITE ICICLE RADISH

26-27 days. Clear white, 6 in. long, slender and tapering. It quickly grows to market size, is crisp and brittle and of mild, sweet flavor.

Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

(382) Long White Icicle Radish

376 Early Long Scarlet Radish

26 days, 5-6 in. long. Most popular of all long radishes in the South for garden use and market. Tops small, roots 6 in. long and tapering to a decided point; color an intense bright scarlet. Flesh is glistening white, crisp and tender and when grown rapidly is free from pungent taste. Most handsome bunching variety for market and the best elongated variety for all purposes. Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

REMEMBER!

All Hastings' seeds are freshly packeted and dated for your garden's success.

LATE GARDEN WINTER RADISHES

377 China Rose Winter Radish

WINTER RADISH—52 days. Skin a deep rose color, flesh pure white, crisp, of pungent flavor. Good keeper, Roots blunt at ends, 5 in. long.

Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.50. Postpaid.

386 Black Spanish Winter Radish

WINTER RADISH—56 days. Roots round, 3 $\frac{1}{2}$ in. across, crisp white flesh and black skin.

Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.50. Postpaid.

375 Rosy Gem Radish

26 days, 1-1 $\frac{1}{4}$ in. Also called "White Tipped Scarlet Ball." A favorite among market gardeners for forcing as well as for open ground growth. We have seen it ready for market here in Atlanta in 18 days from the time seed was sown. A most desirable variety for home gardens and almost identical with the Scarlet Button, except has white shading at the base of root. Earliest, globe shaped, with rich, deep scarlet top, shading pure white at bottom. Tender and crisp.

Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

381 Scarlet Button Radish

26 days, 1 in. Often called Scarlet Turnip. Round form, deep scarlet skin; mild flavor, crisp and tender; short, narrow leaves, making a very small top. The round or button type is the most popular of garden radishes.

Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

378 Crimson Giant Radish

28 days, 1 $\frac{1}{4}$ x1 $\frac{1}{2}$ in. Little longer, brighter color and twice the size of Scarlet Button. It grows quickly and remains tender and of fine flavor. A money-maker for market gardeners, as its bright crimson color sells on first sight. Equally valuable for home use where a little larger Radish is desired.

Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

389 French Breakfast Radish

26 days, 2 in. long. Tender and mild, favorite early half-long variety for home and market use. Bright red with white bottoms.

Pkt., 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.25. 5 Lbs., \$5.00. Postpaid.

387 MIXED RADISHES

Our mixed Radishes are early, medium and later, the round, half long and long, giving a succession of crisp, tender Radishes through the season.

Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.00. 5 Lbs., \$4.00. Postpaid.

380 CHERRY BELLE RADISH

ALL-AMERICA SELECTION

All-America. Newest radish introduction that swept the A.A.S. judges off their feet. Small, round cherry red, sweet and delicious spicyness with short top for easy pulling and bunching. Extra early and extra choice.

Pkt., 10c. Oz., 25c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.50. 5 Lbs., \$5.50. Postpaid.

Hastings is Famous for Quality—SQUASH

423 New Butternut Squash

100 days. Taking the country by storm this new, high quality introduction brings to our gardens the sweetness and flavor of the late varieties with the time and space saving of the bushier ones. Small bell shaped fruits borne profusely over a long season. May be eaten when young like other bush squash or left to mature and then stored like the baking squash and pumpkins for later use. We recommend this new novelty to you unreservedly. Pkt., 15c. Oz., 30c. 1/4 Lb., 90c. Lb., \$2.50. Postpaid.

425 Early White Bush Squash (White Patty Pan)

53 days to picking; size 3x8 in., 2 1/2 Lbs. The well-known White Scalloped or Patty Pan Squash. One of the earliest, very productive; skin and flesh a light cream-white. Popular for shipment to Northern markets from Florida and a favorite for home gardeners everywhere. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

424 Early Yellow Bush Squash (Yellow Patty Pan)

58 days, 3x8 in., 2 1/2 Lbs. Identical with Early White Bush or Patty Pan except in color, which is bright golden yellow. Many believe this has more of a rich, buttery flavor and more vitamins than the White Bush. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

419 Italian Zucchini Squash

60 days, 6x2 1/2 in. at eating stage. Something new and worth-while. A summer Marrow Squash, eaten in green stage. Long, huge cucumber shape; medium green in color with very irregular light stripes; vines bushy and extremely prolific. Edible in 60 days, when 5 or 6 inches long. Try it sure.

Pkt., 15c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

African Squash—See Alagold Pumpkin, p. 27.

CULTURE—Squash will not stand frost and cold nights, hence plant after danger of frost. Work the soil deeply before planting. For bush or summer varieties, hills should be 3 to 4 feet apart each way; 6 to 10 seeds in each hill, covering seed about 3/4 inch. Thin out to 2 plants after rough leaves are formed. One or two shovelfuls of well-rotted manure to each hill, thoroughly worked into the soil, is advantageous. Keep surface soil loose, but do not disturb the plants while bearing. Keep the squash picked off as soon as ready for use as this keeps the plant bearing longer. Oz. plants 25 hills; use 4 Lbs. per acre. Running Squash for fall and winter use should not be planted until June or July in this latitude. Hills for these should be made 8 to 10 feet apart, an ounce planting 12 hills, 2 pounds per acre. Use 20% Sabadilla for insects.

One pound Sabadilla, 89c. 5 Lbs., \$3.25. Postpaid.

421 IMPROVED EARLY YELLOW SUMMER CROOKNECK SQUASH

50 days. Well-known crookneck variety for home and market gardens. Fruits small, of bright yellow color and of very uniform size and shape. It makes an excellent shipper, is fine grained and of good quality, especially desirable for its rich, buttery flavor. We consider this the best garden and market strain Crookneck Squash. Pkt., 10c. Oz., 20c. 1/4 Lb., 60c. Lb., \$1.75. 5 Lbs., \$7.50. Postpaid. Write for larger quantity prices.

429 Early Prolific Straightneck Squash

The Perfect Market and Delicious Home Garden Squash

ALL-AMERICA SELECTION All-America, 48 Days. Very early tender and delicious yellow squash with straight necks. This superb new market variety bids to even replace the grand old standby—Early Summer Crookneck. It is perfectly straight with a definite tapering to the stem end, making it ideal for packing and shipping and eliminating the trouble from breaking and so much bruising encountered heretofore. Its tenderness, flavor, and bright yellow color insure popularity with the housewife and therefore we recommend it to you whether for home garden or market.

Pkt., 10c. Oz., 20c. 1/4 Lb., 60c. Lb., \$1.75. 5 Lbs., \$7.50. Postpaid.

THESE ARE BAKING TYPE SQUASH

ALL VERY INSECT RESISTANT

430 Golden Table Queen or Yellow Acorn

65 days. All-America Winner. A beautiful golden counterpart of the delicious baking squash described just above. Of the same size, shape and sweetness of flesh, this new variety makes a grand companion to Table Queen. If you have never grown and used this type of squash let us urge that you try it this year. It grows quickly and the medium size fruits make the most delicious baking vegetable you've ever eaten. It keeps a long time after gathering and in perfect condition!

Pkt., 15c. Oz., 30c. 1/4 Lb., 90c. Lb., \$2.75. Postpaid.

422 Table Queen or Green Acorn Baking Squash

65 days. A distinct variety rather new to the South but widely planted elsewhere. Attractive dark green, ribbed squash, tapering in shape. Light orange sweet and dry flesh.

Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.25. Postpaid.

Fresh Squash Contains Vitamins A and B1

(421) Early Yellow Crookneck Squash

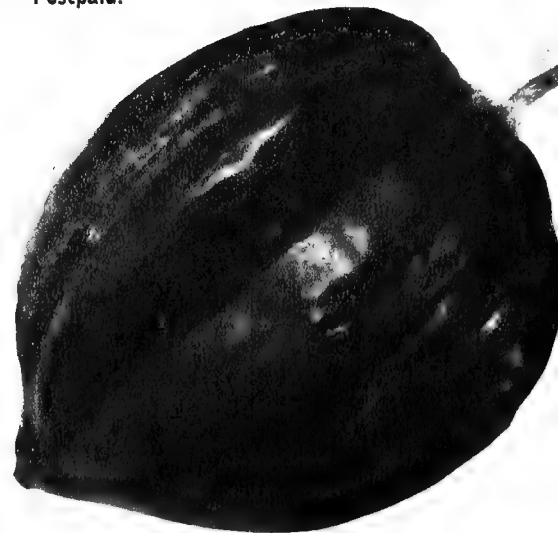

"I have never grown a more satisfactory squash for all purposes than Butternut. If you have never grown this type be sure to this year."

—Donald Hastings

427 Improved Hubbard (Late)

105 days, 12x9 in., 10-12 Lbs., (Running Squash). Fruits are large, heavy, and moderately warted with very hard shells. Skin is dark, bronze green; flesh is bright orange yellow, fine grained, thick and finely flavored. Long keeper.

Packet, 15c. Oz., 30c. 1/4 Lb., 90c. Lb., \$2.75. Postpaid.

(422) Acorn or Table Queen Squash

(429) Early Prolific Straightneck Squash

Your Order for A Dollar Keeps Your Name on Hastings' Mailing List.

BOILING GREENS *for* SPRING, SUMMER and FALL

(416) New Zealand Spinach, Pkt., 10c

Spinach, Fresh From the Garden, Is Rich in Vitamins A and B1

No plant makes more nutritious greens than Spinach. Thousands eat yeast cakes and tablets to get that body building item—fat soluble vitamins. Of course your body needs vitamins but a couple good size bites of Spinach contains more real health than any artificial tablets you ever ate. The reason people need more vitamins is because people don't eat enough green vegetables.

CULTURE—Spinach requires rich soil, the richer the better, and can be sown during January, February and March (New Zealand Spinach should be planted only after soil is warm) while the ground is not frozen. It germinates freely in cold weather and is a rapid grower. Leaves are usually large enough for eating in 8 weeks. Oz. plants 100 ft. of row. Sow 10-15 Lbs. per acre in 18 in. drills.

416 NEW ZEALAND—YOUR SUMMER SPINACH CUT IT AND IT COMES AGAIN AND AGAIN

70 days. An all summer variety growing luxuriantly in hottest weather. Cut and it comes again, a few plants furnishing the finest flavored greens all summer for an average size family. Plant in March or April, after ground gets warm, where plants are to stand.

It does well on poor or rich soil; the plant grows large and spreading and the tender shoots are of fine quality with small, broad pointed leaves. The young tender tips (see photograph) are cut from time to time all summer long and it remains tender even in the hottest, driest weather. It is 100% cut and come again. In fact the more it is cut the faster does it seem to grow. Seeds start growth quicker if soaked in warm water for 24 hours. New Zealand Spinach should be in every Southern Garden as an all summer vegetable.

Large Packets, 10c each. Oz., 20c. ¼ Lb., 50c. Lb., \$1.50. Postpaid.

414 AMERICA SPINACH

1952 All America Silver Medal Winner
IDEAL FOR THE DEEP FREEZER

ALL-AMERICA SELECTION This newest and finest true Spinach wins universal acclaim of the All America vegetable trial judges, and with the new crop harvest the price is now very reasonable. The heavy leaves grow rapidly and are deep green and savoyed to make superb appearance. America Spinach is ideal for Southern planting because it has excellent heat and drought resistance. Maturing in 42 days America Spinach is a splendid variety for large or small market use and superb for the home garden. When fully mature any excess may be prepared and deep frozen or it may be readily canned.

Oz., 15c. ¼ Lb., 35c. Lb., \$1.00. Postpaid.

(413) Giant Nobel Spinach

413 IMPROVED NOBEL Spinach for Boiling Greens

ALL-AMERICA SELECTION Award of Merit, All-America Selections. Giant Thick Leaved.

45 days. This new giant thick leaved strain is the heaviest producer of thick, rich green leaves and is quite slow in running to seed. Leaves are huge, rounded, lightly crumpled, very succulent, crisp, tender, and of delicious flavor. It grows rapidly into the largest Spinach in cultivation and is already superseding other varieties and strains of mammoth thick-leaved Spinach for home gardens, market and shipping.

Oz., 15c. ¼ Lb., 30c. Lb., 90c. Postpaid.

412 BLOOMSDALE SAVOY SPINACH FOR BOILING

Norfolk Savoy Leaved. 42 days. A valuable variety which is extensively grown, producing large crops of savoyed leaved Spinach. Bloomsdale Savoy is not a new variety but our improved strain, is keeping pace with demands in many markets for uniform, heavily savoyed leaves. It is equally desirable in your own garden. Early and hardy; one of the best for market and canning. Plants of upright growth, leaves of medium size, crumpled or blistered; color glossy dark green.

Oz., 15c. ¼ Lb., 30c. Lb., 90c. Postpaid.

411 Hastings' Aragon Spinach for Early Spring

Giant, Smooth, Thick-Leaved Spinach. 45 days. Fine market size, with large, broad, thick, dark-green leaves, lightly crumpled or savoyed and stands a long time before running to seed. The hardest of all varieties, standing an ordinary cold winter without damage in this latitude. At the same time it is one of the best heat-resisting sorts for late spring use. This variety has been thoroughly tested and pleases all market gardeners who use it.

Oz., 15c. ¼ Lb., 30c. Lb., 90c. Postpaid.

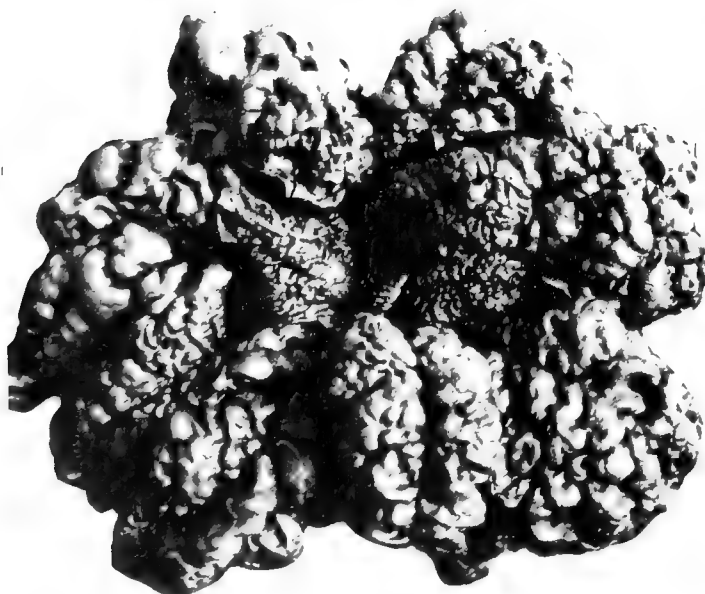

400 INEXPENSIVE RAPEGREENS FOR BOILING

The Gardener's Greatest Bargain In Greens

Here is one of the finest vitamin rich, nutritious green vegetable crops for growing at practically all times of year in all sections of the South. Best quality is had from spring, fall, and winter plantings. It is dirt cheap, superb for its quick growth and besides making excellent table greens it is admirably suited for green grazing for poultry and hogs. For such purposes it is unsurpassed.

Rapegreens grow like rutabagas, tops of which it closely resembles. It makes, however, no bulbous roots. Only the young, tender tops are edible for the table, while all tops are good for stock. ¼ Lb. plants 200 ft. row.

¼ Lb., 20c. Lb., 50c. 5 Lbs., \$2.00. 10 Lbs., \$3.25. Postpaid.

(414) New American Spinach

SPRING TURNIPS

475 PURPLE TOP GLOBE TURNIPS (SELECT)

Extra Fancy Strain Garden-Market Turnips

Our most popular variety. Medium early, globe shaped, handsome appearance and heavy cropper in all the South. Flesh exceptionally fine grained, tender, and sweet, keeping well in home gardens and stands shipping very satisfactorily. Greens highly flavored, sweet and tender, bringing best market prices. For home use or market. Always good quality, good keeper and seller.

Pkt., 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

476 Extra Early White Egg Turnips

A good dependable Turnip. Skin and flesh pure, snow-white; solid, fine-grained, sweet.

Packet, 10c. Oz., 15c. 1/4 Lb., 35c. Lb., 90c. Postpaid.

465 Extra Early Milan Turnips

Earliest of all Turnips. Flat, purple topped. Perfect in shape and color; sweet and fine grained.

Packet, 10c. Oz., 20c. 1/4 Lb., 50c. Postpaid.

469 Yellow or Amber Globe Turnips

Yellow Stone. Best yellow fleshed Turnip. Globe shaped, fine grained, sweet and a good keeper. Heavy cropper.

Packet, 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. Postpaid.

468 Improved American Rutabaga

Best and heaviest cropper of all Rutabagas for the South. Fine form, rich purple colored top and light yellow flesh. Flesh is tender, sweet and exceptionally free from hard, stringy nature. Small tops, fine feeding roots, and is the surest and heaviest cropper. We have never had a variety of vegetable that has given such general satisfaction in all kinds of seasons.

Pkt., 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

466 Early Red or Purple Top Turnip

Purple Top Strap Leaf. Early flat Turnip, almost identical with Early White Flat Dutch except for the purple color of the skin at top of bulb. Quick grower, with fine-grained, sweet-flavored flesh.

Pkt., 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

467 Early White Flat Dutch Turnip

Medium sized, quick grower. It is flat with very small tap root, flesh and skin pure white, fine grained and sweet. Especially fine flavored when grown quickly in fall or spring.

Packet, 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

470 Long White Cowhorn Turnip

Long white. Roots long and carrot-shaped, one-third showing above ground. It roots deeply, resisting drought and cold. Flesh pure white, fine-grained, sweet and of excellent table quality.

Pkt., 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

479 Special Mixed Turnips

A mixture of all varieties of Turnips and Rutabagas listed by us, giving a variety of turnips from one sowing, root varieties as well as "turnip greens."

Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

CULTURE — Turnips are easily grown in early spring as well as late summer and fall in the upper South and in the lower South may be planted all winter. The New Shogoin and Purple Top Globe are well adapted to spring planting. 1 ounce of seed sows 200 feet of row; 2 to 3 pounds per acre. Ready for use in 8 to 10 weeks. Fresh Turnips contain Vitamins A and B₁.

(478) Shogoin Turnip

478 Japanese Shogoin

Best combination variety for both root and tops for greens. Furthermore, it is Lice Resistant and holds its heavy crop of leaves up off the ground. Bulbs or roots are all white, sweeter and milder than most Turnips, of excellent flavor, tender, fine grained and extremely popular. Leaves are large, thick, juicy, very succulent, tender and of finest mild turnip flavor. It gets a start and withstands hot, dry weather as well as cold and wet. Grows upright. Easily picked.

Packet, 10c. Oz., 20c. 1/4 Lb., 40c. Lb., \$1.00. 5 Lbs., \$3.75. Postpaid.

477 Seven Top (for Salad Only)

The "salad" variety so largely planted in fall for greens during winter. It furnishes wonderful greens very quickly in spring. And being so hardy and resistant to cold weather it is an excellent variety for earliest sowing even when soil is quite cool. Seven Top does not make bottoms or turnips but the greens have the best flavor of any variety.

Oz., 15c. 1/4 Lb., 35c. Lb., 90c. 5 Lbs., \$3.00.

(475) Purple Top Globe Turnip

HASTINGS IS HEADQUARTERS FOR ALL GARDENING NEEDS

ORDER BY MAIL—SAVE PARKING WORRIES

Send your order by mail and receive it by mail and you can and will save very materially in car expense, parking problems, time and energy—as well as to be sure of getting the best there is for our Southern soils and climate at reasonable prices.

WE APPRECIATE YOUR NEEDS

We have studied Southern problems of soil and climate for over 64 years and recommend our listed varieties as being the best and our selected strains as best for you to buy. Please do not overlook the pages in the back of this book devoted to garden supplies. We offer a rather complete listing for nearly every need so consult that part before sending your order. Garden gloves, pruning shears, dust and spray materials, etc., are all well to have on hand to start the season right.

YOUR FARM-GARDEN LIBRARY (PAGE 96)

Many subjects are available including books on Bees and books on pets. All books shipped postpaid directly to you.

(477) Hardy Seven Top Turnips

451 HASTINGS' MILDGLOBE PINK TOMATO

For All Who Like the Most Nearly Non-Acid Tomato Salads
EXTRA MILD, EXTRA DELICIOUS, EXTRA PROLIFIC, AND WILT-RESISTANT

SPRAY FERTILIZER DIRECT TO FOLIAGE

This new instant plant food Folium needs only to be mixed with water and sprayed directly on the leaves of tomatoes, peppers, eggplants, beans as well as other vegetables, flowering plants and shrubs for quick action. When growth is weak, try this new way to fertilize. It is wonderful. One pound to make several gallons. \$1.25 Postpaid.

(451) Hastings' Pink Mildglobe Tomato

Why Not Grow the Largest, Mildest Tomatoes in the World?

EXTRA MILD FLAVOR

451 Hastings' Mildglobe Pink Tomato

75 days. Midseason in maturity Hastings' Mildglobe just keeps blooming and fruiting week after week, and properly handled in feeding and pruning, can be made to produce a bumper fall crop as well. Mildglobe responds beautifully to staking and pruning, having very heavy, deep green foliage to protect the fruit from possible sun scald.

Many folks have had to give up the pleasure of eating the superb red or scarlet tomatoes that we offer, because of the acidity which frequently causes skin irritations. Mild-

globe is the answer to many because of its near freedom from such acid and still retains the excellent vitamin content to help materially in a nutritious balanced diet for you and your family.

Superb for serving fresh upon your table or for canning, we unhesitatingly recommend to you our new wilt-resistant Mildglobe tomato as being our finest garden introduction in many years.

Packets, 15c. 1/2 Oz., 60c. Oz., \$1.00. 1/4 Lb., \$3.50. Lb., \$10.00. Postpaid.

463 HASTINGS' BRIMMER—IMMENSE

88 days from plants; pink fruit. It must be staked. The Brimmer has no core, very few seeds, is solid, and nearly all meat. Even though so large, fruits are well shaped, purplish-pink, and make the finest slicing Tomatoes, remarkably free from acidity, which keeps some people from eating Tomatoes.

Pkt., 15c. 1/2 Oz., 60c. Oz., \$1.00. 1/4 Lb., \$3.50. Lb., \$10.00. Postpaid.

458 Henderson's WINSALL—GIGANTIC PINK

86 days from plants, pink fruits. One of the smoothest, largest, mildest and most delicious home garden tomatoes ever offered! Extra giant in size and a beautiful purplish-pink color. Vines must be staked and heavily manured for best results. Worth the extra effort!

Pkt., 25c. 3 for 50c. 1/2 Oz., \$2.00. Oz., \$3.50. Postpaid.

GROW YOUR OWN TOBACCO

CULTURE—Use clean land for Tobacco plant beds. It is customary to burn off a piece of land in the woods. This kills weeds, grass and insects, adds potash fertility from wood ashes and leaves soil in good shape. Sow seeds about February and protect with a plant-bed cloth from Tobacco flies. Transplant after weather is settled, latter May or early June, to well fertilized or manured soil, 3 feet apart in 3 1/2 foot rows. Give constant attention to cultivating, suckering and worming. Tobacco may be sun or flue-cured. A packet of seed will supply almost anyone.

435 Improved Gold Leaf For Smoking

The most popular "flue-cured" bright Tobacco in the world. This is for Georgia, Florida, Virginia and the Carolinas, the bright Tobacco belt. Leaves long, broad with pointed tips; spaced on stalks to admit sunlight for uniform ripening and lower leaves are held off the ground. Tip leaves also fill out and cure bright. Gold Leaf is easiest of all to cure into high grade, is more disease-resistant and grows well on more different soil types than other varieties. There is no better selected seed grown than our Improved Gold Leaf. Pkt., 15c. 2 for 25c.

436 Sweet Orinoco Best For Chewing

Fine to grow in the South for chewing purposes. Makes, when sun cured, the best natural chewing Tobacco. Leaf medium size with good body and exceptionally fine grain and appearance. It's easy to have a year-round supply grown at home. Hang any surplus in closets to keep moths out of clothes. Pkt., 15c. 2 for 25c.

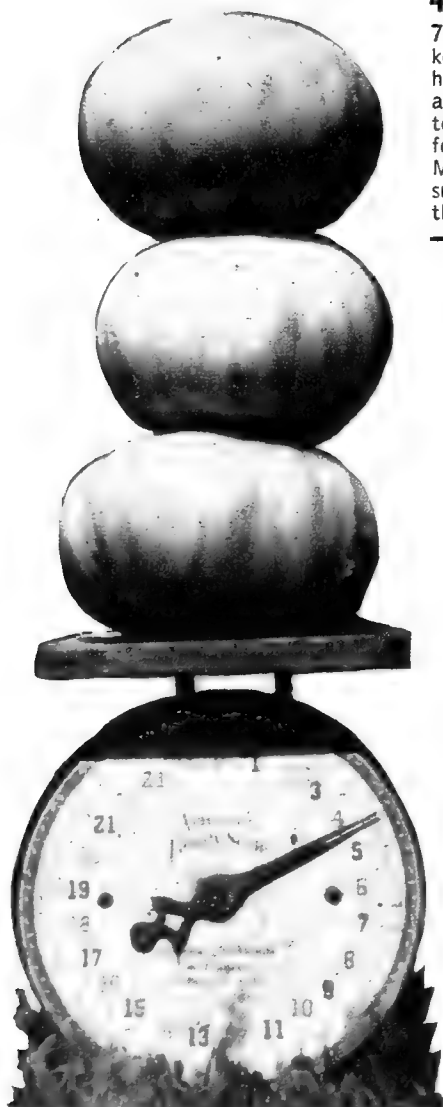

431 Judy's Pride Burley

White Burley. A favorite pipe and cigarette tobacco when sun cured. A strong, upright growing variety well suited to heavy, rich soils. Pkt., 15c. 2 for 25c.

434 Orinoco For Smoking

WHITE STEM ORINOCO. Very choice. One of the best bright flue-cured Tobaccos; well adapted to the bright belt and a wide range of soils. Leaves long, medium broad, of fine texture, good curing qualities and a safe variety to plant.

Packet, 15c. 2 for 25c.

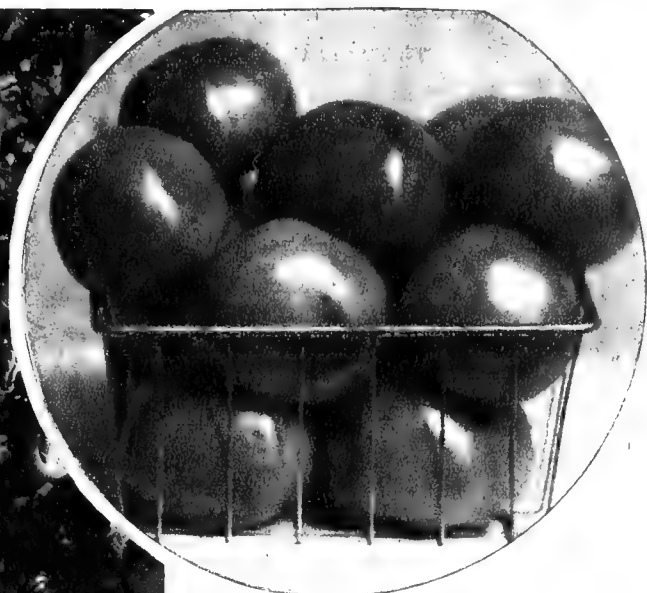

Grow These Huge Giants

(452) NEW SOUTHLAND TOMATO!

(452) Southland Tomatoes Are Heavy Producers

452 NEW SOUTHLAND

**Late Blight Resistant—Best Flavor—
Very Prolific Throughout The South**

The new Southland Tomato is a product of the famous U. S. Regional Breeding Laboratories for vegetables near Charleston, developed from years of careful selection and breeding to combine highest garden and market quality with excellent resistance to many diseases now appearing in important tomato growing sections.

Southland is full globe-shaped with rich scarlet red color inside and out. It is superbly suited to our Southern soils and climate and if there's doubt, you can depend on Southland. It matures as a main crop variety and is a heavy yielder for good profits.

We have tested Southland for several years in our famous Southern trial grounds and it consistently has given superb performance. It is noted for its vitamin-rich quality and flavor.

Pkt., 25c. 1/2 Oz., 75c. Oz., \$1.25. 1/4 Lb., \$3.50. Lb., \$12.00. Postpaid.

TOMATO CULTURE

Fresh, ripe Tomatoes are Rich in Vitamins A, B, and C.

TOMATO CULTURE. Allow 4 to 5 weeks for seed to make plants for setting out. Extra earlies such as Hastings' Extra Early Prolific mature from spring plantings in 85 to 90 days, late sorts (marglobe) in 110 to 115 days. In the Atlanta latitude start seed in hot-beds or boxes in the house between February 15 and March 1. Give plenty of light and space between the plants or they will be weak and spindling. Scatter seed in bed or box thinly and cover with about 1/2 in. of soil, after treating seed with Arasan. Transplant to open ground as soon as danger of frost is past. Before transplanting, break the soil deeply and work in stable manure or fertilizer thoroughly. Set plants 3 ft. apart each way; give clean cultivation. As plants grow it is best to tie them to stakes and thin out the leaves so the sun can penetrate and ripen the fruit quicker. A second seed planting made in May will make plants that begin to bear in August and continue until frost. Oz. makes about 1,000-2,000 good plants. Use 1/4 Lb. seed for 6,000 plants per acre.

Plant only wilt resistant varieties where tomato wilt exists in the soil. Spray blossoms with Fruitone (25c pkt.) to insure set of fruit.

443 Ponderosa (Giant) Pink

88 days; pink. A giant Tomato. Purplish-pink in color, solid, meaty and very sweet. Being large and ribbed is for home use.

Pkt., 15c. 1/2 Oz., 60c. Oz., \$1.00. 1/4 Lb., \$3.00.

SABADILLA—The Safe Bug Killer

We have made extensive tests with 20% SABADILLA DUST at Hastings' Farm trial grounds and we truthfully say that we have never had such marvelous control of pests and with such little effort expended. Our crops of cabbage, broccoli, collards, mustard, etc., are the finest we have ever had and such success is in large measure due to dependable Hastings' seeds and protected with 20% SABADILLA DUST. If your garden is small the one-pound package should be ample. For larger gardens order five pounds. Keep a supply ready on hand. Order early!

Genuine 20% Sabadilla Dust. 1 Lb., 89c. 5 Lbs., \$3.25. Postpaid. F.O.B. Atlanta, Delivery Charges Collect, 50 Lbs., \$24.00.

440 CLIMBING TREE GIANT PINK TOMATO

90 days. For years we've searched for this magnificent, smooth, huge, pink meated, mild, delicious tomato that grows on an exceedingly tall, vigorous "vine" or "tree". It must be staked of course. You may need a stepladder to pick them! Here it is for every Southern garden.

Pkt., 25c. 5 for \$1.00. Oz., \$2.50. Postpaid.

460 Early June Pink Tomato

68 days from plants. Pink fruit. Called a pink Earliana because of its earliness and prolificacy. Very tender and mild.

Pkt., 15c. Oz., 90c. 1/4 Lb., \$2.75. Postpaid.

455 HASTINGS' RED ROCK

86 days, scarlet fruit. It is extra solid—hence the name of Red Rock. Perfectly smooth, has no superior in texture or flavor and red as a tomato can be. Packet, 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$3.00. Lb., \$9.00. Postpaid.

438 GIANT OXHEART (Pink)

88 days from plants, pink fruit. Fruits are heavy and very solid; setting in clusters of 3 to 7. Vine growth is open and spreading; yield is quite heavy. There are comparatively few seeds in this beautifully shaped variety. Its very large size and oxheart shape are a novelty.

Packets only 25c. 3 for 60c. 1/2 Oz., \$1.25. Oz., \$2.00. Postpaid.

464 GULF STATE MARKET (Pink)

78 days, pink fruit. Vines are very strong and withstand bad weather; it is resistant to blight. Fruits are almost true globe shaped and free from cracks and blemishes at the blossom end. Fruits in the same cluster ripen uniformly, economical to pick, and color is rich purplish pink right up to the stem after picking.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

(445) IMPROVED PAN AMERICA

Yes, It's Vivid Scarlet and Field Immune to Tomato Wilt!
NOW OVER 600,000 PACKETS SOLD FOR SOUTHERN GARDENS

(445) Improved Pan America—Main Crop

A GARDEN FULL OF WILT-RESISTANT RED TOMATOES ALL SUMMER FOR 25c

PREWAR PRICE PREWAR QUALITY
 25c for 1 regular packet each. Postpaid.

Pan America, Hastings' Everbearing Scarlet Globe and Rutgers, finest Wilt-Resistant garden and market tomatoes of all! Plant these finest wilt-resistant tomatoes and be sure of a good crop to last all summer. Insure your family a supply of Nutrition Vitamin C, as well as Vitamins A and B₁, with this collection. Order Hastings' Tomato Collection, 25c.

456 STOKES CROSS No. 4 NEW RED HYBRID

An F₂ hybrid of one of the finest combinations of blood lines in the tomato world. It is unusually productive of medium globe shaped tomatoes, quite free of cracking and well protected from sunburn. A main crop sort to be very profitable in the home garden or for market.
 Packet, 25c. 3 for 50c. 1/2 Oz., \$2.00. Oz., \$3.50. Postpaid.

444 HASTINGS' EXTRA EARLY PROLIFIC RED TOMATO (Earliana Type)

65 days from plants, scarlet fruit. Earliest, most prolific of all extra early tomatoes for the home garden, about the first ripe tomatoes in the neighborhood. Vigorous grower.
 Packet, 15c. 1/2 Oz., 40c. Oz., 75c. 1/4 Lb., \$2.25. Lb., \$8.00.

(433) Sunray (Golden) Tomato

445. (FIELD IMMUNE TO WILT.) 80 days from plants to mature fruits. This new and exciting variety was bred, developed and introduced originally by the United States Department of Agriculture and we believe that our improved strain is definitely "tops" among all tomato varieties! The original cross was Marglobe and a wild Peruvian small currant-like tomato that was known to be immune to the dreaded fusarium wilt that has made many of us practically abandon tomato growing in our gardens or on our trucking farms.

The fruits themselves are large, deep globe shaped, smooth, quite uniform and with thick, meaty substance, giving exceptionally good weight yields per plant. The color is brilliant scarlet red and will attract attention on your own table as well as on the markets. Tests have been conducted in most of the fusarium wilt infested areas of the South and to date Pan America has proven immune and thus is considered 100% field immune to this destructive disease. Should there be doubt in your garden we unhesitatingly recommend this New Improved Pan America Tomato for you to grow this year!

(445) Pan America. Pkt., 15c. 2 Packets for 25c. 1/2 Oz., 40c. Oz., 75c. 1/4 Lb., \$2.25. Lb., \$8.00. Postpaid.

442 SUPEREARLY WONDER TOMATO

After exhaustive tests in our trials we are convinced that this super extra early variety fills a place for heavy production of rich scarlet medium semi-globe fruits on small plants to ripen ahead of almost any variety on the market. Plant a few to have some extra early fruit and of course depend upon the main crop varieties for later on.

Pkt., 25c. 3 for 50c. 1/2 Oz., 75c. Oz., \$1.25. Postpaid.

439 Kopiah Tomato (Wilt-resistant)

Recent Mississippi development with full globe shape fruits with even ripening.
 Pkt., 20c. 1/2 Oz., 60c. Oz., \$1.00. Postpaid.

449 Improved Stone Tomato

86 days, scarlet fruit. A large, smooth, solid, meaty Tomato for all purposes.
 Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$3.00. Lb., \$9.00. Postpaid.

448 Greater Baltimore

SPECIAL SELECTED STOCK. 83 days. Scarlet fruit. Mid-season. Red in color, very heavy, due to extreme firmness and very thick meat.
 Pkt., 10c. 1/2 Oz., 40c. Oz., 75c. 1/4 Lb., \$2.50. Lb., \$7.50.

SALAD NOVELTIES

454 Red Pear Shape Tomato

73 days. Scarlet. Small, distinctly pear shaped tomatoes borne in heavy clusters and bearing over a very long season after beginning to ripen fruit quite early. The attractive fruits may be eaten whole in salads, etc., or they may be preserved or pickled without crushing or cutting. Very disease-resistant.
 Pkt., 15c. 2 for 25c. Oz., \$2.50.

450 Yellow Pear Tomato

73 days. Bright yellow. Exactly like Red Pear, described above, in all qualities except that the color is bright yellow and the flesh is unusually mild.
 Pkt., 15c. 2 for 25c. Oz., \$2.50.

461 Yellow Plum Tomato

73 days. Bright yellow. Slightly larger than the distinctly pear shaped varieties, Yellow Plum has pleasant mildness or freedom from acid. It is a favorite for canning whole and equally good for the table in tomato or lettuce and tomato salad. Supply limited.
 Pkt., 15c. 2 for 25c. Oz., \$2.50.

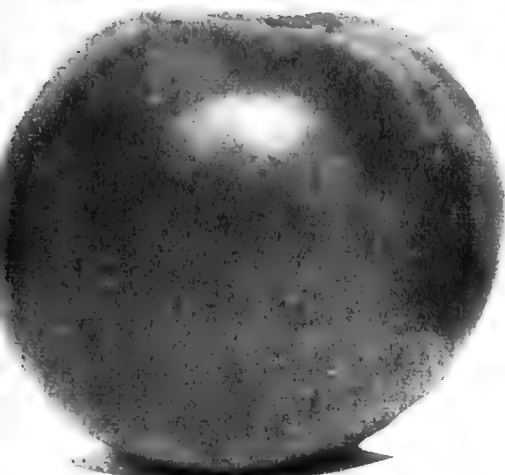

453 Golden Queen Tomato (Golden Yellow) MILDST OF ALL TOMATOES

83 days, yellow fruit. Very handsome and the best large smooth yellow tomato. Meaty, solid and sweet, with bright golden-yellow color all the way through. Most attractive for slicing along with red tomatoes, filling salads and many other uses.
 Pkt., 15c. 1/2 Oz., 60c. Oz., \$1.00. 1/4 Lb., \$3.00.

433 SUNRAY (Golden Tomato) WILT-RESISTANT

Newest and best of the delightfully colored, very mild, and very delicious golden yellow tomatoes every one is growing for those tempting and healthful salads. Full globe shape, thick, meaty with few seeds and very productive from midsummer until late. Make beautiful canning tomatoes, or very mild juice.
 Pkt., 25c. 3 for 50c. Oz., \$2.50. 1/4 Lb., \$7.50. Postpaid.

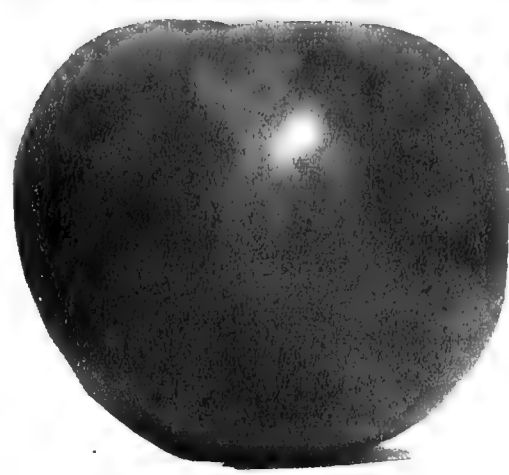

RED RED RED RED RED TOMATOES

462 Super Marglobe

(437) Everbearing Scarlet Globe

(459) Early Scarlet Dawn

462 SUPER-MARGLOBE (Red Tomato)

Selected and Wilt-Resistant

80 days from plants, scarlet fruit. Our newest super-strain of the great main crop, scarlet-fruited variety originated by the U. S. Dept. of Agriculture for wilt-resistance. It is also resistant to nail-head rust. Fruits are medium size, smooth, solid and deep from stem to blossom ends. They are in clusters of 5 to 7, on vines with medium to heavy growth. Cell structure is irregular. The popular globe shape, scarlet color, a good cropper, marketer and shipper. Marglobe simply leaped into popularity for the main crop Tomato in wilt territories as the best all-around variety. We believe our strain to be the best and most uniform in existence, and recommend it to you unhesitatingly for home garden, for canning or for market. This seed is grown under very rigid inspection and harvesting conditions and meets the requirements of the most critical trade in America. We believe there is no better seed grown!

Selected Seed Only. Packet, 15c. 1/2 Oz., 40c. Oz., 75c. 1/4 Lb., \$2.00. Lb., \$6.50. Postpaid.

447 THE PRITCHARD (Red Tomato)

Wilt-Resistant

ALL-AMERICA SELECTION 72 days. All-America Winner. Several days later than early ones: disease-resisting, heavily productive, self topping. Large, smooth, globular, solid thick walled and heavy scarlet fruit. Wonderful market garden and shipping Tomato as well as for home use.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

459 SCARLET DAWN (Red Tomato)

Early and Wilt-Resistant

ALL-AMERICA SELECTION Gold Medal, All-America. 58 days from plants, scarlet fruit. Cornell and Conn. Experiment Stations also gave it an Honorable Mention its first year. We recommend it above all other early market varieties and for home gardens as well. It looked mighty good to us even in comparison with our finest strain of Marglobe for main crop.

Scarlet Dawn is of deep Marglobe-red color, globe-shaped, earliest maturing, a heavy and continued bearer of beautiful fruits. Vines are strong, foliage open but ample to prevent sun-scaid, with large clusters of medium-large, heavy, meaty fruits. Tomatoes have thick walls, small core and excellent flavor for slicing. Best and safest early variety for home, trucker and shipper desiring an early variety to cash in on higher price markets before the main crop varieties are ready. Scarlet Dawn can also be planted in late summer for a fall crop because of its early maturity. It fills a very particular need.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00.

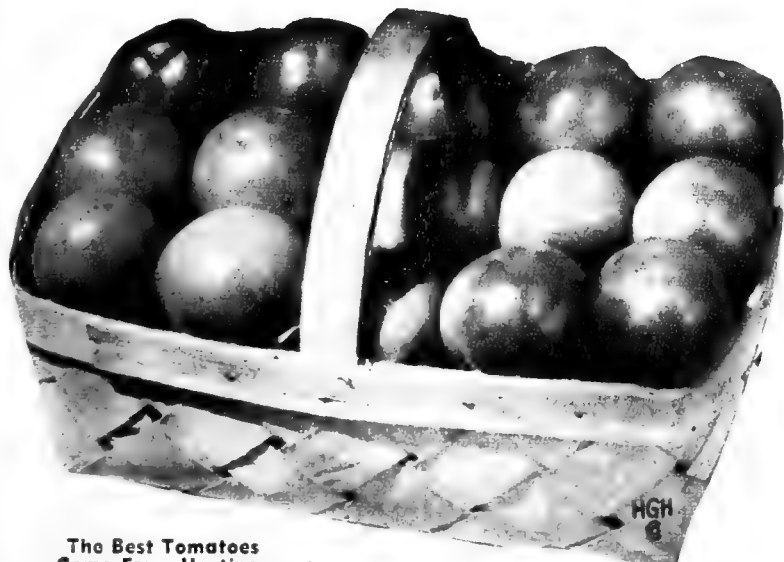

437 New Everbearing Scarlet Globe Tomato (Red)

Selected and Wilt-Resistant

72 days. Best of all. Wonderful new, smooth, solid, heavy and long bearing, handsome, delicious, scarlet Tomato. It will make you love Tomatoes more than ever—so heavy, meaty, luscious and just the right medium-large size. A week earlier than Marglobe and the most uniform and everbearing of any we have ever seen. Excellent for home gardens, markets and shipping.

Pkt., 15c. 1/2 Oz., 50c. Oz., 90c. 1/4 Lb., \$2.75. Lb., \$9.00. Postpaid.

RUTGERS IS THE TOMATO MARKET KING

The Best Tomatoes
Come From Hastings

Tremendous Productivity
FOR GARDENS—FOR MARKET

446 IMPROVED RUTGERS (Red)

Wilt-Resistant—Heat-Resistant

72 days. Scarlet fruit. A very outstanding Marglobe cross. Our trials indicate its great value for Southern planting. Plant large with thick sturdy stems and vigorous foliage. The fruits are brightest red, smooth with thick walls and small seed cells, ripening from center outward and with a relatively low acidity. Superbly suited for eating fresh, for canning, or for quality juice. Rutgers has demonstrated its value particularly with its heavy foliage growth to help protect the fruit from sunburning during hot weather and on lighter soils. It is a real heavy tonnage variety that "pays off" in the home garden or in the market garden.

Pkt., 15c. 1/2 Oz., 40c. Oz., 75c. 1/4 Lb., \$2.00. Lb., \$6.50. 5 Lbs., \$30.00. 10 Lbs., \$57.50. Postpaid.

GENUINE HASTINGS' PROLIFIC

MAKES THE BEST FLAVORED WHITE CORN MEAL

PURE ORIGINATOR'S STOCK WHITE SEED CORN—GRADED FLAT GRAINS

WE CHALLENGE YOU TO TRY CORN MEAL MADE FROM HASTINGS' PROLIFIC CORN!

With the extra sweetness and delicious flavor that you get from slow ground, fine meal made from genuine Hastings' Prolific Corn, we believe that you will never again be without it. If you have had to put up with gritty meal from hard corns or "gummy" meal from soft varieties and hybrids it's time you were trying at least a small patch for your own table meal. A peck will be sufficient and we know you will like it so well that you'll plant it every year for the most delicious corn bread, muffins, "hush puppies," hoe cake, or "pone" you and your family have ever had!

Take a dare in 1954 and you can have some good tender roasting ears too! Order early, we sold out last year.

Hastings' Prolific Corn, Seed Field

THIS IS STRICTLY OPEN POLLENATED SEED STOCK

Plant a Pure Seed and Meal Patch Every Year!

Many of our farm friends purchase a peck or a bushel (to plant 2 to 10 acres) every year and then save this seed to plant their full acreage the following year. Thus, they have a small seed field growing each year with seed from us and their big crop is planted always with seed "one year from breeder," raised at home to save money!

OVER 200 BUSHELS PER ACRE—HIGH PROTEIN

Make championship yield records, with Hastings' Prolific. Mississippi yields of 202 1-3 and 214 bushels, and Georgia yield of 214 bushels per acre, are matters of record. You, too, can increase your production with Hastings' Prolific.

The outstanding merit of Hastings' Prolific Corn is its high protein content insuring maximum feeding value for all livestock and superb meal quality. Hastings' Prolific is a late season corn, maturing hard corn in 140 to 150 days. Stalk is large, 8 to 12 feet tall, blades wide and vigorous, giving plenty of forage. Ears small to medium size, anywhere from 2 to 7 ears per stalk, according to land quality, fertilizing and distance in the row. The photograph was taken of a stalk from a typical crop and shows many well-developed ears. Ears fill out well, cobs very small with deep pointed grains. Seventy pounds of ear corn will shell out 61 to 63 pounds of grain as against the usual 56 pounds of most varieties. Corn is grown for grain, not cobs. Hastings' Prolific makes grain and not big cobs. Shuck is heavy, covering the ear tightly, keeping out birds and weevils and preventing storm damage and rotting of ears.

Grow It On Your Farm for Food and Feed

Due to its amazing natural vigor imparted by its heterozygous character, Hastings' Prolific has consistently outyielded other Southern corns, not for this one season or in that limited section, but over a period of 30-35 years from the Carolinas to Texas.

Prices of (140) Hastings' Prolific White Seed Corn

1/4 Lb., 20c. 1 Lb., 45c. 2 Lbs., 75c. 5 Lbs., \$1.60. Postpaid.

Not prepaid, 14 Lbs. (Peck), \$2.25. 56 Lbs. (Bushel), \$7.85. F.O.B. Atlanta.

F.O.B. SHIPMENTS BY MAIL

Be sure to include postage on all orders for pecks or bushels if you wish it to be sent by mail. If you live in 2 zone from Atlanta, include 79 cents extra for postage on 1 peck, or \$2.45 on 1 bushel. In 3 zone, peck, 96c, bushel, \$3.12. In 4 zone, peck, \$1.21. In 5 zone, peck, \$1.56. In 6 zone, peck, \$1.96.

141 HASTINGS SUPER PROLIFIC WHITE CORN

STRICTLY FLAT GRAINS FOR TRACTOR PLANTING!

By constant selection year after year since its introduction during the early history of the Hastings' business we have been able to increase the high yielding ability of our world famous Hastings' Prolific Corn to where we now can offer a very limited quantity of double recleaned, graded seed from fields that produced during the past season seventy-five bushels or more per acre. You know it comes from the best fields.

For your protection Hastings' Super Prolific Corn is offered in sealed bags only—1 peck (14 Lbs.) \$2.55. 4 Pecks or more @ \$2.40 per peck—F.O.B. Atlanta. Express or mail charges to be paid by customer.

HASTINGS' PROLIFIC AND HYBRID CORN?

On page 42 of this catalog you will find offered some of the very best hybrid corns yet developed here in the Southeast and we highly recommend them to you for the areas for which they are bred. New hybrids are being developed each year but these have been well tested. You must buy all your hybrid seed every year.

Meanwhile Hastings' Prolific—white and yellow—continue to rank very favorably in yields with the best hybrids throughout the South and frequently outyield the best ones when it is planted early. Hastings' Prolific is a late corn and therefore must be matured before usual late summer drought. With its heavy, tight shuck it is far more resistant to weevil damage than many hybrids. Hastings' Prolific brings premium prices at the mill because of its delicious meal quality and the smaller waste to the miller. It shells out more grain because of its small cob. Premiums of 5c to 20c per bushel have been paid for Hastings' Prolific because of its superior quality.

There must be a good reason!

With Hastings' Prolific you need only to buy a "seed patch" peck each year!

HASTINGS' YELLOW PROLIFIC

WHY IS IT SO UNUSUAL AND EXTRA GOOD?

Hastings' Yellow Prolific on good land, properly spaced, fertilized and cultivated, will produce three or more medium small ears with cobs so very small that the amount of shelled corn is comparable to that from much larger eared varieties. The protein content is unusually high. The grain is slightly dented, of richest golden color and is naturally insect resistant. The husk is very heavy, well extended tightly beyond the tip which gives storm and weevil protection. The corn keeps well in storage, giving it a tremendous advantage over soft grained Hybrids.

(149) SUPER YELLOW PROLIFIC CORN

Graded Flat Grains

This year we offer to our customers sealed peck bags only of Hastings' Super Yellow Prolific, selected from fields yielding 75 bushels or more per acre as proof of its productive ability. The breeding is the same as the regular stock but this is your assurance of absolutely the best. Sealed peck bags only \$2.75 each. 4 bags or more at \$2.50 each. F.O.B. Atlanta. Add postage.

GROW CORN—NOT JUST COBS!

Big eared corns look good and are very bulky until shelling time comes, when we readily see such a small proportion of grain to cob. Hastings' Prolific, both white and yellow, have a very tiny cob such that the shelling percentage of top quality grain is unusually high. Plant a seed patch this year!

IT COSTS ONLY 98c AN ACRE FOR SEED

in buying Hastings' Yellow Prolific by the bushel. No crop you can grow costs so little per acre for the very finest seed available and proven in experiment station reports from all Southern states.

HASTINGS' YELLOW PROLIFIC

is a cross of Hastings' Famous White Prolific and a well adapted yellow corn, and then back crossed to Hastings' Prolific to make the prolific character predominant. Many years of breeding fixes the type that we offer to you again this year.

HASTINGS' YELLOW PROLIFIC

has made good on every kind of soil that we have tested it on from the red upland soils of the great Piedmont region to the rich river bottom lands and sandy loams of the lower South as well as the black soils of the Southwest and therefore should grow to excellent advantage wherever Prolific type corn of any kind can be used.

We recommend Hastings' Yellow Prolific to you unreservedly and urge you to grow more yellow corn for its greater feed value.

(143) HASTINGS' YELLOW PROLIFIC PRICES

For the 1954 season Hastings' Yellow Prolific will be sold F.O.B. Atlanta (add postage for mail shipment) in sealed peck bags at \$2.35 (enough for 2 to 4 acres) and in sealed bushel bags at \$7.95 each. By mail, postpaid. 1/4 Lb., 20c. 1 Lb., 55c. 2 Lbs., 95c. 5 Lbs., \$1.75.

WHY GROW YELLOW CORN?

Yellow corn has that marvelous essential of health and normal growth and development, Vitamin A in addition to Vitamin B₁. These vitamins are very necessary not only in the human diet, but are equally essential in the feeding of your live stock. Comparative tests between stock fed yellow corn and stock fed with white corn give a great advantage to the yellow corn and we unreservedly recommend it to you on your farm and urge you to start at once in order to have its great benefits at the earliest possible moment.

HAVE BEST SEED EVERY YEAR GROW A SPECIAL SEED PATCH

Hastings' Yellow Prolific, being an open pollinated corn, is ideally suited to the "Seed Patch" method of growing your own seed every year. With this method you purchase only a peck to a bushel to plant from two to eight or ten acres in a special seed patch, from which you gather a plentiful crop of corn to furnish seed, only one year removed from breeder, for your entire crop, even covering a very large acreage the next year. It is our desire to have our supplies of Hastings' Yellow Prolific go as far as possible in improving Southern farming and at the same time such a plan means the very best for you at a ridiculously small net cost. Get the "Seed Patch" habit of ordering a small amount of pure seed every year and you are assured the maximum results year in and year out. A sealed peck bag plants a 2 to 4 acre seed patch. Price, Peck, \$2.35. Bushel, \$7.95. F.O.B. Atlanta.

GROW A "SEED PATCH" THIS YEAR.

146 Hybrid Trucker's Favorite Market Corn (Extra Early Strain for Roasting Ear Profits)

A genuine hybrid of our famous money-making roasting ear corn which, under good conditions, should give two, well formed, very uniform ears to every stalk and which type brings excellent market prices. It matures a day or two ahead of our regular early strain of this variety.
Seed from sealed bags. Lb., 70c. 2 Lbs., \$1.30. 5 Lbs., \$2.75. 10 Lbs., \$4.50. Postpaid. Write for quantity quotations.

For Other Corn Varieties See Also Pages 13, 40, 41, 43.

Cultural Recommendations—The following recommendations are based upon the five step hybrid corn program outlined by Southern corn experts: (1) Use an adapted hybrid for your section. (2) Adapt your fertilizer at planting to your soil conditions. Use 500-600 pounds of 5-10-10, 6-8-8, or equivalent, following small grains, legumes or other lightly fertilized crops. (3) Provide enough plants to produce the desired yields. For yields of 75 to 125 bushels, plant in 3½ foot rows spaced 15 inches. This gives approximately 10,000 plants per acre. (4) Avoid late or deep cultivation, control weeds early. Use shallow cultivation to control weeds until corn is about 4 feet high, then stop cultivation. Late cultivation destroys too many roots. (5) Vary top dressing with soil fertility, moisture and desired yield increase. Apply nitrogen side dressing at 6 to 8 weeks, when corn is about 2½ feet high. If the normal corn yield is 40 bushels per acre and the desired yield is 80 bushels per acre, apply 250 pounds ammonium nitrate or its equivalent.

1954 Prices All Certified Hybrids Except Coker 811 Listed Below—Certified, sealed bushel bags, \$11.50 each, F.O.B. Atlanta. (14 Lbs.—peck—taken from sealed bags, \$3.50 each. Postage extra.)

Best Certified Hybrids for Southern Piedmont and Mountain Sections

N. C. 27 HYBRID (yellow)—A good yielding hybrid widely used by livestock growers. Produces a good size uniform ear, a number of stalks with 2 ears. Adapted to a wide growing area including the lower mountains and the Piedmont region. Stands well in the field and produces superior quality yellow grain on a white cob.

DIXIE 82 HYBRID (yellow). An improved yellow hybrid for the Piedmont section. The root and stalk strength is even better than N. C. 27 hybrid. Matures a week earlier than Dixie 17 and slightly later than N. C. 27. Yield tests have proven this to be a really fine hybrid for the Piedmont section.

DIXIE 22 HYBRID (yellow). A heavy yielding yellow hybrid well adapted to the Piedmont. Produces good firm ears of uniform size. In yield tests it is always near the top.

U. S. 282 HYBRID (yellow). This is a hybrid with a big ear. The grain is of excellent quality. This corn is particularly well suited for growing in the upper Piedmont and mountain section. It is an excellent silage corn as well as a real crib filler.

N. C. 29 HYBRID (white). Has been tested for grain yield for four years and has been found about equal to N. C. 27 for yield. It is well adapted to the upper coastal plain and Piedmont. Its roots and stalks are good. It is a white corn with real promise. Try it this year.

GEORGIA 101 HYBRID (white) was developed by the Georgia Experiment Station in cooperation with the Southern Corn Conference. Is well adapted to the Piedmont and mountain section. Is a high yielder with fair resistance to lodging and weevil infestation.

DIXIE 33 HYBRID (white). Another splendid white hybrid coming to the forefront in Southern tests. Well adapted to the Piedmont sections and into the mountains as well.

Certified Hybrid for Lower South-Coastal Areas

DIXIE 18 HYBRID (yellow)—A tremendously popular corn with a well known performance record already established. A two ear hybrid possessing excellent weevil resistance with good stalk and root strength. Stands exceptionally well in the field making it easy to harvest with mechanical picker or by hand. Ears are encased in long tight shuck preventing both weevil and weather damage. Since released in 1948 there have never been sufficient seed supplies to meet the growing demand. We think Dixie 18 is the best yellow hybrid for the Southern coastal areas and in Florida.

Your Taxes Paid With What You Save!

Just think of having a tax receipt each year with the savings made by killing destructive rats and mice. They eat or ruin bushels of corn and other grains as well as cutting valuable sacks, spreading filth and disease in our homes and in our barns. Kill these robbers this easy way recommended by the U. S. Public Health Service!

Ready to use. WARFARIN PELLETS. 2 Lbs., \$1.95. Postpaid.

MORE COTTON PROFITS on LESS ACRES

Write for Low Quantity Prices on All Farm and Field Seeds

YOUR COTTON PLANS FOR 1954

We wish we could truthfully tell you how much cotton will sell for next fall when your cotton is picked and ginned. No one knows, of course, but, we can tell you how to make cotton growing profitable. Prepare your best land early, fertilize heavily, and plant the very best seed you can get (such as Empire wilt or Coker 100 wilt) leave a heavy stand, and keep it constantly cultivated and dusted. Keeping on the job means a good, profitable crop!

WILT-RESISTANT EMPIRE COTTON

This new wilt resistant strain of the now famous Empire Cotton is the result of the splendid work of Dr. W. W. Ballard, making the original selection from a field of Stoneville 2B at the Ga. Experiment Station. Continued fine breeding work has made Empire the top money maker of all popular cotton varieties in many tests throughout the South—from the Carolinas to Texas. Empire is resistant to Fusarium wilt. Empire is resistant to cotton thrips. Empire is storm resistant, yet easy to pick. Empire has better than inch staple of great strength. Empire produces high oil content seed. Empire is the earliest big boll cotton. Empire starts fruiting early. Empire fruits from the ground up. Empire matures its entire crop quicker. Empire means more profit for you!

Empire Wilt Resistant Cotton Seed, Machine Delinted, Purple Tag Certified Ceresan Treated

This seed is offered only in limited quantity. It has the extra lint removed but is still "fuzzy" as compared with the "slick" acid delinted seed sometimes sold. Price includes Ceresan treatment and is genuine purple tag, registered seed that has produced probably more high yield and profit records than any other variety in the South.

100 Lb. bags, (to plant 3 to 4 acres) certified and sealed. Please write for prices when ready to buy. F.O.B. Atlanta. (Bags cannot be broken.)

Pedigreed Empire Cotton

COKER 100—Wilt Resistant—Certified

Certified, machine delinted and Ceresan treated seed.

For sections where cotton wilt is in the soil it is positively necessary to plant resistant seed to make a profitable crop. Coker 100, wilt-resistant, is a very early, vigorous, high producing cotton with uniformly strong staple of better than one inch, and with better than average lint turnout. There are many one variety communities concentrating on this variety in the South and planters like to plant it year after year. It had to be good to deserve such popularity. 100 Lb. bags, certified and sealed. Please write for prices when ready to buy. F.O.B. Atlanta. (Bags cannot be broken.)

Treat Your Cotton Seed With Dupont Ceresan M

To insure vigorous, even, full stands of cotton all authorities recommend Ceresan seed treatment.

Postpaid. 14 Oz., \$1.45. (Treats 15 bushels.) 3 Lbs., \$3.85. F.O.B. Atlanta. 40 Lbs., \$35.85. 100 Lbs., \$85.00.

POPULAR OPEN POLLENATED CORN VARIETIES FOR THE SOUTH

WRITE FOR PECK, BUSHEL, OR BAG QUANTITY PRICES WHEN READY TO BUY

142 Hickory King—Largest Grains

(Broad Grain Type.) Good for roasting ears to follow White Dent. For meal, for general purposes and particularly good for making "lye hominy."

1/4 Lb., 20c. Lb., 45c. 2 Lbs., 85c. 5 Lbs., \$1.75. Postpaid.

145 Early White Dent Corn

White variety for early crop and "roasting ears."

1/4 Lb., 20c. Lb., 45c. 2 Lbs., 85c. 5 Lbs., \$1.75. Postpaid.

148 Mexican June Corn—Best Late Corn

For late planting (May, June and July). Makes best under dry weather conditions. Ears 8 to 9 inches long, grains rather short. Mostly white.

1/4 Lb., 20c. Lb., 50c. 2 Lbs., \$1.00. 5 Lbs., \$2.00. Postpaid.

147 Genuine Whatley's Prolific

Needless to say Whatley's Prolific is a high yielding hard corn with a heavy, extended shuck that makes it one of the most weevil resistant corns yet developed. It is well suited to the coastal area and to the lower middle South where insect damage is such a factor.

Lb., 45c. 2 Lbs., 85c. 5 Lbs., \$1.75. Postpaid.

138 Tennessee Red Cob Corn

A famous field corn giving dependable yields of large, deep grained ears set on red cobs. It is very popular in Tennessee and in other sections of the upper South, where it is grown for grain and ensilage.

Lb., 45c. 2 Lbs., 85c. 5 Lbs., \$1.75. Postpaid.

139 Neal's Paymaster—For Upper South

An extra large field corn for bottomland in the mid-South and uplands in the northern part of the South. Full deep white grains. Excellent for ensilage. Lb., 45c. 2 Lbs., 85c. 5 Lbs., \$1.75. Postpaid.

144 Improved Golden Dent—Early Corn

Our Improved Golden Dent is Southern grown and adapted to our soil. Strong grower, ears medium size, usually 2 per stalk. Grain rich golden yellow color, medium-sized red cob.

1/4 Lb., 20c. Lb., 45c. 2 Lbs., 85c. 5 Lbs., \$1.75. Postpaid.

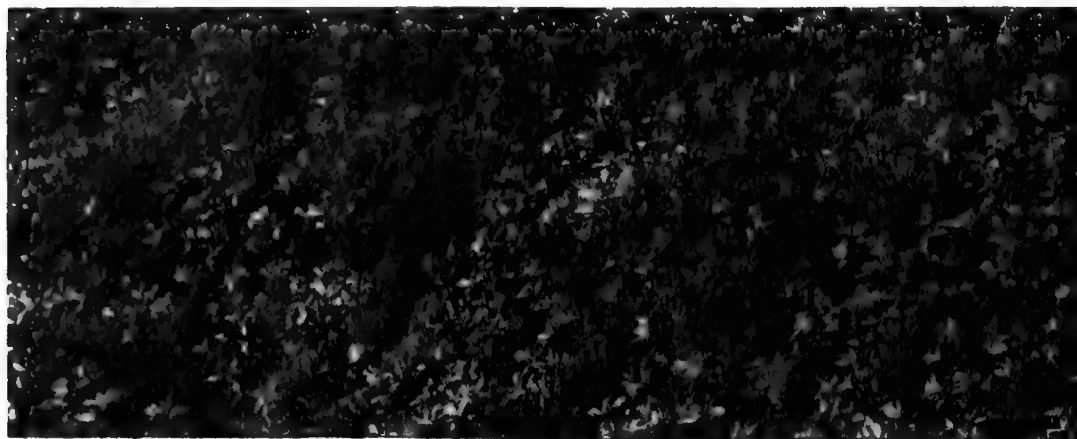

150 Trucker's Favorite (Early Strain) Corn

See page 13 for photograph of superb roasting ears of this variety. This is the great market corn that brings top prices because of its tremendous production of medium large, yet superb quality ears which pack well and ship well. Our selected early strain beats others to the market and stays in top eating condition longer.

1/4 Lb., 20c. Lb., 65c. 2 Lbs., \$1.20. 5 Lbs., \$2.50. 10 Lbs., \$4.00. Postpaid. Write for larger quantity prices.

GREATER PROFITS FROM BETTER PASTURES

Market Cattle Can Be Produced on Pastures Alone

(500 D) New Atlantic Alfalfa For Hay and Cover

(508 B) Kenland Red Clover

Three factors are contributing mightily to the very real revolution that is taking place throughout the Southern section of this great country of ours. 1. Farm labor shortage. 2. Mechanization of our farms. 3. The sweep to permanent pastures with year 'round grazing. All these factors stem from the loss of the human resources from our farming areas. But, we are producing "more and better" through the increasing number of better adapted and more practical farm machines. And we are getting the "jump" on Northern and Western farmers by building twelve month pastures and letting our livestock serve themselves, cafeteria style, the year 'round!

The newest and about the most effective combination is that of either Alta or Kentucky 31 Fescue Orchard grass and Ladino Clover. There are many other combinations of grasses, clovers and other legumes which your State College, Experiment Station and Agricultural Agent can tell you about. The point is to get busy and change over to this revolutionized Southern farming for real living and profits!

WRITE FOR LOW QUANTITY PRICE LIST WHEN READY TO BUY.

(Inoculate All These Legume Crops—See Page 95)

503 LADINO CLOVER (Giant White) PLANT WITH KY. 31 OR ALTA FESCUE FOR SOUTH'S FINEST ALL YEAR PASTURE

A marvelous new giant White Dutch Clover that is ideal for year around pastures and grazing because of heavy growth of nutritious green feed and hay. Plant only 3 pounds per acre by itself or only 1½-2 pounds with grasses in a mixed pasture. In mixture the Ladino feeds the grass and the grass protects the clover, giving tremendous tonnage of green feed of most nutritious value for all kinds of livestock every month in the year. Genuine true stock. Lb., \$1.35. Write for quantity prices.

CROTALARIA FOR GREEN MANURE

INOCULATE CROTALARIA. See P. 95.

510 LATE CROTALARIA SPECTABILIS—Great cover crop for turning under, especially in the lower South. It is not recommended for hay. Requires no fertilization, no liming, and may be grown without cultivation. For maximum growth, broadcast 10 to 15 Lbs. per acre on well-prepared land when frost danger is past, harrowing in lightly while soil is moist. The yellow blossoms make beautiful cut-flowers.

Scarified Seeds—Lb., 75c. 5 Lbs., \$3.00. Postpaid.

500D ATLANTIC ALFALFA

A brand new type alfalfa that is best suited to our Southern conditions of heat and drought. Very highly recommended! Write for prices.

500A KANSAS ALFALFA

The best of the older types and well suited to Southern alfalfa soils. Lb., 90c. Write for quantity prices.

NOTE—UNTREATED ALFALFA FOR TEA—See p. 19

507 Sweet Clover or Melilotus Alba

As a land-builder it has few equals. Resembles Alfalfa and called Alfalfa's twin sister. Grand bee food and to build up poor land. Sow 12 pounds per acre in Feb. True white-flowered variety. Hulled or cleaned seed. Postpaid —Lb., 65c. 5 Lbs., \$2.75. Write for quantity prices.

509 White Dutch Clover (Plant 5 lbs. per acre)

Not only a superb addition to the Southern lawn (See P. 47) but also fine for pasture mixtures particularly in low, moist areas. Lb., \$1.25. 5 Lbs., \$6.00. 10 Lbs., \$10.00. Postpaid.

501 Alsike Clover for Moist Lands

Also called Swedish Clover. Best clover for wet lands. Similar to Red Clover but more slender stems and smaller leaves; blossoms white shading pink. Does fine with grasses for hay or pasture and grows well in Northern Cotton Belt. Postpaid. Lb., 85c. Write for quantity prices.

508B KENLAND RED CLOVER

Can be grown even on good soils in north Florida as well as in upper South. Wonderful new introduction. Lb., \$1.00. Write for quantity prices.

508A AMERICAN RED CLOVER

Older type for upper South only. Lb., 85c. Write for quantity prices.

516 ALYCE CLOVER—Hay and Cover

Ideally suited to light sandy loam soil and yet produces rank growth on rather heavy clay. Excellent hay crop for livestock. Sow seed 5 to 8 pounds per acre, broadcast and harrow lightly to cover. For the lower South. Lb., 65c. Postpaid. Write for quantity prices.

7240 KUDZU THE MIRACLE CROP

Kudzu seed can be planted by hand in hills four feet apart in 6-8 ft. rows or with any ordinary garden planter or it can be broadcast on prepared soil after frost danger is over in spring and when the soil is quite warm. Plant about one pound per acre.

Pkt., 20c. Oz., 50c. ¼ Lb., \$1.50. Postpaid. Write for quantity prices.

Perennial Lespedeza for Permanence

The Roots Subsoil Clear Through the Hardpan

SERICEA—The permanent Clover for the South. Lespedeza Sericea grows on poor land and acid or sour land as well as rich land. After established, it is a great drought resister with an enormous root system. It enriches the soil, lives through the winter, starts growth early in spring and gives at least 3 cuttings a season with as high as 3 tons per acre at one cutting of hay. Broadcast 15 Lbs. per acre with a small grain crop in the fall, or after soil can be readied in spring. It is wonderful to hold land from washing, can be grazed moderately without killing.

502 LESPEDEZA SERICEA (Regular Strain)

Postpaid—1 Lb., 90c. Write for quantity prices.

502B ARLINGTON SERICEA LESPEDEZA

A new, vigorous strain with more palatable stems and far superior for hay and pasture. A real discovery! Write for prices.

511 Kobe Lespedeza for the Middle South

Valuable self-seeding, annual Southern clover, growing on rich or poor soil. Broadcast 15 to 30 Lbs. per acre after inoculation.

Makes a larger growth of stems, leaves and has larger seed than Common Japanese but is otherwise similar. Growth is low and spreading except in thick sands. Kobe is preferable in the main cotton belt or from southern Ark., Tenn. and coastal N. C. south. Lb., 65c. Write for quantity prices.

506 KOREAN LESPEDEZA

Korean is of most value in the northern half of the Cotton Belt sections. It is earlier maturing, 18-24 in. tall, stands close grazing, does well in acid soils and hay cures very quickly. Grazing season ends about Sept. 1st, furnishing fine and cheap midsummer pasture. Broadcast 20 Lbs. per acre. Lb., 65c. Postpaid. Write for quantity prices.

BUY ONLY HIGHEST GRADE GRASSES

PREPARE LAND WELL, LIME AND FERTILIZE GENEROUSLY—THEN COUNT YOUR PASTURE BLESSINGS

Good Pastures Make Milk or Beef Profits

HASTINGS' LIVESTOCK PASTURE MIXTURE

**FESCUE GRASS — LADINO CLOVER — ORCHARD GRASS
READY TO SOW—INOCULATION INCLUDED**

This superb blend of Southern pasture seeds provides maximum feeding value all the year. Fescue is famous for its heavy growth in fall and winter with orchard grass taking the lead with its high palatability throughout the spring followed by the heavy growth of Ladino Clover all summer. This combination provides the huge group of old and new livestock farmers in our Southern states with just about the ideal mixture for beef, milk, sheep and hog production on a "serve yourself" basis, now so necessary through labor shortages. We recommend 22 pounds per acre on well prepared soil with pasture fertilization, sowing on smoothed surface barely brushing in. Fall planting is recommended. Write for our best quotations when ready to buy.

536 ALTA FESCUE (Certified)

Very similar to Ky. 31 Fescue. Heavy sodding, deep rooting, drought-resisting when established on well-prepared, fertilized land. Stays green winter and summer for maximum grazing. Particularly good when sown with Ladino or similar clovers. Lb., 65c. Postpaid. Write for low quantity prices.

538 KENTUCKY 31 FESCUE (Certified)

Famous tall fescue found in Kentucky growing on a steep hillside. Roots penetrate deeply in well-prepared soil and remains green all year. Plant with Ladino or similar clovers for best pasture balance. This is the grass that is making the South the best cattle raising section of the country! Sow 30 lbs. per acre with 2 lbs. clover. Lb., 65c. Postpaid. Write for low quantity prices.

542A ORCHARD GRASS

One of the most nutritive and palatable cattle grasses of all and frequently used with fescues and clover. Maximum growth on good soil and during first three to five years. Sow 30 lbs. per acre. Lb., 65c. Postpaid. Write for low quantity prices.

542B ABERYSTWYTH ORCHARD GRASS (S-143)

A new, hardy, more vigorous strain of orchard grass giving splendid results already here in the South. We have a limited quantity of certified seed. Please write for prices.

532 COMMON RYE GRASS (Annual)

Used over Bermuda pastures for heavy winter grazing, giving a year 'round program. Also planted for quick temporary pasture. Sow 50 lbs. per acre. 5 Lbs., \$1.50. 10 Lbs., \$2.75. Write for low quantity prices.

557 PERENNIAL RYE GRASS

(Called English Rye Grass)

A more deeply rooted rye grass that lives over the summer only in cool sections of upper South. Gives quick grazing. Lb., 65c. 5 Lbs., \$2.25. 10 Lbs., \$4.00. Write for low quantity prices.

559 RESCUE GRASS (Bromus) (Chapel Hill Str.)

A newcomer to the South for quick, tough winter grazing from heavy, leafy bunches. Must be watched to avoid becoming mixed with winter grains. Sow 25 lbs. per acre. Write for low quantity prices.

546 TIMOTHY

Inexpensive temporary pasture and hay grass, used with clover. For upper South only. Sow 30 lbs. per acre. Lb. 60c. Postpaid. Write for quantity prices.

553 CARPET GRASS

Very popular grass for shaded lawn areas and moist pasture lands Lb., \$1.00. 5 Lbs., \$4.50. Postpaid.

534 DALLIS GRASS (Imported Seed)

A very coarse, persistent, and permanent pasture grass for the great middle and lower South. Sow 30 lbs. per acre. Write for low quantity prices.

558A SWEET SUDAN GRASS

Fast growing hay crop for quick results and very nutritious hay. A heavy producer. Lb., 55c. 5 Lbs., \$2.50. Postpaid. Write for quantity prices.

558B TIFT SUDAN (Certified)

Claimed to be the finest of all the Sudan grasses and well worth the price in extra tonnage. Lb., 60c. 5 Lbs., \$2.75. Write for quantity prices.

618 GOLDEN TYPE MILLET

TENNESSEE CULTIVATED—Seed 50 Lbs. per acre, any time from the middle of May through July, but not too early. It matures six to eight weeks after seeding. Cut while in bloom for best hay. Postpaid. Lb., 55c. 5 Lbs., \$2.25. Write for quantity prices.

620 BROWN TOP MILLET

GROW FOR QUAIL AND WILD TURKEY—A superb summer hay crop that is easily and quickly grown. Bears very large crops of grain which makes ideal game bird feed. If left standing it provides cover for the birds while the seed heads shatter. Plant 50 pounds per acre. Lb., 55c. Postpaid. Write for quantity prices.

619 PEARL OR CATTAIL MILLET

Cut and Come Again Hay Crop

Greatest and best yielder of green forage and it continues to grow and produce through the entire season if cut frequently enough to prevent its going to seed. Sow thinly in rows 3 ft. apart at rate of 8 to 10 Lbs. per acre. Postpaid—1/4 Lb., 20c. Lb., 55c. 5 Lbs., \$2.25. 10 Lbs., \$4.00. Postpaid.

624 STARR MILLET (Certified)

Of Georgia origin and well adapted to Southern conditions this new introduction makes possible heaviest hay crops of extremely high food value in a short time. Similar to Cattail Millet. Write for prices.

560 BAHIA GRASS (Pensacola Strain)

Enormously productive semi-tropical grass that makes heaviest forage throughout the summer season. Will stand considerable frost but not severe freezes. Write for prices.

561 BAHIA GRASS (Argentine Strain)

Newest and finest strain yet of this enormously yielding forage grass for the lower coastal South and in Florida. Write for prices.

565 BROME GRASS, SOUTHERN

Well adapted, rather coarse grass for special usage in the South, providing grazing under dry conditions. Write for prices.

537 JOHNSON GRASS

A very valuable hay crop grown in many parts of the South. A perennial, it is hard to eradicate. Write for prices.

Our Own Mixtures Formulated for Southern Lawns

LAWN GRASS

PLANTING DIRECTIONS

WHEN TO PLANT YOUR LAWN

The finest lawns are made during the cool months in fall and spring. As soon as the soil can be prepared in spring is time to sow seeds of the cool season grasses (Kentucky Blue, Merion Blue, Poa trivialis, Fescues and the mixtures). Allow grass to become established well before freezes or after freezing weather is over. Bermuda Grass grows best when seeded after weather warms up in the spring and may be planted from May to August in the mid-South—earlier or later in the lower and upper South. Lawns from sod or sprigs can be planted at any time except mid-winter, when soil conditions are reasonably good.

PREPARE SOIL WELL

Spade or plow soil 8 inches deep. Remove rocks, roots and litter. Where shady, there is frequently moss, showing lack of fertility, acid condition and poor aeration. To correct this, apply agricultural limestone (200 lbs. per 1,000 sq. ft.), use KRILIUM in worse spots.

Grass needs ample food and moisture. For most soils, additional amounts of humus will be needed to make them mellow and more moisture absorbent. Add at least 1 bale of peatmoss per 1,000 sq. ft. to sandy or clay soils. Work in well before applying fertilizers.

Apply 100 lbs of Pulverized Sheep Manure and 25 lbs., Hastings' Lawn Fertilizer to each 1,000 sq. ft. (50 x 20). Rake in thoroughly, mixing fertilizer with soil and working the surface smooth and level. Soak ground thoroughly. Let soil settle a few days to a week before planting.

KRILIUM FOR THE LAWN

This revolutionary material gives the South the possibility of having the finest lawns in the country! We have used it and we unreservedly recommend KRILIUM but only KRILIUM to you. Our suggestion is to try an experiment with KRILIUM at this time to see what it will do for your lawn. Mix completely with the upper 3 inches of lawn soil.

5 Lb. canister "Merloam" formulation KRILIUM will treat 80-100 sq. feet, 10 Lb. canister "Loamaker" formulation KRILIUM will treat 1000 sq. feet. See pages 2 and 95 for prices.

SEEDING THE LAWN

Most grasses, except Hulled Bermuda, Merion Blue Grass and Ryegrass, are seeded at the rate of 5 lbs. per 1,000 sq. ft. Double the amount for Ryegrass. For special seeding rates of individual grasses, see lists on page 47. Broadcast seeds evenly by hand or with the use of a seeder. For hand application, divide amount for a given area in half. Broadcast first half as you work across lawn in a lengthwise direction. Broadcast other half in a crosswise direction. Firm with roller or drag lightly and smoothly with back of rake, and water thoroughly. Do not cover over one fourth inch.

LAWN MAINTENANCE

DO NOT MOW THE LAWN LESS THAN (2) TWO INCHES!

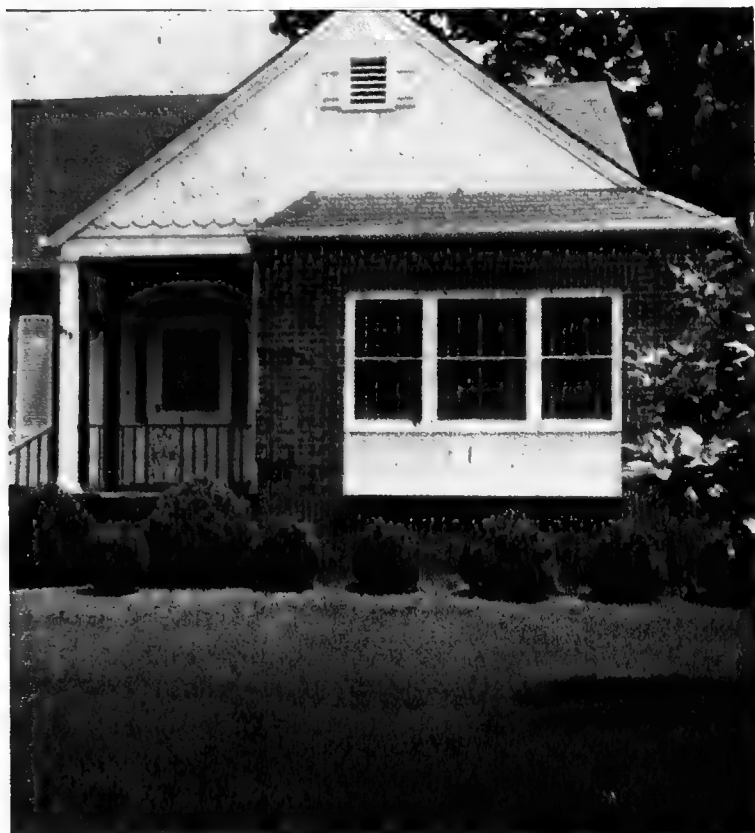

Always keep newly seeded lawns well watered to insure good germination and quick rooting. Make first mowing when new grass is 3 inches high. Subsequent mowings are made as growth conditions permit. Set mower to cut at 2 inches high. On established lawns, keep down weeds by spraying with a 2, 4-D weed killer, and Crabgrass with Weedone Crabgrass Killer. Feed lawns in March, September and December with Hastings' Lawn Fertilizer, 25 pounds per 1,000 sq. ft. (50 lb. bags, \$3.50 each, 250 lbs., \$17.25. F.O.B. Atlanta.) In dry weather, water lawns thoroughly with a rotary or oscillating sprinkler, soaking ground to a depth of 4 inches or more.

531 BERMUDA, HULLED (Extra Fancy Grade)

Most valuable grass for Southern sunny lawns. Stands drought and scorching summer sun better than any other variety, has a creeping, spreading habit, stands roughest use, and is indispensable for full sunny locations. Ideal for all sections of the South—for sandy soils to clay soils, but applications of peatmoss to either extreme soil type will result in a much finer growth. For best results, topdress twice a year (April and August) with 25 lbs. Hastings' Lawn Fertilizer per 1,000 sq. ft. Our Hulled Bermuda grass sprouts in a week when soil is moist. This is our famous Bermuda with the almost water-tight hulls removed. Seed only in warm weather (May to August), and earlier or later in the lower and upper South. Seed at the rate of 2 lbs. per 1,000 sq. ft. Bermuda seed will not germinate in cool soils.

Postpaid. Lb., \$1.10. 5 Lbs., \$5.00. 10 Lbs., \$9.00.

Never fertilize cool weather grasses or mixtures in midsummer and never set mower blade to cut less than two (2) full inches at any time. This is all important in the South. More lawns are killed by too close mowing in hot, dry weather than from almost all other causes together!

A Hastings' Lawn Mixture Makes a Beautiful Lawn

HASTINGS' OWN SOUTHERN MIXTURE 551 ALL-PERENNIAL LAWN GRASS

Formulation by South's Finest Lawn Experts

Our newest and choicest grass seed mixture of all-perennial grasses for permanent lawns of high quality. No cheap annual or short-lived nurse grasses such as rye grass, timothy or red top are used in this mixture. Ideal for use in the upper South where cool season grasses thrive. Provides a smooth, velvety turf of pleasing texture. Fine for sun or semi-shade. For best results, lime soil prior to seeding to provide a near-neutral soil reaction and apply KRILIUM for aeration. Seed at rate of 5 lbs. per 1,000 sq. ft. Sow in fall or early spring.

Do not mow less than two (2) full inches!
Postpaid. Lb., \$1.15. 5 Lbs., \$5.00. 10 Lbs., \$9.50.

555 HASTINGS' SHADY LAWN GRASS

For shady places in the upper half of the Cotton Belt, and farther north. It makes a wonderful winter and spring grass carpet, and stands hot summers in shady places better than most other grasses. This is our famous Evergreen Mixture with the addition of Poa trivialis and Bent grasses for shady places. Although this mixture is shade tolerant, areas planted closely under large trees must be given more frequent feedings and waterings to offset competition of tree roots. Plant in fall or early spring. Seed at rate of 5 lbs. per 1,000 sq. ft.

Do not mow less than two (2) full inches!
Postpaid. Lb., \$1.15. 5 Lbs., \$5.00. 10 Lbs., \$9.50.

550 HASTINGS' EVERGREEN LAWN GRASS

An extremely popular lawn grass mixture for the upper South, for full sun to semi-shaded areas. It grows off quickly, has a rich green color, fine texture, is slightly creeping, smooth and velvety. It really makes a luxuriant green carpet, and years of experience have proven it to be one of the best of all lawn mixtures for spring and fall planting. It also makes an excellent overplanting in the fall over Bermuda lawns in the lower South for winter color. Our own special formula mixture. You can get it only direct from Hastings. Seeding rate, 5 lbs. per 1,000 sq. ft.

Do not mow less than two (2) full inches.
Postpaid. Lb., \$1.10. 5 Lbs., \$4.75. 10 Lbs., \$9.00.

FINEST LAWN GRASSES FOR SPECIAL USES

Write for latest quantity price list on all grasses and our Special Lawn Bulletin.

We take pride in offering a complete assortment of special turf grasses for southern lawns in those sections of the South where each is adapted. Be sure and write for our closest prices on larger quantities. We are the South's top grass headquarters.

533 BLUE GRASS KENTUCKY (Crep Very Short)

One of the most popular lawn grasses for the middle and upper South, thriving in sunny to semi-shaded areas. Leaves a pleasing dark green color and fine texture. One of the main perennial grasses, growing best in well prepared, limed soils. Has a tendency to become dormant in hot, dry summers in the middle South. Frequent watering, though brings back good fall color. Requires about 2 years to become well established, and is a slow germinator. Used most as a basic grass in seed mixtures. Plant in spring or fall. Seeding rate, 5 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$2.00. 5 Lbs., \$9.00.

567 BLUE GRASS DELTA

A new strain that shows excellent growth even under severe conditions here in the South. Worthy of trial.

Lb., \$2.75. Write for quantity prices.

544 BLUE GRASS MERION

The brand new, sensational grass that is being featured in national garden magazines as the "Answer to the gardener's prayer" for an ideal lawn grass. Forms a dense, dark green turf that experts say chokes out crabgrass, is resistant to Helminthosporium leaf spot, tolerates closer mowing than common Blue Grass, is considerably more resistant to heat and drought, and establishes itself more quickly than common Blue Grass. Plant in spring or fall. Seeding rate, 2 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$5.00. Write for quantity prices.

530 BERMUDA. UNHULLED (For Hulled B. see p. 46)

Identical with Hulled Bermuda, except without seed hulls removed. Germinates in 20 to 30 days with proper soil moisture. Sow only in late spring and summer. Seed at rate of 5 lbs. per 1,000 sq. ft.

Postpaid. Lb., 90c. 5 Lbs., \$4.25. Write for quantity prices.

554A BENT CREEPING, HIGHLAND

Adapted for special uses only, and suited only to the upper South. Plant in cool weather. Seeding rate, 1 to 2 lbs. per 1,000 sq. ft.

Lb., \$1.50. Postpaid.

554B BENT SEASIDE

Highly specialized use. Lb., \$1.75. Write for quantity prices.

568 CENTIPEDE GRASS SEED

Now you can establish your Centipede lawn in this much easier and less expensive way. Grows well on even poor soils, in sun or part shade, requires less mowing, less fertilizing and is more resistant to insects and disease. Directions for planting with each package. Ounce plants about 250 sq. ft. Postpaid. Ounce \$1.25. 4 Oz., \$4.25. Lb., \$15.00. Order early, supplies very limited.

535 FESCUE, CHEWINGS

A very fine textured grass for medium to heavily shaded areas, acid soils, and poor soils. Makes a dense turf when well cared for. Spreads by development of new shoots, a single plant often covering an area several ft. in diameter. Plant in the fall only (Sept. to Dec.) Seeding rate, 2 lbs. per 1,000 sq. ft. Postpaid. Lb., \$1.25. Write for quantity prices.

541 FESCUE, PENN STATE CHEWINGS

An improved strain of Chewings Fescue, rated as the best of 46 strains tested. More resistant to disease, and stands closer mowing. Seed at rate of 3 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$1.35. Write for quantity prices.

540 FESCUE, CREEPING RED

Produces turf similar to Chewings Fescue, but spreads by underground runners that make an extremely tight, uniform sod. Leaves are fine, needle-like, of deep green color. Thrives on all types of soil. Excellent for shady places, and withstands wear. Good for home grounds, golf courses, airports, cemeteries and playgrounds. Sow in spring or fall. Seeding rate, 3 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$1.25. Write for quantity prices.

543 FESCUE, ILLAHEE CREEPING RED

A new strain of Creeping Red Fescue. Spreads from roots that creep underground. Fine textured perennial grass that thickens up into a dense carpet of green turf. Ideal for playgrounds and lawns subjected to heavy wear. Sow in the fall only. Seeding rate, 3 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$1.35. Write for quantity prices.

563 DICHONDRA (Special Ground Cover)

A fast growing, tiny leaved ground cover for those "impossible" places where nothing else grows. Not a grass.

1 Oz., \$1.50. 1/4 Lb., \$4.50. Postpaid.

547 FESCUE, RAINIER CREEPING RED

A very vigorous new strain exciting lots of real attention.

Lb., \$1.35. Write for quantity prices.

539 POA TRIVIALIS

Leaves narrow, soft and glossy. Has a creeping habit. Often called the Blue Grass of the Shade, and is particularly adapted for heavily shaded areas. Lime soils to produce a good permanent cover. Needs good moisture. Plant in spring or fall. Seeding rate, 3 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$1.75. Write for quantity prices.

545 RED TOP OR HERD'S GRASS

Perennial grass with a creeping growth habit, making a coarse, loose turf. Tolerates acid soils, wet land, sour land, and is drought resistant. Primarily used as a nurse grass in seed mixtures. Plant in spring or fall. Seeding rate, 3 lbs. per 1,000 sq. ft.

Postpaid. Lb., \$1.00. Write for quantity prices.

532 RYE GRASS, WINTER

Use for temporary plantings of winter lawns to provide a luxuriant green turf, or for overplanting over Bermuda and other winter-dormant grasses. Usually planted in fall. Seeding rate, 10 lbs. per 1,000 sq. ft.

Postpaid. 5 Lbs., \$1.50. 10 Lbs., \$2.75. Write for low quantity prices.

557 RYE GRASS, PERENNIAL

A tufted, short-lived perennial of finer texture than Common Rye Grass. Seeding rate, 10 lbs. per 1,000 sq. ft.

Postpaid. Lb., 65c. Write for low quantity prices.

509 WHITE DUTCH CLOVER FOR LAWNS OR PASTURES

Not a grass, but is used extensively to supplement various lawn grasses in making the heaviest green turf to stand rough treatment and to last several years. Thrives on poor soils where grasses will not grow well, and withstands drought. Good for sun or shade. Not recommended for planting with Bermuda, Zoysia, grasses or play areas. It is not included in our grass seed mixtures. Seed in spring or fall. Seeding rate, 2 lbs. per 1,000 sq. ft. Postpaid. Lb., \$1.25. 5 Lbs., \$6.00.

GRASSES FROM ROOTS—TIFLAWN SOD

BERMUDA, TIFTON 57. TIFLAWN (Certified). A new, very low growing strain of Bermuda that is finer textured than the common type. Requires less mowing, and forms a dense, tight turf. Plant in late spring and summer. Available in roots only. 1,000 sprigs plants 1,000 sq. ft. of area. Bushel (about 1800 sprigs) bags. Postpaid. \$7.50. Write for special prices on larger quantities.

BERMUDA, TIFTON 127. (TIFFINE) Certified. Finest bladed and very dense for best sunny lawns. 1 sq. yard (to plant about 1500 ft.) \$8.00. 2 for \$15.00. F.O.B. South Georgia. Express only.

CENTIPEDE GRASS. The popular grass for poor, dry soils in the middle and lower South. Good for full sun to semi-shade. Very flat growing, medium coarse texture grass that requires little mowing. 1 Bushel plants 30-40 sq. yds. Plant in late spring and summer only.

F.O.B. Growing Station, 600 Sprig Bag, \$5.95. 5 bags for \$24.00. Express shipments East of Mississippi River only.

ST. AUGUSTINE GRASS (BITTER BLUESTEM). Stands the heaviest shade to full sunny areas. Coarse, broad leaves, but makes a very pleasing, thick, dense turf that crowds out weeds. Hardy as far north as Birmingham, Atlanta, Greenville, etc. Needs rich soil and ample moisture. Plant only in the spring and summer. 1 bu. plants 30-40 sq. yds.

F.O.B. Growing Station, 2 Bu. Bag, \$6.95. 10 Bu., \$26.50. Express shipments East of Mississippi River only.

ZOYSIA JAPONICA Z-52—MEYER STRAIN. An unusually fine new selection of Zoysia for general hardiness and dense growth. Write for prices.

ZOYSIA MATRELLA or Manila Grass

Forms a very thick, dense sod of fine textured turf. Once established it requires but average care, and chokes out weedy growth. Grand for full sun to fairly heavy shade. It requires a full season from sprigging or plugging to cover well. Similar but finer than Bermuda sod, and turns brown later in fall and turns green earlier in spring to form a long season lawn of dark green color. For detailed instructions on planting, write for our special Zoysia Bulletin. Plant in spring and summer. Available only in sod. 1 sq. yd. plants about 400 sq. ft. of area. F.O.B. Nursery. 1 square yard, \$4.95. 5 yards or over @ \$4.45 per yd. Express shipments East of Mississippi River only.

MODERNIZE YOUR FARM OPERATIONS

Save Labor by Mechanically Harvesting Your Summer Feed Crops Too!

Grain Sorghums—For Mechanical Farming

629 HEGARI Its ability to make enormous yields of grain (3,000 pounds and more) insures Hegari a permanent place in our agricultural system here in the South where it thrives so well.

Young Hegari can be moderately grazed the same as similar forage crops, but its great value is in its tremendous grain production.

Plant 10 pounds of seed per acre in drills as for sorghum with 300-400 pounds high grade fertilizer and clean, shallow cultivation makes the crop. Postpaid—Lb., 50c. 5 Lbs., \$1.75. 10 Lbs., \$3.00. Write for quantity prices.

625 Evergreen Broom Corn—Good Brooms

Fine crop for dry-land farming where there is a market for straw for brooms, or to make your own. It has practically no feed value. Neither plant nor seeds are suitable for feeding purposes, but straw makes excellent quality brooms. 10 Lbs. per acre.

Postpaid—Lb., 60c. 5 Lbs., \$2.50. 10 Lbs., \$4.50.

602 CLEMSON NON-SHATTER SOY BEANS

Excellent South Carolina soy which holds its beans for combine harvesting. Write for lowest quantity prices.

601 O-Too-Tan Soy Bean

It has made six tons of dry hay per acre in three-foot rows, dropping seed 8 to 10 inches apart. For a bean crop, drop seeds 10 to 12 inches apart, where it makes 5 to 10 bushels per acre. It is of bush form and will not climb. 5 pounds of seed will plant an acre in corn; use 10 to 15 pounds per acre in 3-foot rows.

Lb., 60c. 2 Lbs., \$1.00. 5 Lbs., \$2.00. Postpaid. Write for quantity prices.

600 Mammoth Yellow Soy Beans

There are many varieties of the Japanese Soy Beans but the Mammoth Yellow is the best, the strongest grower and heaviest yielder of seeds in the South. Grow the seeds to crush for oil and meal in Soy Bean mills. Plant 30 to 60 Lbs. per acre.

Postpaid—Lb., 55c. 2 Lbs., 90c. 5 Lbs., \$1.75. Write for quantity prices.

615 BUCKWHEAT

Maturing in about two months. It is easily grown, desirable, and profitable for large grain yields, flower food for bees, and turned under it is a good soil improver. Buckwheat makes a fine quality of flour, the kind that goes into the famous "Buckwheat Cakes."

Postpaid—Lb., 50c. 5 Lbs., \$2.00. Write for quantity prices.

617 Chufas, Earth Almonds

Species of ground nut, easily grown, wonderful hog-fattening crop. Plant from April to June, and cultivate as for bunch peanuts. The crop can be left in the ground, the hogs to do the harvesting. Especially suitable for sandy and loamy soils, highly recommended for the lower South.

Postpaid—Lb., 65c. 5 Lbs., \$2.50. Write for quantity prices.

628 Martin's Combine Milo—Summer Grain RESISTS WEEVILS

For Combine harvesting we offer you Martin's Combine Milo, developed with this idea foremost in mind. However, it is a tremendous producer even under dry weather conditions and is an ideal summer crop to mature normally in about 100 days. It grows from 2½ to about 3½ feet tall, depending upon soil and season, with heaviest heads of full, plump, rather hard grains which prove somewhat resistant to weevils when kept over into the following spring. In this respect it is more valuable than other grain sorghums, including Hegari. For mechanized farms and for a quick, dry summer crop we recommend it to you. Plant in drills, 10 pounds per acre.

Pound, 50c. 5 Lbs., \$1.75. 10 Lbs., \$3.00. Postpaid.

582 Upland Rice

It takes a very long season—better than 150 days—for maturity, so can only be successfully grown in the southern part of the Cotton Belt, the coastal plains sections. Upland Rice grows vigorously in fairly rich, well drained upland soil with moisture sufficient to grow a good late corn crop. Our suggestion is that you experiment with a small planting this year to learn best how to grow it under your soil conditions. Drill seed in 2½-foot rows at the rate of 50 pounds per acre at cotton planting time in spring, keeping cultivated clean at all times.

Postpaid—Lb., 55c. 5 Lbs., \$2.00. 10 Lbs., \$3.50.

400 DWARF ESSEX RAPE

For spring, fall or winter planting for quick green forage or grazing for hogs and poultry, there is nothing equal to Dwarf Essex Rape. The tops look like rutabagas and growth is similar yet larger. Rape makes no bulbous roots. Can be planted in rows like turnips, 4 pounds per acre, or broadcast 8 to 10 pounds per acre, covering by a light harrowing. Ready for grazing in 8 to 10 weeks.

Rape can be sown with fine results from August to April. Rape grows 15 to 30 inches high. It is a splendid green feed and forage crop relished by all kinds of stock.

PRICES—Postpaid. ¼ Lb., 20c. Lb., 50c. 5 Lbs., \$2.00. 10 Lbs., \$3.25.

605 Running Velvet Beans

Heaviest yielding forage crop and legume for hay or turning under. Grand for planting in corn. Extra Early running type for upper South. Plant 15 Lbs. in Corn or 30 Lbs. per acre by itself, April to June.

¼ Lb., 20c. Lb., 60c. 2 Lbs., \$1.10. 5 Lbs., \$2.00. Postpaid.

581 SPANISH PEANUT

Plant 1 to 2 bus. per acre, the Spanish or bush sort thicker than Valencia Peanuts. The best variety for forage and fattening crop in the South. Early, heavy bearer; bushes growing close, so easily cultivated. Grains or nuts are small, skins of creamy white color, much sweeter and finer flavored and much more free from "pops" than the larger sorts. Best recleaned seed stock.

Postpaid—Lb., 65c. 5 Lbs., \$3.00.

578 Valencia Peanut (Red)

Pods are large, close and well filled, containing 3 to 4 nuts or kernels, with red skins, in each pod. Of very mild, sweet enjoyable flavor. Their very handsome appearance sells them on sight.

Postpaid—Lb., 65c. 5 Lbs., \$3.00.

621 Mammoth Sunflower—Poultry Feed

Every farm in the South ought to grow Sunflowers for the seed. No farm where poultry is raised can afford to be without them. The yield on fairly good land is immense, 500 to 1,000 Lbs. of seed per acre being nothing unusual. As a poultry feed to give rapid growth, fine glossy plumage, and as an egg-producing feed we know of no other seed to equal it. When we say that a sunflower crop is profitable, we mean the Mammoth Russian, which produces three to four times as much seed as common varieties. Plant as you would corn.

¼ Lb., 20c. Lb., 65c. 5 Lbs., \$3.00. Postpaid.

632 NATIVE TALL BENE-SESAME

Native tall Bene used by sportsmen for quail and other game bird feed. Planted after soil is warm along ditchbanks, terraces and at edge of woodlands it ripens seed in fall and shatters them for perfect feeding. Seed are extensively used in cooking also.

0z., 20c. ¼ Lb., 50c. Lb., \$1.50. 5 Lbs., \$6.25. Postpaid.

Latest Quantity Price List

H. G. HASTINGS CO., Box 4088, Atlanta 2, Georgia

JANUARY 1, 1954

No. 400

This is our current quantity price list with ample supplies available to fill normal orders. All offers are necessarily made subject to present supplies being unsold at time order is received. Prices quoted are for prompt acceptance and are subject to market. These quotations are strictly F.O.B. Atlanta or nursery where noted. Further information on page 97.

FLASH FARM-GARDEN NEWS

WARFARIN *Really Kills Rats - Mice*

The enormous waste and destruction in our homes and on our farms caused by rats and mice is measured in millions of dollars.

The spread of much disease is, in all probability, caused by the filth as well as parasites (mites, lice, ticks) carried by these ever present pests that penetrate into the largest homes as well as the smallest ones. They overrun barns, chicken houses, outbuildings, cutting bags, eating food and feed, but even wasting more.

WARFARIN has the full approval of many governmental agencies including the U. S. Public Health Service. We officials and employees of Hastings use WARFARIN regularly around our own homes and wholeheartedly recommend it as the wisest insurance investment in disease prevention and waste avoidance you can make.

Further information is given on page 2.

KRILIUM -- *The Original Resin Soil Conditioner*

Introduced by The Monsanto Chemical Co., KRILIUM is a light colored, very fine powder substance made by a very complex process and which can and will, when thoroughly mixed with hard, tight, sticky, difficult to handle clay or silt soils, make them loose and porous with much greater moisture holding capacity, better plant food utilization and much easier workability. Nothing within the past century has greater potentialities for better garden and farm soil improvement!

As a distributor in the South for Monsanto's KRILIUM we do recommend it without hesitation. The price is still too great for general usage but we do suggest to our every customer to purchase a small or medium package to test it on your own soil to see how much benefit it will give.

If your soil is loose, porous or sandy there is no need for KRILIUM and we definitely do not suggest its use under such conditions. There is no need to make such expenditures where not needed.

Please refer to page 2 for a further discussion of this remarkable new discovery.

Steer clear of the many near worthless substitutes.

Use only Monsanto's product the one and only and original resin soil conditioner KRILIUM.

NEW LOWER KRILIUM PRICES POSTPAID

One Pound Package Krilium (for potting soil), \$1.39; Five Pound Package Krilium (for small beds), \$4.95; Ten Pound Package Krilium (for gardens-lawn), \$25.00. (The 10 lb. package is in concentrated form.) (Dealers write for case lot prices).

H. G. HASTINGS CO., BOX 4088, ATLANTA, GA.

1954 VEGETABLE PLANTING CALENDAR

This planting schedule is given to make planning a garden and keeping it producing—EASY. Naturally, planting time varies as one goes north or south. In the extreme South, most vegetables may be planted through the winter months but this calendar is based on the middle South or Cotton Belt, about the latitude of Macon, Ga., Tuscaloosa, Ala., Greenville, Miss., Dallas, Tex. South of this latitude planting will be earlier and in the upper South of course later. New York-Chicago latitude averages about one month later; Ohio River territory about 15 days later than this calendar. Depth of planting is for medium loamy soils. In sandy soils, plant seed a little deeper, less deeply in heavy soils.

HASTINGS' SEED PACKAGES HAVE FULL SOUTHERN CULTURAL DIRECTIONS. BEST FOR THE SOUTH. INDEX p. 98

NAME OF VEGETABLE	Seed for 50 feet of row	How usually planted	Lbs. Seed to sow an acre	Distance between rows	Plants apart in row	Depth to plant	Time to Plant	Ready to Use
Artichoke, Tubers	2 lbs.	Drills	400 lbs.	3½ ft.	1 ft.	2 in.	Feb. to Apr.	6 mos.
Asparagus	½ oz.	Drills	4-5 lbs.	14-18 in.	3-6 in.	1 in.	Mar., Apr.	3 yrs.

1954 FLOWER SEED PLANTING TABLE

ALL HASTINGS' SEEDS ARE TESTED, DATED AND SAFETY SEALED FOR YOUR PROTECTION

This planting schedule is given to make planning a garden and keeping it producing—EASY. Naturally, planting time varies as one goes North or South. In the extreme South, most flower seeds may be planted through the winter months but this calendar is based on the middle South or Cotton Belt, about the latitude of Macon, Ga., Tuscaloosa, Ala., Greenville, Miss., Dallas, Texas. South of this latitude planting will be earlier and in the upper South of course later. New York-Chicago latitude averages about one month later; Ohio River territory about 15 days later.

This table is for middle South climate and conditions. Allowances must be made. It is only a general guide. Abbreviations: T, tender; H, hardy; H H, half-hardy; A, annual; B, biennial; P, perennial. Months are numbered: 1, January; 2, February, etc. *Following name denotes flowers suitable for rock gardens, which may be planted from seeds. Others may also be used.

Depth of planting may be slightly varied with soil density—that is, on light or sandy soils seeds are planted slightly deeper than on heavy or clay soils. The calendar is based on medium garden or medium loamy soils.

For earliest flowers for home or market, plants need protection from late frosts and grow off much faster in loamy, well fertilized and prepared soil. Granulated Peat Moss, spread lightly over the seed bed, flats or pans, protects young seedlings from sun and drying winds, conserves moisture and keeps the soil from crusting.

NAME	Height of Plant	Shape of Plant	Color of Flowers	Good Cut Flowers	Best Use	Location Sun-Shady	Months to Plant	Months to Transplant	Blooming Months

HASTINGS' FRESH DATED SEEDS FOR SOUTHERN SOILS AND CLIMATE

Continued from page 50—Several flowers listed below may be temporarily unavailable and not offered this year!

In looking through these tables and descriptions and in choosing the flowers that will give the color effects, harmony, and balance for your garden you may know that the strains and varieties listed are the ones that are best suited to the generality of our own Southern soil and seasonal conditions.

From a long study involving thousands of miles of inspection and checking trips, with our own trial and experimental gardens, giving practical experience for many years, Hastings' is in a better

position to serve your needs than ever before and with the many new and interesting flowers you can depend on being up to date with the finest seeds available anywhere in the seed world.

Hastings' Seeds are all pre-tested in our own laboratories and are dated as well for your garden's protection. Whether you choose the old favorites or the new All-America selections, you get the best strains for Southern climate directly from Hastings.

OVER A HALF CENTURY OF HISTORY OF HASTINGS SEEDS

64 years ago, in October, 1889, H. G. Hastings, the founder of this business and its present active Board Chairman, began selling seeds and nursery stock in the little town of Interlachen, Florida (Putnam County), determined to offer the very best in existence for Southern soils and climate. Because good seeds and plants were very difficult to get the Hastings company prospered from the very start.

By 1896 and following the "big freeze" of 1895 when snow fell and the temperature dropped to about ten above zero, Mr. Hastings felt that good seeds and plants were needed all over the South and by 1899 he and his associates loaded everything movable and entrained for Atlanta, setting up in new quarters

in time for Spring 1900 business. Following two moves in Atlanta the business became rather permanently located on Mitchell Street at Broad and where it grew exceedingly well for 43 years.

Due to increasing local demands in other prospering Southern cities complete service retail stores were successively and successfully opened in Birmingham, Chattanooga and Charlotte. In the fall of 1949 with Broad Street extended through our properties we again moved to our new and most modern quarters at 93 Forsyth St., S. W., and at 434 Marietta St., N. W., in Atlanta, and from where we serve you today.

HASTINGS' "DIXIE STRAIN" FLOWER SEEDS

FLORISTS AND PLANT GROWERS NOTE TRADE PRICES IN OUNCE AND PART OUNCE PACKAGES!

In over sixty years of experience in serving Southern gardeners we have consistently bred and selected strains as well as varieties of flowers and vegetables that are best suited and acclimated to our Southern conditions. These following pages are filled with tested and proven kinds for your garden—new All-America winners; yes and better strains of Mother's and Grandmother's

day favorites. Under the supervision of Mr. Donald Hastings, we conduct the Southern regional flower, rose and vegetable All-America test gardens; therefore we believe we are better equipped to serve you than any other firm in the entire world. Let us prove it now for this year. Hastings' Seeds come in safety sealed packages each dated when filled.

Attractive Plantings Call for the Finest, Truest, Most Uniform—Hastings' Strains—of Flower Seeds, Bulbs and Plants.

HASTINGS' FLOWERS

Flower Seeds Bulbs and Nursery Stock for Spring Planting are described on the following pages. For Hedges, Evergreens, Shrubs, Trees and other Hardy Outdoor Nursery Stock, see pages 73-80. In the listing of flower seed the following abbreviations are used: TA. Tender annual. HA. Hardy annual. HHA. Half hardy annual. HB. Hardy biennial. TP. Tender perennial. HP. Hardy perennial. ★ means dwarf growth suitable for rock gardens or similar situations.

Planning the Garden

Make a plan for final or lasting results. Unsightly places, as back yards, fences and house foundations should be screened from view—all other views left unobstructed except by low-growing plants. Plan to show off the home as a pleasing sight. Don't jump in and patch up your place for immediate results. Plan to add to the beauty of your home each year.

There is nothing mysterious about success with flowers. They require care and common sense. The work cannot be left to a farm hand. It must receive careful personal attention. By observing the following rules you will have little cause for failure.

Remember, that with the best plants and flowers your garden will be the show place of the community.

Directions on Packets

Planting directions are on each packet of seeds we send you. Most flowers are easy to grow if we use these simple directions.

Planting the Seed

Make the surface as fine and smooth as possible. Cover each kind of seed to a depth proportionate to its size; very small seeds, like petunias, should be merely sprinkled on the surface of the ground, and barely covered with Peat Moss or vermiculite; press the soil down firmly over the seeds with a brick or a short piece of board. For larger seeds the depth should be regulated according to the size of the seeds, those the size of a pinhead, 1/4 inch deep, and those the size of a pea, 3/4 of an inch or more. Get a piece of lath (it would be better if planed smooth) about two feet long, press the edge down into the soil evenly, so

Dahlia Plantings of Conrad E. Faust, Past President Georgia Dahlia Society, Atlanta

as to make a groove as deep as the seed is to be planted, scatter the seed along this, allowing 4 or 5 of the larger to 15 or 20 of the smaller seeds to the space one plant is to occupy when grown. Cover the seeds by pressing; turn your lath flatwise and press the soil down firmly. On light, sandy soils flower seeds should be covered twice the depth that they should be in stiff or heavy clay soils. Cover all seed beds lightly with vermiculite to get good results.

Sowing in Boxes

Many flowers will stand transplanting. Many of them grow better for having been transplanted. In sections liable to late spring frosts or where drought comes in spring, it is advisable to sow seeds in shallow boxes which can be placed in a warm, sunny window or on a porch. This is always advisable with the expensive seeds and those of a tropical nature, such as coleus, salvia, etc. These need a warm soil to start the seeds. Sow the same as in open ground, and keep the soil moist, but not soaking wet. If surface of soil shows tendency to cake or crust sprinkle peat moss vermiculite or sand lightly over the surface. Small seeds cannot force their way through a crusted surface. As soon as plants reach a height of 2 to 3 inches they may be transplanted, taking as much earth as possible with each plant, so as not to disturb the roots more than necessary.

Drainage

Almost all flowers thrive best in well drained beds that do not hold excess moisture to sour the plant roots. Dig out the beds 18 to 30 inches deep to penetrate the subsoil so water can pass quickly through after heavy rains. Fill in with rich mellow loamy soil, vermiculite and peat moss as this retains the right amount of moisture for the plants' needs, even during drought.

The Soil

A mellow loam, which is a medium soil between the extremes of clay and sand, enriched by a compost of old manure and leaf mold, peat moss, vermiculite or peat humus, is adapted to the generality of flowering plants. Previous to planting flower beds or borders care must be taken that they are so arranged that the ground is a little elevated in the middle, allowing the water to run off, this also shows off the plants to better advantage. KRILIUM (P. 95) makes tight soils loamy.

Seed Varieties

Most kinds of flowers are represented by several varieties. They may not only be different in color but may also be of different types, shapes or heights. Note these differences, in our descriptions, so to order varieties best suited to your garden.

STRAINS are frequently mentioned. After a new variety is introduced, good seed growers select ideal plants for seed stocks. These develop ideal or improved strains. Each year should show some further improvement; more true, more ideal, stronger, healthier plants and more or better flowers. Extra care, pulling out all off-type plants, experienced help in every seed growing operation, make the finest strains much more beautiful and satisfactory than common field-run seeds. Naturally you get the finest strains from Hastings in Atlanta. Remember, cheap seeds may sprout but best seeds produce best crops—or flowers.

BUY FRESH SEED — ORDER DIRECT FROM HASTINGS — IN SAFETY SEALED BAGS

BRIGHTEN YOUR GARDEN IN 1954!

(4216) Alyssum, Royal Carpet, 25c

Amaranthus—For Summer TA. VERY SHOWY ANNUALS

Annual plants, grown for foliage and the showy flower.

4232 CAUDATUS—Love Lies Bleeding. Stiff, erect growth, 3 feet high; numerous sprays of rich crimson red flowers hang gracefully over, giving the romantic name of "Love Lies Bleeding." Pkt., 15c. Oz., 60c.

4234 TRICOLOR. Joseph's Coat. Old favorite with a profusion of brightly colored leaves making showy display. Pkt., 15c. ½ Oz., 75c. Oz., \$1.40.

4245 MOLTEN FIRE—Combustion Plant. Showy leaves like fountain of Molten Fire; variegated bright red shades, on 3-ft. erect plants. Superb showy plants. Pkt., 25c. ¼ Oz., 70c. Oz., \$2.40.

FOLIUM INSTANT FERTILIZER

Absorbed through leaves or roots spray on foliage for quick results. Lb., \$1.25. Postpaid.

(4234) Amaranthus "Joseph's Coat", 15c

ALYSSUM—For Sunny Places HHA. HP. MASSES OF BLOOM

Free flowering, mostly annuals of quick growth, beginning to bloom in early spring and continuing for a long time. Excellent for borders and flower beds; as they are of close, compact growth and even in height. All are covered with a mass of bloom. Sow seed thinly, in shallow drills.

★4216 ROYAL CARPET. 1953 ALL AMERICA. Very Dwarf, compact making a spreading carpet of royal purple. Pkt., 25c. 3 for 60c. ½ Oz., \$2.50. Oz., \$4.80.

★4212 CARPET OF SNOW—Procumbens. Grows only 2-3 inches tall, very compact, spreading ground cover. Pkt., 15c. ½ Oz., 75c. Oz., \$1.20.

★4220 LILAC QUEEN—6 in. deep lilac. compact growth. New! Pkt., 15c. ½ Oz., 90c. Oz., \$1.50.

★4214 LITTLE GEM—4 to 6 in., white. Compact growth. Pkt., 15c. ½ Oz., 60c. Oz., \$1.00.

4217 SWEET ALYSSUM—12 in., white. Pkt., 15c. Oz., 75c.

★4226 PERENNIAL ALYSSUM—Saxatile Compactum. Called Gold Dust and Basket of Gold. Grows 9-12 in. tall, compact, old gold or deep yellow flowers in profusion. Good for edging and rockwork. Hardy. Pkt., 25c. 5 for \$1.00.

ANAGALLIS—PIMPERNEL HHA. QUITE COLORFUL

PIMPERNEL—A rainbow of color with blue predominating. Grows 10 to 12 in. high, and blooms profusely.

4280 GRANDIFLORA MIXED—Pkt., 15c. Oz., 80c.

AGERATUM

HHA. FINE FOR BORDERS

A great favorite garden flower for bedding and borders in the South. Native of Mexico that easily withstands heat of our summers. It blooms all summer, also if seed is sown in the fall it makes splendid box or pot plants for winter. Sow seed in open ground in April, or earlier in boxes for transplanting. Plants grow 12 to 18 in. high, with light green foliage and many clusters of small, tassellike flowers. Dwarf Ageratum grows 4 to 8 in. high. Just about the most satisfactory annual in the garden, delightful with Rosy Morn Petunias.

4140 BLUE AND WHITE MIXED—12 in. Pkt., 15c. Oz., 75c.

4142 BLUE MEXICAN—12 in. Pkt., 15c. Oz., 75c.

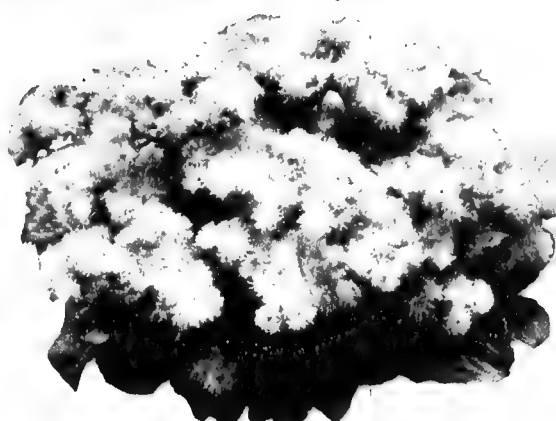

4148 WHITE IMPERIAL—12 in. tall. Pkt., 15c. Oz., 75c.

★4152 BLUE BALL—4 in. Pkt., 15c. Oz., \$1.40.

★4144 NEW MIDGET BLUE—All-America Silver Medal Winner. 3-4 in. Low compact plant covered with small azure blue flowers. Pkt., 25c. ½ Oz., \$1.60. Oz., \$3.00.

California Mixed Wild Flowers

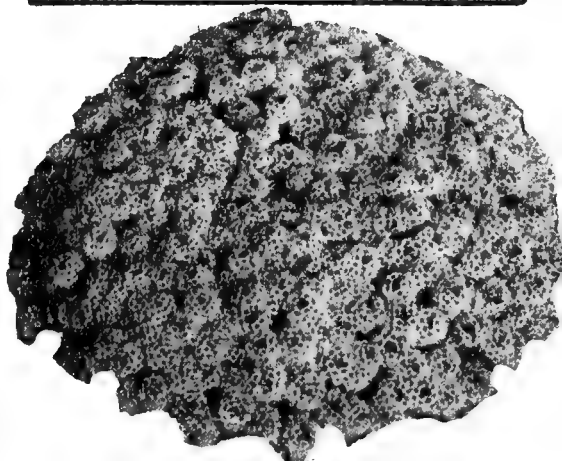

As most California flowers do exceedingly well in Southern Gardens this glorious mixture of 30 choicest varieties should be literally a bower and riot of color for a mixed flower bed, or for roadside and vacant lot plantings. A lovely range of color to brighten any situation and make beautiful almost any unsightly place. **5070**—Pkt., 15c. Oz., 60c. ¼ Lb., \$2.00. Lb., \$6.75.

(4144) Ageratum Midget Blue, 25c

7840 Mixed Flower Garden

A grand mixture of nearly 100 varieties of easily grown annuals for the children's garden, for school gardens, roadside plantings, or for beautifying vacant property. Many reseed themselves to come back for many years, making a real investment in beauty. A treasure chest for Garden Clubs in civic projects. Pkt., 15c. Oz., 60c. ¼ Lb., \$2.00. Lb., \$7.00. Postpaid.

THE SOUTHERN GARDEN BOOK

The "Know How" of
Gardening in Dixie

Thousands of gardeners throughout the South have bought this grand new book recommended by recognized authorities as the best ever written for the South. We believe it will save its cost every season you garden. Filled with sound, practical "know how," this book by Louise and Donald Hastings covers the entire field of flowers, shrubs, trees, fruits, vegetables and even "Flower Arrangements." Published by the famous Doubleday & Co. of New York. Include it with your order to better plan and understand your garden. \$4.95 each. Postpaid. Makes ideal gift!

(Your Order of a Dollar Keeps Your Name on Hastings' Mailing List)

NEW SNAPDRAGONS—HUGE FLOWERS, SPIKES

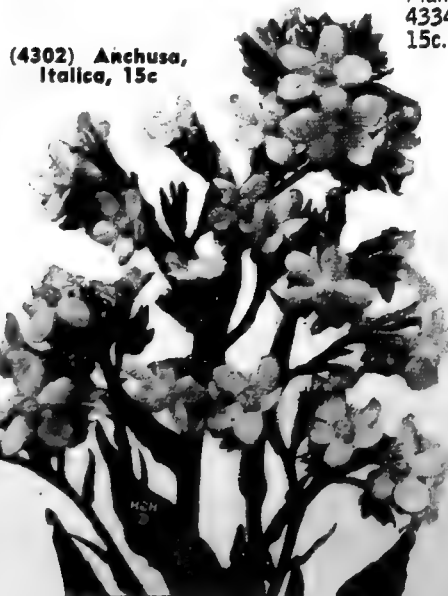

(4470) Columbine,
Long Spurred, 35c

(4520) Arctotis, 25c

(4334) Anthemis Kelwavi, 15c

(4302) Anchusa,
Italica, 15c

4400 Maximum Rust-Resistant MIXED GIANT SNAPDRAGONS

ALL-AMERICA SELECTION Certificate of Honor, All-America Selections. Finest tall, Snapdragons, now about 85% "rust-proof" and latest improved strains. No rust has been found on them in our plantings. Pkt., 20c. ¼ Oz., \$1.25. Oz., \$4.00.

AQUILEGIA—COLUMBINE

HP. Prolific bloomers, choicest cut-flowers on long, wiry stems. Garden and border subject; about the easiest perennial to start from seed. Light, airy foliage, graceful and our Long Spurred Hybrids are a greatly improved Mrs. Scott Elliot's strain, most expensive but finest of all. Bloom first year from seed if started early, transplanting outside in early spring.

4472 BLUE-SHADES—Long Spurred Hybrids. Pkt., 35c. ¼ Oz., \$1.20. Oz., \$4.00.

4470 HASTINGS' LONG SPURRED HYBRIDS—Mixed Colors, with long spurs finest Columbines in existence. Pkt., 35c. ½ Oz., \$2.25. Oz., \$4.00.

ARCTOTIS—AFRICAN DAISY HA.

AFRICAN DAISIES — Appearing like refined and colored Shasta Daisies and about the same size, these 2-ft. branching plants with dandy cutting flowers are summer bloomers. 4524—GRANDIS—White, blue under petals. Striking and lovely contrast. Pkt., 15c. ½ Oz., 80c. Oz., \$1.40.

4520 HYBRIDS—Hastings' beautiful autumn colors for something exquisitely different. New art shades mixed. Pkt., 25c. ½ Oz., \$1.60. Oz., \$3.00.

ANCHUSA HA. HP. (Plants, p 70)

Popular blue flowers. There are two types, the hardy annual and hardy perennial Italica. Both have beautiful Forget-Me-Not type blue flowers but larger.

4292 BLUE BIRD—HA. Fine, compact, free growing hardy annual. 18 in. high with lovely sprays of indigo blue flowers appearing early and continuing profuse blooming all summer. Pkt., 15c. ½ Oz., 60c. Oz., \$1.00.

4302 ITALICA—Dropmore Variety. The newest and finest; valuable and beautiful hardy border perennial. Grows 3 to 5 feet tall in partial shade and in May and June is covered with sprays of the richest gentian-blue flowers. Valuable blue flower, one of the finest hardy perennials. Pkt., 15c. ½ Oz., 60c. Oz., \$1.00.

ANTHEMIS—Hardy Golden Marguerite

HP. Chamomile—Hardy Golden Marguerite. Finely cut, fern-like foliage with yellow daisy-like flowers from May to October. Valuable for cutting as well as popular for borders. Plants on page 70.

4334 KELWAYI—15 to 24 in. tall; fine for cutting. Packet, 15c. ½ Oz., 60c. Oz., \$1.00.

CORAL VINE—Climbing Antigonon

4338 A. Leptopus. Mountain Rose, TP. Tender but vigorous growing vine blooming gorgeously in late summer and fall in showy racemes of clear pink flowers. Pkt., 25c. Oz., \$2.00. Ready to grow Tubers \$1 ea. 3 for \$2.50. (Page 73).

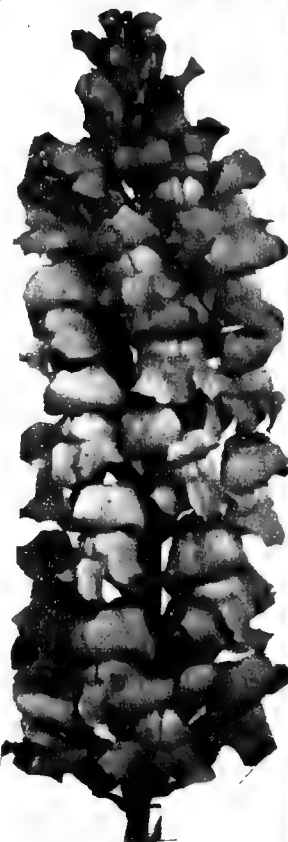

When you buy your seeds from Hastings they are shipped fresh in sealed packages.

FULTON'S
PLANTABBS
Odorless Plant Food Tablets
Containing Vitamin B₁

The new miracle working plant food and vitamin that is making possible so much finer flowers and plants indoors and outdoors. We recommend it to you. 30 tablets, 30c. 75 for 60c. 200 for \$1.25. Postpaid.

CULTURE

HHP; treat as HA. Maximum Snapdragons far surpass anything yet introduced, both for magnificent size and in height. 2-3 ft. Sow very early in boxes or frames, transplanting in sunny position outside when soil is warm. Give loamy, well-drained soil and plenty of water; set plants 1 ft. apart. Mulch lightly with vermiculite to keep soil from baking and crusting. Give supplemental feeding with foliage type fertilizer — FOLIUM — (Lb., \$1.25) to insure really giant size flowers on the tallest spikes and with the richest color tones. Later plantings are made directly in well prepared beds.

(4400) Rust-Resistant
Snapdragon, 20c

NEWEST SNAPDRAGONS

ANNUAL PHLOX for Summer Blooms

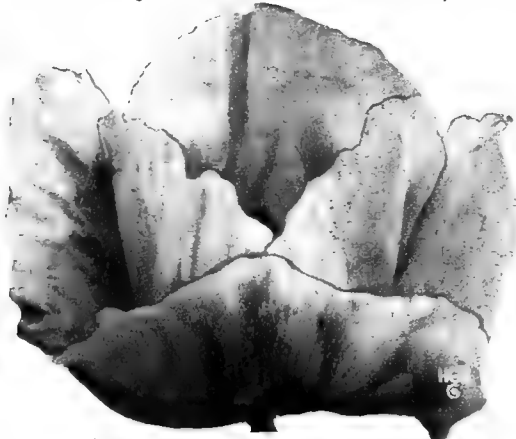

Annual Phlox

PENSTEMEN HP

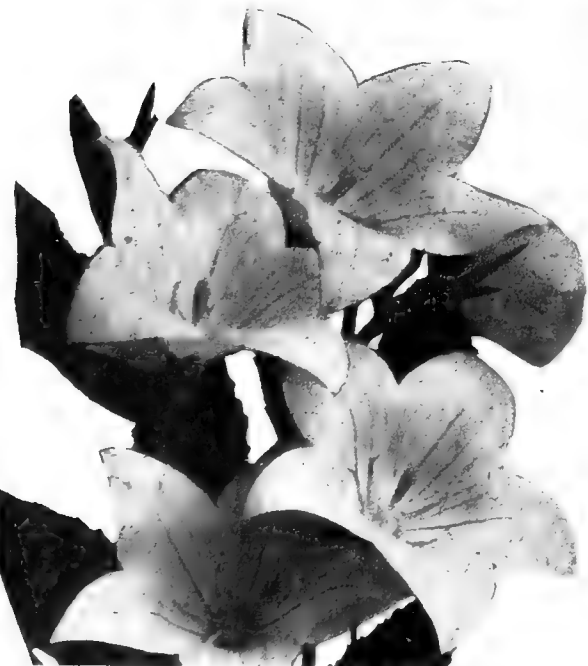

8150 SENSATION IMPROVED—2 ft. Mixed colors. Pkt., 35c. Oz., \$4.00.

Phacelia—California Blue Bell

8252 CALIFORNIA BLUE BELL—HA. 10-18 in. early, long blooming annual with gentian blue flowers having white anthers. Pkt., 15c. Oz., 80c.

(8430) Giant Oriental Poppy, 25c

(8312) Platycodon, 35c

PHLOX DRUMMONDI GRANDIFLORA—HA

CULTURE—Annual Phlox grow most easily on most any type of soil, quickly giving a mass of beautiful blooms. Broadcast seed as soon as soil can be worked, cover ¼ in. and firm soil. Thin to 4 in. apart. A sunny position is desirable. Widely used to plant in bulb beds and borders to flower in summer after bulbs have died.

8261 GIGANTEA ART SHADES MIXED—Newest, huge flowered heads of bright colors. Pkt., 15c. ¼ Oz., \$1.00.

8263 ROSY MORN. A bright color combination of deep rose pink with a white eye. Pkt., 15c. Oz., \$2.00.

8267 SALMON GLORY—Another winner of giant size. Color, deep salmon with white eye. Pkt., 15c. ¼ Oz., \$1.00.

8268 NEW RED GLORY. Brilliant color for your garden. Pkt., 15c. ¼ Oz., \$1.00.

8312 PLATYCODON BLUE HB.

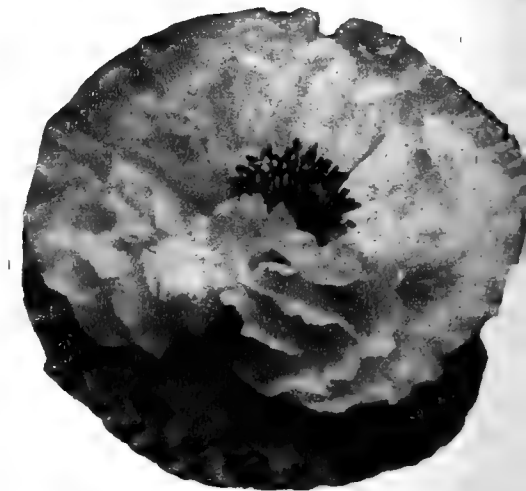

Chinese Bell Flower. Dainty bell shaped flowers borne very profusely on hardy plants. Pkt., 35c.

(8295) Chinese Lantern, 25c

(8370) Hardy Single Shirley Poppy, 10c

(8380) Hardy Double Shirley Poppy, 15c

BLAZING SCARLET Summer SALVIA

Beds of Fire All Summer

8766 Blue Salvia—Farinacea

BLUE BEDDER. HHP. New and unusual bright blue salvia for massive bedding effects, lasting all summer. Nice stems for cut flowers. Pkt., 35c. 1 for \$1.00. 1/4 Oz., \$2.00. Oz., \$6.00.

PORTULACA—SUN PLANT

Even Grows Best in Hot Sun

A. 6 in. Luxurious, free-flowering all summer, with brilliant waxy colors for beds, borders and edgings. It is frequently used for covering rock-work and sunny banks, when the seed is sown broadcast. Brightest color range.

8450 SINGLE MIXED PORTULACA—The most brilliant color display of all. Pkt., 15c. Oz., \$1.60.

8440 DOUBLE MIXED PORTULACA—The richest colors imaginable. Flowers do not close as quickly as the singles. Pkt., 25c. 5 Pkts., \$1.00.

PYRETHRUM—Painted Daisy

580 HYBRIDS, MIXED—HP. Daisy-like colorful flowers above lacy foliage. Blooms with cut flower stems in April-May. (Plants on page 72.) Pkt., 25c. 3 for 60c. Oz., \$3.00.

8590 QUEEN ANNE'S LACE

Lovely old favorite to grow for cut flower arrangements, either natural or dyed bright colors. Spreads rapidly from seed, so keep in bounds. Pkt., 10c. Oz., 60c.

8780 SANVITALIA TA.

6 in., spreading. Double procumbens. Small, 1-in. perfectly double, showy flowers of richest deep yellow—resembling little button Chrysanthemums. Blooms in 6 weeks, lasts all summer. Pkt., 15c. Oz., \$2.40.

"GLOBE OF FIRE"

RED SALVIA—Scarlet Sage

2 ft. TA. Universally popular. A strong grower and free flowering beauty, bearing long spikes of intense scarlet bloom from mid-summer till frost. It delights in the warmest, sunniest situations. Sow seed after trees are in full leaf and the ground is warm, but may be started earlier in boxes in sunny windows for transplanting. A bed of Salvia will give a perfect blaze of scarlet. Salvia is admirably adapted for glowing red beds, borders and sunny porch and window boxes.

8755 GLOBE OF FIRE, AMERICA—Compact, bushy, showiest display. Pkt., 35c. 4 Pkts., \$1.00. 1/2 Oz., \$2.20. Oz., \$4.00.

SALPIGLOSSIS HHA.

PAINTED TONGUE—2-4 ft. Aptly called the Orchid of annual flowers. Start seed indoors or in hotbed for transplanting 12 in. apart outdoors when the frost danger is past, or sow outdoors when warm.

8730 GLOXINIA FLOWERED—Mixed gold veined varieties. Pkt., 20c. Oz., \$1.00.

SAPONARIA (Baby's Breath)

8795 VACCARIA ROSE—HA. 2 ft. Attractive, quick flowering, bushy, branching plants; long, wide leaves beneath flower panicles of large, 1/2-in., glorified Baby's Breath flowers. Artistic, airy cutting flowers of glistening rosy pink cover all of plant. Make successive sowings for a continuous supply. Pkt., 10c. Oz., 40c.

CASTOR OIL BEAN

Ricinus—Mole Bean TA.

8620 PALMA CHRISTI—Large tropical plants grown for highly ornamental foliage. A plentiful supply, grown near the garden, is said to keep away moles. Plant in open after ground gets warm, 3-4 ft. apart. This is the bean from which castor oil is made, but do not eat the raw beans. 5-10 ft. high; fine for massing or center plants in beds. The beans are brilliantly colored. Ornamental Mixed. Pkt., 10c. Oz., 35c. 1/4 Lb., \$1.00.

(8755) Salvia Globe of Fire or Scarlet Sage, 35c

9042 PERENNIAL CASPIA—Delicate artistic earliest bloomer and huge sprays; lilac or light mauve. Pkt., 15c. Oz., \$1.60.

HARDY DOUBLE STOCKS HA.

DOUBLE EARLY GIANT IMPERIAL—The Stock is one of the most popular annuals for bedding or pot culture; for brilliancy and diversity of color, fragrance, profusion and for long blooming it is unsurpassed. These give you many blooms in late summer and early fall. Our percentage of doubles equals the best European pot-grown strains.

GIANT IMPERIAL STOCKS

9070 MIXED—Giant Imperial, perpetual branching Stocks in many shades of pink, blue, white, red, violet, lavender and yellow. Pkt., 35c. ¼ Oz., \$1.25. Oz., \$4.00.

9074 FIERY BLOOD RED—New, meritorious. Pkt., 35c. 4 for \$1.00. Oz., \$4.00.

Gardener's delight and a florist's necessity! Pkt., 15c. Oz., 30c. 1/4 Lb., 90c. Lb., \$2.70. Postpaid.

SEPARATE VARIETIES CUTHBERTSON
GIANT SWEET PEAS

9281 COLINE. Vivid scarlet.
9282 EVELYN. Salmon pink.
9283 FRANK G. Rosy lavender.
9284 JANET. Pure white.
9285 LOIS. Rose pink.
9286 TOMMY. Clear blue.

Prices separate varieties: Pkt., 15c. Oz., 35c.
1/4 Lb., \$1.00. Lb., \$3.00. Collection one pack-
et each all six above and inoculation, all for
79c. (\$1.05 value.)

SUPERB NEW EXTRA EARLY FLOWERING SWEET PEAS

BRUSHING OR FENCING NOT NECESSARY

Especially adapted to greenhouse culture and out-
door winter planting in the lower South and early
spring planting elsewhere. They bloom about two
weeks sooner than Spencer Sweet Peas, and al-
most as freely. Flowering earlier, they have that
much longer to bloom before hot weather. Bushy
growth. Medium hardy.

9200 Hastings' Finest Early Flowering Mixed Sweet Peas

Just the right proportion of many different
varieties to produce the most pleasing and
harmonious color effect. Pkt., 15c. Oz., 30c.
1/4 Lb., 90c. Lb., \$2.45. 5 Lbs., \$11.25.

9206 FLORIST'S BLUE—New Deep Blue. Very
pleasing and best of the blues.

9212 GRENADIER—Fiery Scarlet. New beauty,
very striking; wavy petals.

9214 CASCADE—White. Outstanding sensation-
al, new fashionable white.

9216 MEMORY—Lavender. Exquisite color and
one of the largest flowers of all.

9226 SHIRLEY TEMPLE—Soft Rose Pink. New,
daintily frilled; finest of all.

Great vigor, stem length and size.

PRICE EACH VARIETY: Packet, 15c. Oz., 50c.
1/4 Lb., \$1.50. Lb., \$4.00.

Special Early Flowering Sweet Pea Collection Offer—75c

One Packet Each of Florist's Blue, Grenadier,
Shirley Temple, Cascade, Ball's Orange, Mem-
ory—and inoculation—\$1.05 worth—for only
75c. Postpaid.

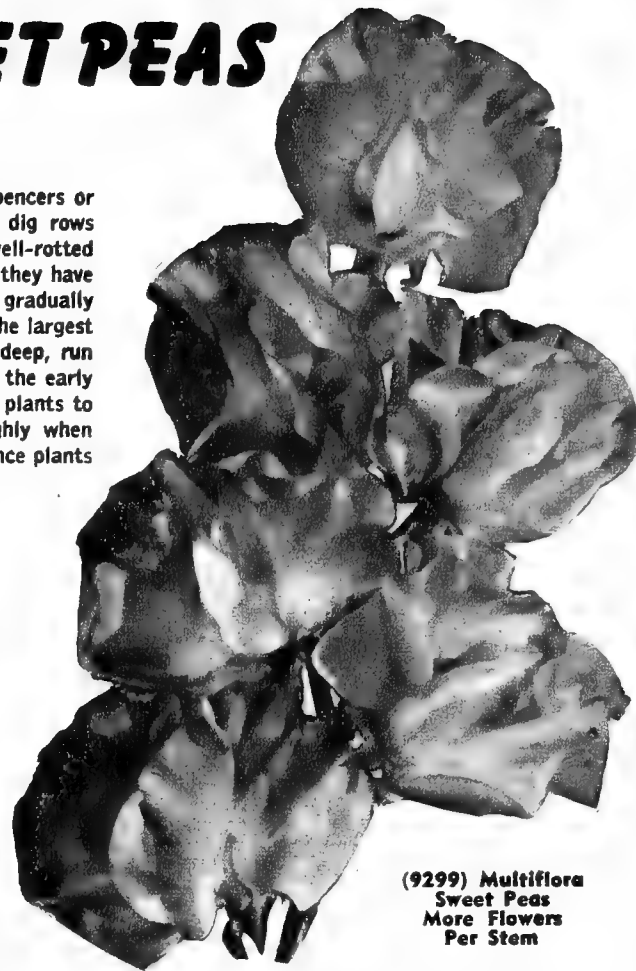

7320 HARDY SWEET PEA—Lathyrus. 10 ft.
Lasts for years. Mixed—Pkt., 20c. Oz., \$1.60.

CULTURE: Plant in rows. Stake late Spencers or
run vines on wires. For long flowering, dig rows
out 12 inches deep, fill in 6 inches with well-rotted
manure and soil mixed, drop seeds after they have
been inoculated, and cover 2 to 3 inches, gradually
filling trench as growth starts. To grow the largest
flowers, plant early in good soil worked deep, run
rows north and south if possible, remove the early
growth of all but two branches and thin plants to
at least 6 inches apart. Water thoroughly when
needed. Culture on each package. One ounce plants
50 feet of garden row.

9299 NEW MULTIFLORA GIANT SWEET PEA

More giant flowers crowded on each
stem. Outstanding new introduc-
tion from many years' selections.
Plant a trial early! Pkt., 45c. Oz.,
\$3.50.

HARDY PERENNIAL PLANTS

★ Perennials especially adapted for rock gardens are marked with ★ preceding the name. Others may also be used, however.

EASILY GROWN PERENNIALS FOR YOUR DIXIE GARDEN

Too little have we availed ourselves of the marvelous groups of perennial plants in our Southern gardens.

Some of the choicest beauties belong to this perennial group and to their lovely charm is their added value in being long lived, coming back again, year after year, and really more beautiful as they grow older and larger.

Our suggestion for the generality of perennial plants is to provide rather rich, well drained beds that will grow other flowers nicely, mulching them moderately with peat moss or other good humus or vermiculite. (see page 95).

The secret of growing most of these plants successfully is to group them rather closely so that they shade each other's roots, using care not to smother small growing kinds with large growers. Many of our best Southern gardeners plant these large perennial groups of such as hardy phlox hardy asters, peonies (in upper South only), iris, hemerocallis, hardy salvia, and chrysanthemums in strategic places in the garden beds, filling in between with annuals, other smaller growing perennials, and also varied bulbs, planning of course for color harmonies upon a seasonal basis for greater beauty.

PLANTING PERENNIALS

The plants on these pages respond best to moderately rich, loamy soil, with good surface and subsoil drainage. Feed with FOLIUM. 1 Lb., \$1.25. Postpaid.

1954 PRICES

1954 PLANT PRICES POSTPAID—50c plants are any 3 for \$1.25. 12 for \$4.45. 55c plants are any 3 for \$1.45. 12 for \$4.95. 60c plants are any 3 for \$1.50. 12 for \$5.45. 75c plants are any 3 for \$1.95. \$1.00 plants are any 3 for \$2.50.

GLABRA. Great Asiatic broadleaf 10-ft. evergreen with large leaves of rich shiny green. Effectively used for tall foundations, screens, groupings and massing. New foliage bright bronze. Mail size, \$1.25 each. Delivered.

SERRULATA. Very conspicuous, fast-growing. Young growth and foliage reddish, changing rich shining green, showing both colors throughout the season. Leaves long and beautifully serrated. Splendid for backgrounds, screens, specimens and tall groupings. Mail size, \$1.25 each. Delivered.

GENUINE EVERBLOOMING GARDENIAS

Grow Your Own Fragrant Corsages!

GARDENIA FORTUNEI. This magnificent new heavily doubled, giant flowering evergreen sensation has become the envy of all who see them because of their added attribute of a greatly extended blooming season during the summer and again in autumn when choicest flowers are rare and florist gardenias are selling at prices of a dollar or more. And they are choicest evergreen shrubs to grace any home planting. Just think—for a modest price you can grow your own corsages—have real, live richly fragrant gardenias, when others are wearing artificial ones or are doing without. We have sold many thousands of these superb evergreen shrubs during the past several years and again offer well rooted plants at the low price of 69c each; 5 for \$2.69; 10 for \$4.69.

BEST EVERGREEN CONIFERS

SOUTHERN JUNIPERS

ASHFORD. Juniperous communis ashfordi. Tall, columnar growth and very resistant to adverse conditions. Special mail size, \$1.25 each; 3 for \$3.25. Delivered.

TSUGA • Hemlock

TSUGA CANADENSIS. Beautifully shaped deep green tree for lawn specimen, background or may be trimmed severely into shapes as for hedges. Fast displacing Cedrus deodara in upper South. Special mail size, \$1.50 each. Delivered.

ARBORVITAE

BONITA. T. orientalis, Bonita. Similar to Dwarf Golden except foliage is bright, rich green with no golden tinge. Special mail size, \$1.25 each. Delivered.

DWARF GOLDEN. Berckman's Golden. T. orientalis aurea nana. Most desirable dwarf conifer and popular for urns, tubs, boxes, and general plantings. Very compact, rounded cone shape. Foliage bright green, deepening to bright golden green. Special mail size, \$1.45 each. Delivered.

GOLDSPIRE. T. orientalis aurea conspicua. Compact, erect, pointed tree, 15 to 20 ft. tall, retaining its branches near the ground. Foliage is deep golden yellow. Special mail size, \$1.45 each. Delivered.

SEE PAGES 93-95 FOR AIDS TO BETTER GARDENING

PFITZER JUNIPER

J. Chinensis pfitzeriana. Branches are long, graceful and densely furnished with very dark green, plume-like foliage. It withstands severest pruning if it outgrows its location. Most frequently used for edging large plantings, for banks and as entrance markers for driveways and walks. Often used as specimen plant markers and in foundation plantings. It stands the smoke, soot and dirt of the city. It is a sturdy, hardy grower, most satisfactory for small and large plantings. The indispensable evergreen.

Special mail size, \$1.25 each; 3 for \$3.25; 12 for \$11.95. Delivered.

CEDARS

DEODAR or INDIAN. Cedrus deodara. Attains over 50 ft. in height, lower branches gracefully sweeping the ground. The shape is pyramidal, growing more stately with age. Succeeds admirably in this climate. Magnificent. Mail size, \$1.25 each. 3 for \$3.25.

Retinospora • Chamaecyparis

PLUME. C. pisifera plumosa. It grows 15 to 20 ft. high, with somewhat pendulous branches. The bright grayish green, finely-cut foliage has a plume-like, feathery appearance, quite similar to a finely cut fern frond. Mail size, \$1.25 each.

VIRGINIA CEDARS

PECANS... DIXIE'S SAFE INVESTMENT

Hastings' Pecans for Your Table

N4 GIANT MAHAN Largest of all pecans, nearly double size of any other. Good quality thin shells and fills out well on good, moist land. Special, postpaid. Strong trees, \$2.75 each. 3 for \$7.45. 12 for \$27.75.

N6 Stuart Pecan Nuts large to very large, 1 3/4 to 2 in. long; dark color. Shell is medium thin and of very good cracking quality. Kernel is full, plump and bright in color. It is a heavy bearer and is about the best paying variety of all. Good quality. Hardest to grow farther north and we consider this now the most popular of all Pecans. We recommend it.

N8 Schley Pecan Nuts medium to large, 1 1/2 to 1 7/8 inches long, oblong, somewhat flattened and light reddish brown in color. Thin shell separating easily from the kernel, which is full, plump, bright in color, nutty and rich in flavor with the best quality.

N10 Moore Pecan Nuts small medium. Oblong, thin shelled and quality are very good. Dependable bearer. Gives good crops every year, even when others have light crops. Fine in sandy soils and in sections of Florida where pecans can be grown.

N12 Success Pecan Well named; large size, oblong, tapering to the apex. Color is reddish brown with purplish markings. Shell is thin, partitions are thin and cracking quality good. Kernel is large, full, plump, yellow in color. Fine to pollinize other varieties nearby.

PRICES—LIVELL TREES—Planting Depth Marked on Each Tree
Make Your Own Choice of Separate or Assorted Varieties

DELIVERED—2-3 ft. budded trees, \$2.49; 3 for \$6.49; 6 for \$11.49; 12 for \$20.49; 25 for \$39.49. Set trees 60 feet apart—12 per acre.

Special Collection Offer Hastings' Livewell Pecan Trees, Delivered to You for \$10.95.

Although the supply of good pecan trees is critically short of demand we do have a limited number of fine, vigorous young trees (more easily transplanted than larger trees) and offer, for early orders only, one choice 2-3 ft. tree each of the above five superb varieties—Stuart, Moore, Schley, Success and Giant Mahan—delivered postpaid for \$10.95. (A \$12.71 value.)

JAPANESE WALNUT. Sweet meats in fairly thick shells. \$1.00 each.

BLACK WALNUT. Favorite for nuts or shade. 75c.

HASTINGS' CHOICE GOLDEN ROOT STRAWBERRIES (Ready Now)

HEAVY BEARING WINNERS FOR SOUTHERN GARDENS

BLAKEMORE. (Perfect.) Uniformly large, brightest red berries borne early, insuring bountiful supplies. Introduced by the U. S. Dept. of Agriculture. It has become one of the leading Southern varieties for home gardens and market.

MASSEY. (Perfect.) Giant sized new midseason variety, very strong and prolific. Large, bright, deep red, very firm yet juicy berries borne abundantly.

KLONDYKE. (Perfect.) An older variety heavily planted in the South where it has a proven record of success for many years. Early bearing on vigorous, upright growth. Klondyke is a real

money-maker. Handsome, large firm berries.

MISSIONARY. (Perfect.) Superb for light soils and growing in the Lower South. The great leader in Florida for early profitable crops. Berries well colored, large and firm.

TENNESSEE BEAUTY. (Perfect.) An exciting new Southern variety that is in great demand for home gardens and for markets. Richest red berries in profusion.

SUPERFECTION EVERBEARING. (Perfect.) Famous new everbearer that makes new plants freely. Large, smooth dark red very firm, sweet fruit. Best on heavy soil. Keep runners pruned.

ORDER TREES NOW

DELIVERED

3 for \$1.95 25 for \$12.95
12 for \$6.95 100 for \$47.50
Plant 27 Trees Per Acre (40 ft. x 40 ft.)

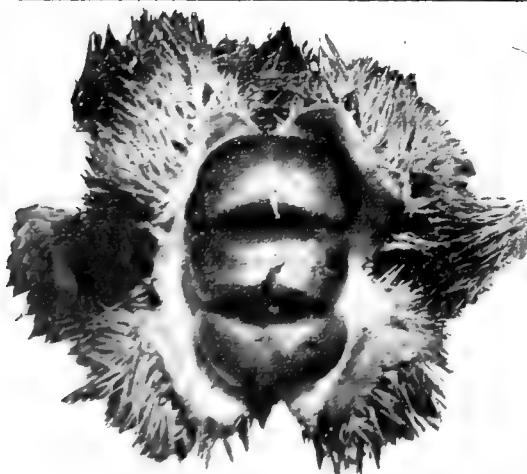

Extra Heavy Trees \$1.49 each.
3 for \$3.49. (Supplies Limited)

Plant now to get in on the ground floor. Harvest crops within 3 to 4 years—more and more as the trees develop. Successful everywhere that peaches or apples will grow!

Sweet, delicious, meaty nuts sell on sight and are even larger and sweeter than native chestnuts which have now all but completely disappeared. Authorities recommend setting trees 30-40 feet apart, planting 3 or more to insure crossing necessary for heaviest nut production in small plantings. Ideal for yard planting.

Commercial groves are producing heavy crops every year at good profits. Plant 27 trees per acre set 40 feet apart each way utilizing open spaces for summer and winter soil building legumes until trees are too large.

Always plant 2 or more trees for cross pollination.

CANNAS BLOOM ALL SUMMER LONG

CANNA CULTURE—Cannas thrive best in full sun, prefer good drainage but a very rich soil well supplied with thoroughly rotted compost and lots of moisture as soon as they are well started. Set roots 3 inches deep and 12-18 inches apart for a grand display to last all summer until frost. When frost has burned the tops they may be cut off close to the ground level and mulched heavily with pine straw or similar material to protect the roots from freezing which will destroy them. In colder areas it is best to dig the roots after first frosts, keeping them in natural clumps, with soil attached, in a frost free storage cellar.

HASTINGS' CHOICEST RED CANNAS

3130 KING HUMBERT—Fiery Red. 5 ft. Most popular and satisfactory Canna. Large, bronze heart-shaped leaves. Large, compact flower heads with ruffled or orchid blooms. 3 roots, \$1.00. 6 for \$1.75. 12 for \$3.25. 25 for \$4.95. 100 for \$14.95. Postpaid.

2170 PENNSYLVANIA—Scarlet. 5 ft. Similar to King Humbert except has green foliage. Orchid flowering with large petals and blooms. Flaming scarlet; tinged yellow in throat. 3 roots, 85c. 6 for \$1.55. 12 for \$2.45.

3205 THE PRESIDENT—Glowing Scarlet. 4 ft. Green stocky foliage; gigantic trusses well above foliage. Flame red and the huge petals look like silk crepe. Superior to any other red Canna. 3 roots, \$1.00. 6 for \$1.75. 12 for \$3.25. Postpaid.

HASTINGS' PINK CANNAS

3128 HUNGARIA—Bright Rose, 3½ ft. Green foliage; glorious heads of light rose pink. 3 roots, 85c. 6 for \$1.55. 12 for \$2.45. 25 for \$3.75.

3126 ROSE QUEEN—Salmon Pink. 4 ft. Green foliage; large heads of rich pink flowers. Grand salmon pink. 3 roots, 85c. 6 for \$1.55. 12 for \$2.45. 25 for \$3.95. Postpaid.

3216 CITY OF PORTLAND—Soft Pink. 4 ft. Huge trusses of massive pink flowers all summer. Best pink of all. 3 roots, \$1.00. 6 for \$1.75. 12 for \$3.25. Postpaid.

JAPANESE PEONIES

These graceful semi-double peonies are giving splendid flowers in the South. Try a few!

MIKADO. Crimson red. \$1.50 each.

MARIE JACQUIN. Semi-double white. Yellow stamens. "Water-lily peony". \$1.50 each.

DIXIE PEONIES

Plant peonies everywhere South except in coastal areas and in Florida. Set roots in fairly rich but well drained soils with exposure preferably to early morning sun in the deep South. Set the roots barely under soil surface. Feed with bone-meal and pulverized sheep manure for good results.

EDULIS SUPERBA. Pink. Mauve pink with silver reflex. Great Favorite. Early.

MONS. JULES ELIE. Double deep pink. Very beautiful.

KARL ROSENFELD. Red. Superb double red for showy results in your garden.

FELIX CROUSSE. Red. Brilliant crimson, fragrant. Midseason. Best Southern Red.

FESTIVA MAXIMA. White. Extra large, fully double, pure white with flecks of red in center. Best of all for Southern planting and recommended particularly for the Peony beginner.

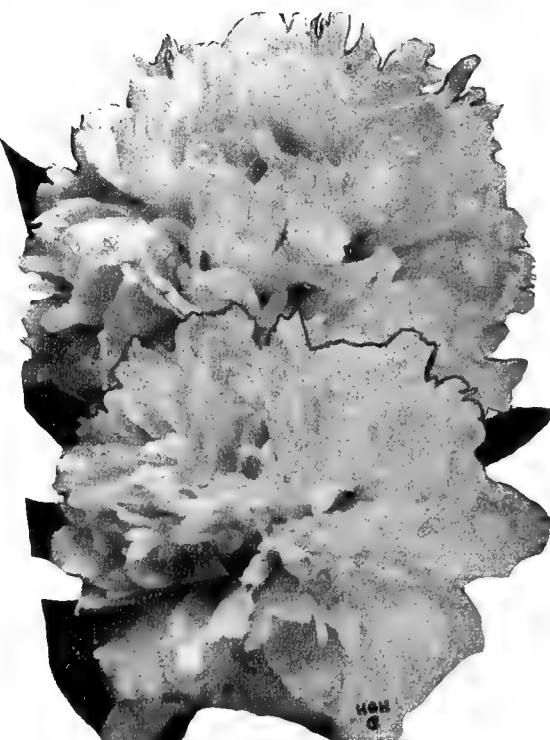

PRICES FOR DOUBLE DIXIE PEONIES

All varieties above, heavy divisions, your choice \$1.00 each; any 3 for \$2.75; any 6 for \$5.25; 12 for \$9.75. Postpaid.

Collection offer: One division each all 5 for \$3.95. Postpaid.

Giant Hybrid AMARYLLIS

THE WORLD'S GLAMOUR FLOWER

For Pots or
Outdoor Beds . . .

(2600) Giant
Hybrid Amaryllis

3060 Single Tuberose Bulbs CALLED EVERBLOOMING

Mexican Albino. Very fragrant. Strong erect habit of growth with long spikes of white flowers, though blooms are not as thickly placed on the spike, fragrance is quite intense and flowers are single. However, these bloom from old bulbs as well as new, giving blooms every year; so-called everblooming. Top Size Bulbs, 6 for \$1.00. 12 for \$1.75. 25 for \$3.25. Postpaid.

New Giant Flowering. Hardy in most of South outdoors; used as pot plants elsewhere. Enormous lily-like flowers in great heads on strong, leafless, 2 ft. stems. Large ribbon-like leaves come from the bulbs after blooming. No flower is more gorgeous. Plant November to April. Early very shallow planting best.

3040 Hybrid Amaryllis
Giant single flowering Bulbs. Mixed Colors Only—60c each. 3 for \$1.50. 12 for \$4.95. 25 for \$8.95. Postpaid.

3050 Double Amaryllis
HELEN HULL. This perfectly stunning new variety is now available in limited quantity and we are proud to offer you large blooming size bulbs this season. Huge, fully double, brilliant red flowers on tall stems for cut flowers or to leave in garden beds for brilliant display. \$3.95 each. 3 for \$9.95. Postpaid.

3004 Elephant Ear Caladium
Old fashioned giant Elephant Ear Caladium to grow in moist, shady beds. A long time favorite. Medium bulbs, 45c each. 3 for \$1.10. 12 for \$3.45. Postpaid.

3035 REGAL LILY The Best Southern Lily

3-5 ft. tall; June flowering. Generally considered the most beautiful and satisfactory of all Lilies. Easy grown most anywhere, producing 5 or more large white flowers, suffused pink and canary-yellow towards throat. Charming jasmine fragrance. Plant about 6 in. deep with sand beneath for drainage. We highly recommend Regal Lilies for the South. Large Bulbs—40c each. 3 for \$1.00. 12 for \$2.65. 25 for \$4.95. Postpaid.

3145 Milk and Wine Lily

Crinum Fimbriatum—Nassau Lily Evergreen, of easy culture in lower and middle South, outdoors; indoors or with winter protection farther North. Long 4-in. flowers in large showy umbels. Flowers handsomely striped white and wine or carmine. Monster bulbs, 90c each. 3 for \$2.25. Postpaid.

3006 Gloxinia (For Pots or Boxes)
Glorious pot plant easily grown from bulbs in good soil. Popular greenhouse flower. Mixed colors. 50c each. 3 for \$1.25. 12 for \$4.45. Postpaid.

3002 Fancy Leaf Caladiums

Colorful variegated foliage, with green and various color markings. 18 in. plants for pots and window boxes in shady places. Rare and fancy Brazilian varieties, mixed. Blooming size Bulbs, 40c each. 3 for 95c. 6 for \$1.75. 12 for \$2.95. 25 for \$5.45. Postpaid.

Hastings' Acclimated Dahlias

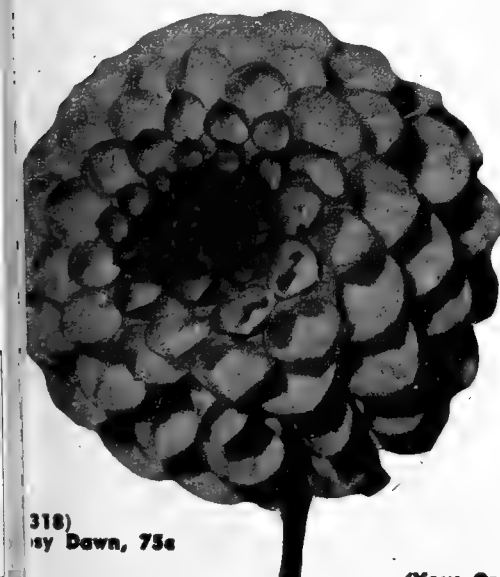

In keeping with our policy of offering only the very best seeds, plants, and bulbs we offer the really outstanding Dahlias for the South on these three pages.

Abbreviations and Symbols

The lettering following variety names relates to the type and size. The first letter—A means large size over 8 inches in diameter. B—Medium, 4 to 8 in. M—small, miniatures, under 4 in. BB—4 to 5 inches.

The second letter refers to type: Ba—ball. FD—Formal Decorative. IC—incurred cactus. ID—informal decorative. STC—straight cactus. SC—semi-cactus etc.

DAHLIA CULTURE—Plant Dahlias only in fairly rich but exceptionally well drained soil so there will be no excess moisture accumulation to sour the tubers. Cover the tubers 6 inches and space them from 2 to 4 feet apart according to the type growth of the variety. Keep growing steadily with good garden fertilizer (high in Potash). Force largest exhibition blooms with lots of water when buds form. Early plantings make best bedding effects. Plant very late for prize blooms to come in autumn. Cut tops at ground level, after frost, and mulch heavily to protect clumps from winter freezing. Lift in late spring to divide and replant.

(318)
Rosy Dawn, 75c

The Perfect Ball Dahlias

3310 BONNIE BLUE. M-Ba. Blue. Nearest to a blue ball. Good stems for cutting. 75c.

HASTINGS' 1954 AMERICAN-GROWN GLADIOLUS

Every Bulb Special Treated Against Insects and Disease

**How to Grow Hastings' Special
Treated Thrip-Free Gladiolus
Bulbs In Your Garden**

It is with pride that we offer these superb top size plump, highest quality, and thrip-free bulbs to you again this season. (We never offer inferior sizes or grades in any seeds, plants or bulbs.)

Plant them freely every week or ten days through spring and early summer for a long and glorious season of bloom for garden color and cut-flowers to bring inside for decorative arrangement.

Set bulbs 4 inches deep and six inches apart in well-prepared and well drained beds, dug deeply.

Sheep manure is excellent fertilizer to use along with other high-grade mixtures. (See page 95.)

Keep the young plants free of weeds and grass at all times and when bloom spikes begin to show see that they have plenty of moisture. Cut stems under water when brought indoors to maintain freshness of flowers. Keep faded florets picked off.

After blooming, the tops should be allowed to die naturally before digging, storing in a frost-free place until spring planting time again.

Authorities recommend: To control old thrip infestations, spray foliage or flowers with DDT (see pages 92-93).

TWELVE ASSORTED BULBS FOR ONE DOLLAR—

ONE HUNDRED STRICTLY TOP-SIZE \$5.95

THRIP-FREE BULBS NOW FOR ONLY Postpaid

(3700) Finest Rainbow Blended Gladiolus Bulbs

12 for \$1.00. 25 for \$1.95. 100 for \$5.95. 500 for \$24.95.

Why Hastings' American Grown Bulbs Are the Best

We Only Offer Young, Vigorous Two-Year Northern Field Grown Bulbs

Each year our experts visit breeding grounds, trial grounds as well as growing farms and many flower shows, learning the best varieties, the finest thrip-free bulbs and the best methods of keeping them until it's time for you to plant them in your garden. This insures your having the best results. Yes, very small or inferior large bulbs that have been forced can be bought, perhaps, at cheaper prices than ours, but we sincerely believe no better bulbs can be bought at any price. We do not offer inferior sizes or worn out grades. That constitutes Hastings' 64-Year Policy of Service.

Fresh American Grown Bulbs

The cleanest bulbs are undoubtedly grown right here in the U.S.A. and you may be sure that the many which are described on these pages are the very tops in quality, representing bulbs produced from the finest planting stock available. These are young, vigorous, yet full sized bulbs and not to be compared with either tiny bulbs or very large flat depleted bulbs which have been discarded by Florists in favor of such as these.

3665 PICARDY

Shrimp Pink. Giant, lightly ruffled flowers of great substance. A great florist's variety that does well indoors and outdoors, bringing highest market prices. Perfect stems and flowers. Prices same as all others on this page.

3617 ABU HASSAN

Violet Blue. A new clear, rich pansy color making very outstanding spikes.

3610 ALCHEMIST

Clear Yellow. Early large flowers in compact attractive array.

3604 BOULOGNE

Wine Red. Tall, dark, vigorous and very free blooming.

3616 CARDINAL SPELLMAN

Red. Huge magenta red with many flowers open.

3606 GENERAL EISENHOWER

Rose Pink. One of largest flowered glads in existence! Tall, very large, late.

3624 GOLD DUST

Yellow. Early, deep yellow blooms on tall, straight spikes.

*Plant Early for
Best Results*

3635 JUNE BELLS

Ruffled White. Very early pure white with violet feather deep in throat. Superb keeper.

3644 LEEUWEN HORST

Pink. An extra large new pink from Holland. Superb cut flowers.

3653 MAID OF ORLEANS—White

White. Pure white flowers have cream throats and bloom, many at same time.

3621 MANSOER

Red. Chocolate red, almost brown. Very unusual novelty.

3640 MARGARET FULTON

Salmon. Rich deep salmon, shaded apricot in throat. Rounded cup-shaped large flowers.

3613 MODERN TIMES

Wine Red. Light wine red with good texture on tall, healthy plant.

3624 MORNING KISS

White. Lovely with contrasting violet throat markings.

3671 PURPLE SUPREME

Purple. Bright purple blooms on tall slender plant. One of the finest ever offered of this color.

3631 RED FOX

Red. Early, deep vermillion red. Very free flowering cut flower.

3632 ROSA VAN LIMA

Pink. One of most beautiful pure pinks with white midrib and throat dusted with lavender feather.

3672 ETHEL CAVE COLE

Pink. One of largest. Gorgeous soft pink. Blooms quite early and makes of the finest florist's cut flower varieties ever offered. We recommend it unreservedly for home or florist.

*The Finest
Florists'
Cut Flower
Gladiolus
from Hastings*

3628 SNOW PRINCESS

White. Early, large white with good facing. Good strong variety and considered the finest new cut flower white. Excellent substance with long keeping qualities.

3687 SPOTLIGHT

Yellow. Deep golden yellow with flaming scarlet blotch. Large and very beautiful.

3627 UHU

Smoky. A most unusual tall novelty blend of pink, salmon, red and tan!

3652 VALERIA

Red. Light red with slightly ruffled flowers. Stands heat and sun to good advantage.

3626 VAN (Johan Van Konijorenburg)

Orange-red. Clear, rich, glowing orange vermillion. An eye catcher!

3625 WHITE GOLD

Cream. Early immense blooms on very tall cutting spike. A real creation.

3646 YELLOW HERALD

Ruffled Yellow. Early amber yellow with carmine throat feathering.

THE SOUTHERN GARDEN BOOK

With its splendid chapters on growing gladiolus and many other kinds of bulbs, no gardener in the South should be without it. Many Garden Clubs are using this book for study, devoting a program to a chapter. It makes a program chairman's job easy! Send for your copy with your seed and bulb order. \$4.95 per copy. Postpaid. (See page 96.)

See opposite page for Hastings' famous Rainbow Mixed Gladiolus.

15 NEWEST SHOW WINNER SELECTIONS

**Ruffled
Beauties from
Hastings' Bulbs
The Finest
in Existence**

Why These Hastings' Gladiolus?

We at Hastings travel extensively and take
observations on the finest new plant and bulb
varieties in the world and compare them with
old favorites. We add each year the best of
the newest, grown for you in top grade bulbs
to give the most satisfactory results.

We do not offer cheap diseased foreign stock,
undersized bulbs, nor bulbs worn out from
forcing. Always plant Hastings' young, fresh,
vigorous bulbs—carefully treated for insect
and disease protection.

THRIP CONTROL

Our bulbs are treated and are thrip free but
sometimes these tiny insects are carried by larger
insects from other flower infestations and some-
times from quite a distance. Fortunately DDT has
proven an easy and effective control applied as
dust or spray. See our full listing of such mate-
rials on pages 92-93.

REMEMBER!

When you order from Hastings you are assured of
not only the very best in size and quality but you
get the choice of the newest as well as the best of
the older varieties. These gladiolus offered are
certainly the pick of all American and European
introductions. All are strictly American grown

THE CREAM OF THE CROP

The Most Exquisite of All Gladiolus

ALL PRICES POSTPAID

PLANTING ROSES

Planting time. All authorities insist that roses are best transplanted only during their dormancy which extends from early December until late March.

How to plant. The grower should prepare new beds several weeks before expected arrival of plants, digging preferably 24-30 inches deep, mixing rotted lot or sheep manure in generous amounts, then allowing same to settle before actual planting.

When your roses are received they should be opened and the entire plants, tops and roots, soaked in water 3 to 4 hours, pruning off any twisted or broken branches or roots. We do the principal pruning for you.

Plant most bush roses 24 inches apart, climbers 6 to 10 feet apart as desired. Mulch all kinds heavily with pine straw, peat moss, vermiculite or similar good mulching material.

EVERBLOOMING CLIMBERS

N627 CLIMBING CRIMSON GLORY. Clb. HT. Crimson. Patent 736. A magnificent rose with richest fragrance, perfect form and color and now available in vigorous climbing plants. \$2.50 each. 3 for \$6.75.

N623 GOLDEN CLIMBER. Cl. HT. Golden Yellow. Patent 28. Gorgeous Tea-like blooms on long stems for cutting. \$1.50 each. 3 for \$3.75.

N650 CLIMBING K. A. VIKTORIA. Cl. HT. White. Very double, pure white, perfectly formed flowers with a faint lemon center. Moderately strong climber and preferred to the bush form. \$1.25 each.

N633 CLIMBING RED RADIANCE. Cl. HT. Rose-Red. Climbing form of America's most popular Rose. Big, globular flowers on fine cutting stems. Just as fine as Radiance and deeper color. \$1.25.

N641 CLIMBING RADIANCE. Cl. HT. Rose-Pink. Climbing form of this most satisfactory of all pink Roses. In great demand and stock is limited. \$1.25 each.

N626 CLIMBING PEACE. Cl. HT. Pat. 932. A magnificent climbing form of this most popular patented Rose in the world! Same gorgeous golden color and heavily doubled flowers on strong stems in a climber. \$2.50.

N622 CLIMBING TALISMAN. Cl. HT. Red and Gold. A glorified Talisman, of stronger growth, larger and better flowers on stronger stems for cutting. Beautiful long-pointed buds and the most striking bicolor effect of all Roses. \$1.25 each.

PAUL'S SCARLET CLIMBER

N635 PAUL'S SCARLET CLIMBER. HW. Plant them to cover terraces, trellises, mailboxes, and garages. Outline the bush Rose garden with climbers for background and enclosure. This glorious climber brings the most colorful display to the garden.

Intense scarlet flowers of fine shape; brightest and purest red climber. Midseason. Excellent pillar Rose. Blooms in clusters and lasts several weeks. Easily the most brilliant red Climber; holds its color. Cover your fences with it. \$1.25 each. 3 for \$3.25. 12 for \$11.95. 25 for \$22.50. Delivered.

N643 MARY WALLACE. HW. Bright Pink. Large, very bright pink suffused shining gold; double fragrant. Vigorous (10 to 15 ft.) Superb foliage. \$1.25.

N625 MERMAID. HB. Ivory-White. Absolutely beautiful, immense single flowers. Pale yellow with huge clusters of amber stamens. Clusters of buds on tips of new growth. Glistening foliage. \$1.50 each.

N653 DR. W. VAN FLEET. HW. Pink. Strong vigorous grower to cover fences or trellis. Loveliest pink buds, opening to double, soft pink flowers in great masses. \$1.25 each.

N651 SILVER MOON. HW. White. Greatest white climber. Long creamy buds, nearly single gigantic flowers in sprays. Extra vigorous, growing 15 to 20 feet in one season. Perfect foliage. \$1.25 each.

Stops early and late blight of tomatoes, potatoes; downy mildew of squash, cucumbers and melons. Stops various blights, rusts and leaf spots on chrysanthemums, snap-dragons, azaleas and camellias. (Not for roses). Contains no copper. Will not burn tender plants. 6 Oz., 98c. Postpaid.

DUPONT ROSE DUST

Containing Fermate and Sulphur this combination has proven most effective in control of rose diseases and some insects. May be used as dust or spray. 8 Oz. Dust gun, 89c. 1 Lb., \$1.25. Postpaid.

VEGETABLE GARDEN DUST YES, IT'S SAFE TO USE

This new combination of most effective insecticides and fungicides just recently announced by DuPont is exactly what our customers have been wanting. One easily applied material to do the entire job, and safely. It has no DDT, but does have rotenone, methoxychlor and parzate. Dupont vegetable garden dust may be dusted directly on the plants or vines or it may be mixed with water and sprayed, whichever is most convenient. Order some now to have ready in case of trouble in the garden. 8 Oz. Duster Gun, 98c. 1 Lb., \$1.39, 3 Lbs., \$2.95. Postpaid.

"DEENATE 75 W"

DUPONT 75% WETTABLE DDT

A highly concentrated and inexpensive powder form of DDT at 75 per cent strength, to be mixed with water for all agricultural uses for which DDT is adapted. Full directions for mixing on each package, together with caution suggestions. To control flea beetles, potato bugs, cabbage worms, leaf hoppers, caterpillars, etc., on many crops, trees, animals and around buildings. 1 Lb., \$1.25. 4 Lbs., \$2.95. Postpaid. Write for quantity prices.

FERMATE DISEASE CONTROL

Fermate—A fungicide which tobacco growers and experiment stations consider the most effective and cheapest control of tobacco Blue Mold. Also controls damping off of many plants. It is recommended for black spot, mildew, anthracnose and many other leaf borne diseases. 8 Oz., 89c. 3 Lbs., \$2.95. Postpaid.

WEED—BRUSH KILLERS

AMMATE—DUPONT WEED KILLER

For Poison Ivy, weeds, etc. Sensational new weed killer to spray on leaves, killing out even the roots of many noxious and dangerous weed pests. Dead remains are fireproof and do not harm livestock. 2 Lbs., \$1.35. 6 Lbs., \$3.35. Postpaid. F.O.B. 50 Lbs., \$13.75. 75 Lbs., bags, \$18.00. Full directions on package.

DUPONT LIQUID 2,4-D WEED KILLER FOR LAWNS

Liquid weed killer containing 15% ester of 2, 4-D for use in killing weeds on small lawn areas. Mix with water and spray. Half Pint Cans, \$1.25. Qt., \$3.35. Postpaid.

DUPONT TOMATO DUST

To keep your tomatoes free of insect infestations as well as controllable diseases. 8 Oz., dust with gun complete for use. 89c. 2 Lbs., \$1.25.

DUPONT FRUIT TREE SPRAY

An ideal combination of control materials to give protection to all kinds of fruits in your orchard. Superb for the back yard orchardist with only a few trees of different kinds. Lb., \$1.29. 3 Lbs., \$2.95. Postpaid.

SODIUM TCA WEED KILLER

An even newer weed killer and also may be used for control of many annual and perennial noxious grasses, including Johnson Grass, Bermuda Grass, Crab Grass, Foxtail, Chess or Cheat, etc. TCA weed killer must not be used on lawns. F.O.B. Atlanta. 10 Lbs., \$6.90.

PC CRAB GRASS KILLER

Most effective control to kill out crab grass in early summer. 7 1/2 Oz., (to cover 1500 sq. ft.) \$1.25. 30 Oz., (6000 sq. ft.) \$3.35. Postpaid.

SPECIAL LAWN AIDS

The secrets to successful lawns in the heavy soil and clay sections of the South are 1. Plenty of moisture when needed. 2. Proper lawn mowing in summer—(mixtures—2 inches or more. Bermuda, centipede, etc., about 1 inch). 3. Aeration of the root feeding area to allow life giving oxygen to the roots. The following will assist—

HAND AERI-FORKE

Operated by foot and excellent for those mossy places. \$8.75. Postpaid.

SPIKE DISC CULTIVATOR (32 Lbs.)

Large rotary type with spikes to penetrate and loosen the sod for aeration without ruining it. \$18.70. F.O.B. Atlanta.

SPIKE DISC CULTIVATOR (100 Lbs.)

Larger and heavier for large lawns. \$51.00 F.O.B. Atlanta.

RESINITE FLEXIBLE SPRINKLER

Twin tubes of resinite with spacing of outlets to give complete watering. 25 ft., \$4.45. 50 ft., \$6.75. Postpaid.

SEYMOUR SEED KASTER

Nifty and efficient seed sower to save time and give an even coverage of lawn and other small seed. \$5.65. Postpaid.

DOWFUME MC-2 KIT FOR NEMATODE, NUT GRASS, ETC.

This new soil fumigant is ideal for seed beds, tobacco beds, greenhouse benches, beds, top soil and limited outdoor infestations of wild onions, nut grass, root knot, nematodes, weed seeds, many disease spores, etc. It is very simple in application and complete directions come with each kit. Complete kit containing 100 sq. ft. protective cover,

4 cans methyl bromide and special applicator. Ready to use. \$15.00 F.O.B. Atlanta.

For Treating Larger Areas

Dowfume made by Dow Chemical Co. Write for descriptions and prices.

SPRAYING AND PRUNING

Plant, Prune, Spray Right for Fine Fruits and Flowers.

Hastings' Is Headquarters for Materials—See Pages 92-93

APPLES. Pruning. Plant young trees with strong terminal buds. Select 3 buds or small branches a foot apart around trunk, lowest bud at height desired for lowest limb. Other buds are cut out with sharp knife. If other branches develop, cut them off the following spring. As desired branches develop after the first year, select buds to retain as on the whip, pointing in different directions for balance. Keep other branches off by pruning close to limb or trunk. Besides, prune out all dead, diseased, weak branches and any which would interfere with more desirable branches each spring.

Spraying. For home orchards 4 or 5 sprays are needed each year to prevent fungous and insect infestations, as follows. 1. Dormant spray. This delayed spray is made when fruit buds become silvery colored and before young leaves develop. Use Lime-Sulphur with addition of Black-Leaf 40, nicotine sulphate, as directed on packages, against scales, scab, red mite and aphids. 2. Pink bud spray. Use when fruit buds show pink color, Pan Apple Spray (p. 80) against scab, curculio, worms and caterpillars. 3. Calyx spray. Use when petals drop and before calyx closes. Pan Apple Spray (p. 80) as on package directions. 4. Use same spray 10 days later. 5. Same spray 15 days later. If only 2 sprayings are made a year, use numbers 1 and 3 as most important.

PEACHES. Pruning. Plant small trees and prune to 3 or 4 chosen buds or branches 8 to 12 inches apart on trunk and pointing in different directions to avoid later splitting. Prune back the main stem above chosen top bud or branch. The second year, before buds swell, cut off all shoots not needed for the tree's framework, keeping tree rather low and open in center. After bearing begins, cut back new shoots in mid-winter at least half way.

Spraying. The general program is 4 sprayings. 1. In winter use a strong Lime-Sulphur spray according to package instructions against leaf-curl and San Jose scale. 2. After petals drop and husks split from young fruits, use Pan Peach Spray against scab, brown rot and curculio. 3. Repeat this spray 15 days later. 4. Use Pan Peach Spray 15 to 20 days later against scab and brown rot. Borers may infest trunks at or beneath the soil surface. Examine for injury in June and September. Dig borers out with knife and wire. Use Para-Scalecide around trunks of older trees about October 1st, as directed on package. (See page 92.)

THE BEST PRUNING SHEARS

Only the strongest, heaviest, well-tempered steel is worth having in pruning shears. Shears that "cut" instead of "chew" are necessary for a good job. We have such shears to last for years, which will not pinch your hand. No. 808. Pruning Shears. Postpaid, \$4.69.

PEARS. Pruning. Prune pears as directed for apples except that more secondary branches are left to use for others in case of fire blight, the worst enemy. If blight occurs, with leaves turning black, cut off all blighted parts, disinfecting tools after each cut. Orient variety is best.

Spraying. If leaf-spot diseases occur to defoliate use Pan Apple Spray (p. 80). Lime-Sulphur is also used as a winter spray against scale on the bark.

CHERRIES. Pruning. On planting, prune to 3 to 5 of best placed buds or branches around trunk but don't cut back tips of branches. Otherwise leave alone except for interfering branches until bearing. Then interior shaded branches may be removed to admit air and sunlight.

Spraying. 1. Use Pan Peach Spray when bud scales separate and show green. Add a teaspoonful of Black-Leaf 40 per gallon for sweet cherries. 2. Use Pan Peach Spray as husks split from the young fruit. 3. Use same spray 10 days later. 4. In years when leaf-spot is bad, use Lime-Sulphur after harvesting.

PLUMS. Prune as for young apples. Spray for brown rot as for peaches. If leaf-blight or black-spot diseases should attack leaves, use the Cherry spray schedule. Aphids are controlled by using Black-Leaf 40. For plum curculio, crescent-like markings in the fruit, use Pan Peach Spray right after flower petals fall and again 10 days later.

BERRIES. Blackberries and Dewberries should be pruned. Pinch off tips when about 3 feet tall or long to develop low branches. After fruiting, cut out old stems as they are through bearing and will die anyway. Pull up between-row suckers to prevent spreading out of control. If underside of leaves develop a bright orange rust, pull up plants and burn them. Burn any canes infested with borers. Spray with Black-Leaf 40 for leaf miners in summer and with Bordeaux Mixture in winter as rust preventive.

Raspberries are pruned as for Blackberries. In early spring remove dead and weak canes and shorten long new canes, leaving 3 to 5 strong

canes per plant to fruit each year. Main diseases, as with Blackberries, are yellows, anthracnose, orange-rust and cane-blight. Remove and burn diseased plants, as also for cane and root borers. Spray as above.

GRAPES. (Vine and Bunch types.) Pruning. Never cut in summer. Only prune while dormant, preferably in December. Very long, overgrown canes are usually sterile so cut them off at their bases. Reduce length and number of normal shoots, thickness of a pencil which will bear the next summer. Start training after second year, selecting 2, 4 or 6 canes from main stem in pairs to train horizontally, as in picture below, each cane restricted to bear 6 to 10 buds, according to its strength. Each bud should average 2 grape clusters.

Spraying. Black-rot is the worst disease and spraying for that usually controls most other diseases and insects. Plow under rotted fruit in early spring. Spray 4 or 5 times with Bordeaux Mixture—first when new growth is starting, second when new growth is about 10 inches long, third after blossoms drop, fourth 10 days later, and fifth 15 days later. Second and third sprayings should have added a heaping tablespoonful of Arsenate of Lead to each gallon of spray to control flea beetle, rose chafer, berry moth and root worm.

GARDENIAS-CAMELLIAS and other broadleaf evergreens. Pruning may be done generally after blooming or as needed to keep desired size and shape. **Spraying.** Florida Volck sprayed as needed for white fly and scale using care never to apply in very hot or very cold weather.

FLOWERING SHRUBS, FLOWERS. Pruning. After blooming is proper time to prune except disbudbing when desired for improved flowering habits. **Spraying.** Spray or dust with Dupont Floral Dust to control insects eating foliage or disease as necessary.

BOXWOOD. Prune as necessary to retain correct size and shape.

Spraying. Use 25% DDT in oil in spring to control box leaf minor. Dust with sulphur in cool weather in summer or spray with MALATHION to control red spider (mites).

ROSES. Pruning. When buds swell noticeably in spring, bush roses are cut back 1/3 to 2/3 normal growth and all dead and diseased canes entirely. Later pruning is for training to desired size. Spring flowering climbers (HW) are pruned only after blooming is over, cutting back 1/3-1/2 normal growth or train to desired area and all dead and diseased canes. C.H.T. roses are pruned with bush roses.

Spraying. Weekly spraying or dusting with Dupont Floral Dust Fermate, or spraying with Triogen gives ample protection against black spot, mildew, anthracnose, etc.

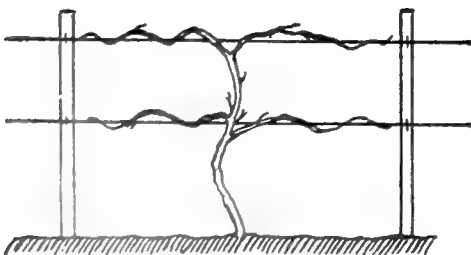

SEE PAGES 92-93 FOR COMPLETE LISTING OF ALL SPRAY MATERIALS, ETC.

HASTINGS IS HEADQUARTERS FOR BEE SUPPLIES—WRITE FOR FREE BEE CATALOG

For many years Hastings has specialized in the very best bee supplies and we have trained experts at each of our branch stores to advise you with your apia problems. For our many thousands of mail order customers we have a bee supply catalog listing the famous ROOT products and others

including the newest and best perfected bodies. Write for it and save with the best made. May we suggest that you order your bee supplies early, so that you will have them in plenty of time.

Remember Hastings is distributor headquarters for ROOT supplies!

Plant Foods — Growing Aids for Better Gardening

HASTINGS' SPECIAL LAWN FERTILIZER!

25% ORGANIC — 10% NITROGEN — 6% PHOSPHATE — 4% POTASH

All grass experts know that nitrogen is the greatest growth factor in any and all fertilizer mixtures and that food elements from organic materials make them more lasting. We offer this extra growth plant food mixture to you because you need use only 1/2 as much as ordinary mixtures. This, of

course, saves you money on cost as well as transportation. Feed established lawns in March, September, and December in the South for best results using 25 lbs. per 1,000 sq. ft. of lawn area. Hastings' Lawn Fertilizer, F. O. B. Atlanta, 50 Lbs., \$3.50. 250 Lbs., \$17.25. 1000 Lbs., \$65.00.

ES—
MIN—
EL

FRUITS AND VEGETABLES RICH IN VITAMINS CANNOT GROW IN SOIL POOR IN MINERALS

ES—
MIN—
EL

Order ES-MIN-EL today. 5 POUNDS—(FOR 5,000 SQ. FT. GARDEN) \$1.69 POSTPAID.

Only one treatment of the soil lasts all year even with heavy cropping. Grow healthier, finer crops, much richer in vital vitamins, with ES-MIN-EL (Product of Tennessee Corporation—huge chemical manufacturers)—mineralize your garden for Greater production, 5 Lbs., \$1.69. Postpaid.

(Sufficient for the average garden up to 5,000 sq. ft.) Use it in the flower garden, too—no restrictions. No smaller amounts sold than 5 Lbs., F.O.B. 100 Lbs., \$9.00. No garden should be without all plant food elements, and Esminel is your insurance in having an abundant supply.

PULVERIZED SHEEP MANURE PERMANENTLY IMPROVES ALL SOILS AND MAKES BETTER AND BRIGHTER GARDENS

This natural plant food is prepared by a special direct heat drying and sterilizing process that kills all weed seeds. Wizard also supplies all the essential plant food elements in a natural form, easily digested by plants. Manures increase the water holding capacity of the soil and lessen damage from droughts.

Dried and pulverized Sheep Manure is concentrated such that a 100 pound bag equals in value a sizeable wagon load of raw manure. It is far easier and more pleasant to use, too.

Wizard is ideal for all plants and full directions for application are in every bag. For old lawns apply 7 to 10 lbs., and in preparing new lawns 10 to 12 lbs. per 100 sq. ft. For flowers use a handful mixed with the soil under each new plant or 10 to 12 lbs. per 100 sq. ft. of bed area. For shrubs, vines and trees use 1 to 10 lbs. according to size.

PRICES: 50 Lbs., \$2.35. 100 Lbs., \$4.50. 200 Lbs., \$8.80. 500 Lbs., \$21.25. 1 Ton, \$75.00. F.O.B. Atlanta. By Freight Charges Collect.

FULTON'S PLANTABBS Odorless Plant Food Tablets Containing Vitamin B₁

For plants in pots, boxes or beds, either indoors or outdoors. Plantabbs are very rich. Nitrogen, phosphoric acid, and Potash, PLUS the proper effective amount of Vitamin B₁. The Vitamin B₁ makes many sick and weak plants healthy and the plant food feeds them into a vigorous and normal development. It is always hard to know exactly how much plant food to give each potted plant unless you use Plantabbs which is so carefully measured out in easy to use tablet form. Full directions with each package, large or small. Small size (30 tablets) 30c. 75 tablets for 60c. 200 tablets (Special economy size) for \$1.25. Large professional size (1,000 tablets) \$3.75. Postpaid.

A Must For Every Southern Gardener

10 DAYS TRIAL

Your Money Refunded If You Don't Like It

Just Return In Good Condition

At last a real Southern Garden Book to guide you in your work with Southern soils, Southern climate and Southern plant material in making your home lovely and livable in keeping with the traditions of gracious living so typical of the Old South.

The authors, with able assistance by Charles J. Hudson, Jr., bring to you a keen understanding of how plants live, and grow, and produce in this wonderful Southland of ours and where gardening opportunities are greater than in any other section. The special chapter on flower arrangement tells of the basic principles in handling flowers and decorative material inside the home and is worth the price in the sound arrangement points discussed.

Roses, Dahlias, Lawns, Shrubs, Trees, Evergreens, Fruits, Vegetables, Annual and Perennial Flowers, Bulbs, Pansies, Indoor and Seaside Gardening, Flower arranging and others are discussed in detail as are other subjects related to gardening—Fertilizers, Soils, Moisture Supply, Pest Control, Planting Tables and Useful Practices to save time, effort and money.

Every Southern gardener should have a copy for ready reference at all times. It will save its cost over and over again every season that you follow the many practical suggestions and follow the common sense practices described. The Southern Garden Book is recommended by the National Council of State Garden Clubs and is included in the list of 100 best garden books ever written!

"The answer to a Southern gardener's prayer is 'The Southern Garden Book', written by Southerners for Southerners."—Al Alleman, Baton Rouge, La., Morning Advocate.

"Here is a garden book that gets right down to earth with explicit garden information."—Ben Arthur Davis, Hollands Magazine.

"A good all around gardening book by and for Southerners is sufficiently rare to be something of a landmark in horticultural publishing and the Hastings are to be congratulated on being the authors of just such a volume."—Robt. S. Lemmon, New York Herald Tribune.

"For years Southern gardeners have had to rely far too often on books written by and for Northern gardeners. That is why this recent release is not only timely, but makes North Carolinians feel at home from the first through the last of its 28 chapters."—Raleigh News and Observer.

"Garden books that deal with and for the South are that rare . . . when one comes along that is good it is worth shouting about."—Elise Beauchamp, The New Orleans Times Picayune, States.

These and many more fine reviews and tributes were published in national as well as Southern magazines and newspapers.

Such a book just has to be good and worth while to come through with so many recommendations, and too it has been adopted for study by several Southern Colleges and Universities and Vocational Training Groups.

All prices include delivery postpaid.

Send All Mail Orders Directly To H. G. Hastings Co., Atlanta, Ga. — We Have No Agents.

READ DIRECTIONS FOR ORDERING

It's Easier to Shop by Mail—We Are as Near as Your Mail Box

Hastings' Branch Stores We are very proud of our three branch stores located at 2205 Second Ave., N., Birmingham, Ala.; at 715 Cherry St., Chattanooga, Tenn., and 218 N. College St., Charlotte, N. C. In these stores we offer genuine Hastings' quality products and service and are delighted for you to call by to see us at these locations if you live in or visit these great Southern cities. Please send mail orders directly to Atlanta, however, for quickest service. We have positively no agents.

Stamps On orders of seeds where the amount is less than 50 cents, we will accept U. S. postage stamps in good condition (one, two and three-cent stamps preferred) the same as cash, but we would ask those remitting stamps to wrap them in oiled paper, if possible, to prevent their sticking together or to the order.

C. O. D. Notice Absolutely no plants or other perishable goods will be sent C. O. D. We advise against C. O. D. orders because of delays and high collection charges which are unsatisfactory to the customer and expensive to us if uncalled for and returned at our expense. We accept C. O. D. orders for seeds in exceptional cases when 25% of the order amount is paid in advance.

About Warranty H. G. HASTINGS CO. warrants to the extent of the purchase price that seeds, bulbs or plants sold are as described on the container within recognized tolerances. Seller gives no further warranty express or implied. If purchaser does not accept the goods on these terms, they are at once to be returned, and any money that may have been paid for them will be refunded. Crops are dependent for success or failure on so many things that it is impossible for us to give further warranty or guarantee. This does not mean that we lack confidence in the products we sell, but we have no control over them after they leave our house, especially so as to the methods of planting, cultivating and fertilizing and seasonal conditions, all of which are important factors in the success of any crop. If we should warrant or guarantee productiveness in anyway, we could be held responsible for the failure of the crop, regardless of cause, and this is a responsibility we cannot and will not accept.

We Pay the Postage (Within U.S.A. only.) On all seeds in this catalog listed in packet, half ounce, ounce, quarter pound, half pound, pound, 2-pound, 5-pound and 10-pound quantities, we pay the postage, except where F. O. B. price is indicated, and guarantee safe delivery by mail. We pay the postage on plants and bulbs except in larger sizes or quantities where a "Not Prepaid" or F. O. B. price is named. F. O. B. (free on board) means that we turn the package over to the freight or express company and that customer accepts full responsibility for transportation charges, usually collected at the time of delivery.

Foreign Shipments We cannot accept orders for plants, bulbs or garden accessories for shipment outside the United States because of many rules and regulations that are so costly. We sometimes accept orders for seeds only but to countries having postal arrangements with this country. All postage or shipping and packing charges on foreign shipments are in addition to the prices of any and all seeds quoted.

You Pay the Postage When you order any kind of seeds at "Not Prepaid" or "F. O. B." prices stated in the catalog, you pay the postage, express or freight. The same applies to quantity lots of bulbs and to plants listed at "Not Prepaid" or F. O. B. prices.

When you order seeds in 10 to 100-pound lots or over at "Not Prepaid" prices you can have the seeds sent to you by parcel post, express or freight but you must pay the transportation charges.

Large F.O.B. trees cannot be sent by mail. They are too large and the P. O. will not accept them. They must be sent by Express, or by motor freight. Rail freight is generally too slow.

When you order your seeds to come by express or freight we can send them "collect" so you may pay the transportation charges on delivery. If you want f.o.b. orders (those not too large) to be sent by parcel post the postage must be paid IN ADVANCE and you must send us the amount of postage in addition to the cost of the order.

Your Postmaster and generally your R. F. D. Carrier can tell you what zone you are in from Atlanta.

How to Figure Postage First figure up the weight in pounds on "Not Prepaid" items you are ordering. Then find what zone you are in from Atlanta. Take the number of pounds you are ordering in the first column and read straight across to your zone column and the amount shown is the postage to send us in addition to the cost of the seed, so we can prepay the postage.

As an example we will suppose that you want to order 15 pounds, a peck of corn with bag containing it. If you lived in either the 1st or 2nd postal zones from Atlanta the amount to be sent us in addition to the price of the corn would be 79c; for the 3rd zone 96c; for the 4th zone \$1.21 and so on. With the table shown it's very easy to figure it exactly, once you know what your zone number is.

If at all in doubt as to your zone be sure and send enough to cover necessary postage. If you send too much, the surplus will be returned to you.

Seventy pounds is the weight limit. If larger quantities are wanted it will have to be split into two or more shipments.

New Parcel Post Rates (subject to change)

Effective since October 1, 1953

HASTINGS' *Southern Lawn Grasses*

BACKED BY SIXTY-FIVE YEARS OF EXPERIENCE

(550) HASTINGS' EVERGREEN LAWN GRASS

(Dupont Arasan Treated)

An extremely popular lawn grass mixture for the upper South, for full sun to semi-shaded areas. It grows off quickly, has a rich green color, fine texture, is slightly creeping, smooth and velvety. It really makes a luxuriant green carpet, and years of experience have proven it to be one of the best of all lawn mixtures for spring and fall planting. It also makes an excellent overplanting in the fall over Bermuda lawns in the lower South for winter color. Our own special formula mixture. You get it only direct from Hastings. If soils are very acid, add lime at the rate of 100 lbs. per 1,000 sq. ft. Water well in dry summer months. Set mower blades at 2 inches in summer. Sow 5 lbs. per 1,000 sq. ft.

Postpaid. Lb. \$1.10, 5 lbs. \$4.75, 10 lbs. \$9.00.

(531) HULLED BERMUDA GRASS

Most valuable grass for the South. Stands drought and scorching summer sun better than any other variety, has a creeping, spreading habit, stands roughest use, and is indispensable for full sunny locations. Ideal for all sections of the South—for sandy soils to clay soils, but applications of peatmoss to either extreme soil type will result in a much finer growth. For best results, topdress twice a year (April and October), with a mixture of peatmoss and sheep manure, half and half. Our Hulled Bermuda grass sprouts in a week when soil is moist. This is our famous Bermuda with the almost water-tight hulls removed. Seed only in the spring after the coolest season is past (May to August), and earlier or later in the lower and upper South. Seed at rate of 2 lbs. per 1,000 sq. ft. Bermuda seed will not germinate in cool soils.

Postpaid. Lb. \$1.10, 5 lbs. \$5.00, 10 lbs. \$9.00.

(551) HASTINGS' SOUTHERN ALL-PERENNIAL LAWN GRASS

(Dupont Arasan Treated)

*Finest Southern Formulation
by Hastings' Lawn Experts*

Our newest and choicest grass seed mixture of all-perennial grasses for permanent lawns of high quality. No cheap annual or short-lived nurse grasses such as rye grass, timothy or red top are used in this mixture. Ideal for use in the upper South where cool season grasses thrive. Provides a smooth, velvety turf of pleasing texture. Fine for sun or semi-shade. For best results, lime soil prior to seeding to provide a near-neutral soil reaction and apply KRILIUM for aeration. Seed at rate of 5 lbs. per 1,000 sq. ft. Sow in early spring to establish before hot weather. Set mower blades at 2 inches in summer.

**Postpaid. Lb. \$1.15, 5 lbs. \$5.00,
10 lbs. \$9.50.**

(555) HASTINGS' SHADY LAWN GRASS

(Dupont Arasan Treated)

For shady places in the upper half of the Cotton Belt, and farther north. It makes a wonderful winter and spring grass carpet, and stands hot summers in shady places better than most other grasses. This is our famous Evergreen Mixture with the addition of Poa trivialis and Bent grasses, the best grasses for shady places. Although this mixture is shade tolerant, areas planted closely under large trees must be given more frequent feedings and waterings to offset competition of tree roots. Liming and deep soil preparation help to maintain the desired soil reaction and aeration. Plant in well prepared soil. Keep fed and watered. Set mower blades at 2 inches in summer. Sow 5 lbs. per 1,000 sq. ft.

**Postpaid. Lb. \$1.15, 5 lbs. \$5.00,
10 lbs. \$9.50.**

*For planting and lawn care directions as well as complete listing of separate kinds
and varieties of grasses, see pages 46-47*

New Congo Watermelon

SELLS FOR MORE MONEY IN EVERY MARKET

ALL-AMERICA SELECTIONS

This great new introduction by the U. S. D. A. has not only garden and market quality to last in prime condition for days if necessary, but has excellent size with very thick and solid flesh. In addition, Congo has extreme resistance to the feared anthracnose disease that can ruin crops very quickly. Play safe this year with Congo.

Our seed fields are carefully inspected each year and our stock is from the original U. S. D. A. introduction, insuring the very finest quality and uniformity. Our seed fields were superb last summer.

255 CONGO PRICES: Pkt. 20c., oz. 35c., ¼lb. 90c., lb. \$2.50, 5 lbs. \$11.25, 10 lbs. \$20.00. Postpaid.

255C CERTIFIED CONGO. Sealed, certified one-pound bags \$3.50 each. Price same in all quantities, one pound or more. Crops inspected and seed bags sealed by proper authorities.
